**Subject:** Where Have All Your Gas Dollars Gone Long Time Passing - Dubai UAE - Dubia World Default

To: Property Rights Groups, Freedom Foundations, Washington State House & Senate, US Reps. & Senators, King County & Ag, Especially Association of Washington Cities, New London City, Media, Friends

---

You will recognize the lesson here but this time it is an oil rich Arab Gulf city of Dubai UAE which was a adobe housed "mirage in the desert" no further back than the late 1970's. Dubai World, a government owned corporation is in default.

Once again we see how the city state corporate triangle bankrupts oil rich Arab kingdoms. Whether it is the Association of Washington Cities or Association of National Cities or "associations of oil cities", the mind set is the same, e.g. give us the revenue and we will bankrupt the municipality.

|  
**Want to see your gas dollars at work?**

Dubai in 1990

The same street in 2003

Last year

11/3/2010

The madness. Dubai is said to currently have [15-25% of all the world's cranes](#).

The Dubai Waterfront. When completed it will become the [largest waterfront development in the world](#).

11/3/2010

All of this was built in the last 5 years,  
including that island that looks like a palm tree.

The Palm  
Islands in Dubai . New Dutch dredging technology  
was used to create these massive man made islands.

They are the largest artificial islands in the world and can be seen from  
space.

Three of these Palms will be made with the last one being the largest of them all.

11/3/2010

Upon completion, the resort will have 2,000 villas, 40 luxury hotels, shopping centers, movie theaters, and many other facilities.

It is expected to support a population of approximately 500,000 people. It is advertised as being visible from the moon.

**The World Islands .**  
300 artificially created islands in the shape of the world

Each island will have an estimated cost of \$25-30 million.

11/3/2010

The Burj al-Arab hotel in Dubai . The worlds tallest hotel.

Considered the only '7 star' hotel and the most luxurious hotel in the world.

It stands on an artificial island in the sea.

11/3/2010

Hydropolis, the world's first underwater hotel.

Entirely built in Germany and then assembled in Dubai, it is scheduled to be completed by 2009 after many delays.

11/3/2010

The Burj Dubai. Construction began in 2005 and is expected to be complete by 2008.

At an estimated height of over 800 meters, it will easily be the world's tallest building when finished.

It will be almost 40 percent taller than the current tallest building, the Taipei 101.

11/3/2010

**This is what downtown Dubai will look like around 2008-2009.**

**More than 140 stories of the Burj Dubai have already been completed.**

**It is already the worlds tallest man made structure and it is still not scheduled to be completed for at least another year.**

11/3/2010

The Al Burj. This will be the centerpiece of the Dubai Waterfront. Once completed it will take over the title of the tallest structure in the world from the Burj Dubai.

11/3/2010

Recently it was announced that the final height of this tower will be 1200 meters.

That would make it more than 30 percent taller than the Burj Dubai and three times as tall as the Empire State Building.

11/3/2010

The Burj al Alam, or The World Tower .  
Upon completion it will rank as the world's highest hotel.

It is expected to be finished by 2009. At 480 meters it will only be 28 meters shorter than the Taipei 101.

11/3/2010

The Trump International Hotel & Tower, which will be the centerpiece of one of the palm islands, The Palm Jumeirah.

11/3/2010

Dubailand. Currently, the largest amusement park collection in the world and so is Walt Disney World Resort in Orlando, which is also the largest single-site employer in the United States with 58,000 employees.

Dubailand will be twice the size.

Dubailand will be built on 3 billion square feet (107 miles<sup>2</sup>) at an estimated \$20 billion price tag. The site will include a purported 45 mega projects and 200 hundred other smaller projects.

11/3/2010

Dubai Sports City .  
A huge collection of sports arenas located in Dubailand.

Currently, the Walt Disney World Resort is the #1 tourist destination in the world. Once fully completed, Dubailand will easily take over that title since it is expected to attract 200,000 visitors daily.

11/3/2010

The Dubai Marina is an entirely man made development that will contain over 200 high rise buildings when finished.

It will be home to some of the tallest residential structures in the world.

The completed first phase of the project is shown.

Most of the other high rise buildings will be finished by 2009-2010.

Dubai Mall will be the largest shopping mall in the world with over 9 million square feet of shopping and around 1000 stores. It will be completed in 2008.

Ski Dubai, which is already open, is the largest indoor skiing facility in the world.

This is a rendered image of another future indoor skiing facility that is being planned.

11/3/2010

Some of the tallest buildings in the world, such as Ocean Heights and The Princess Tower, which will be the largest residential building in the world at over a 100 stories, that will line the Dubai Marina .

The UAE Spaceport would be the first spaceport in the world if construction ever gets under way.

And ... The Dubai Metro system, once completed, will become the largest fully automated rail system in the world. The Dubai World Central International Airport will become the largest airport in size when it is completed. It will also eventually become the busiest airport in the world, based on passenger volume. There are more construction workers in Dubai than there are actual citizens.

KINDA GIVES ONE AN INCENTIVE TO CONSERVE DOESN'T IT????

**Gas rationing in the 80's worked even though we grumbled about it.**

**It might even be good for us! The Saudis are boycotting American goods. We should return the favor.**

**An interesting thought is to boycott their GAS.**

**Every time you fill up the car, you can avoid putting more money into the coffers of Saudi Arabia . Just buy from gas companies that don't import their oil from the Saudis.**

**Nothing is more frustrating than the feeling that every time I fill-up the tank, I am sending my money to people who are trying to kill me, my family, and my friends.**

**I thought it might be interesting for you to know which oil companies are the best to buy gas from and which major companies import Middle Eastern oil.**

11/3/2010

**These companies import Middle Eastern oil:**

Shell..... 205,742,000 barrels

Chevron/Texaco.... 144,332,000 barrels

Exxon/Mobil..... 130,082,000 barrels

Marathon/Speedway... 117,740,000 barrels

Amoco.....62,231,000 barrels

**Citgo gas is from South America , from a Dictator who hates Americans.**

If you do the math at \$30/barrel, these imports amount to over \$18 BILLION! (oil is now \$90 - \$100 a barrel).

**Here are some large companies that DO NOT import Middle Eastern oil:**

Sunoco.....0 barrels

Conoco.....0 barrels

Sinclair.....0 barrels

BP/Phillips.....0 barrels

Hess.....0 barrels

ARC0.....0 barrels

All of this information is available from the Department of Energy and each is required to state where they get their oil and how much they are importing.

But to have an impact, we need to reach literally millions of gas buyers. It's really simple to do.

Now, don't wimp out at this point . . . keep reading and I'll explain how simple it is to reach millions of people!

I'm sending this note to about thirty people. If each of you send it to at least ten more (30 x 10 = 300)...and those 300 send it to at least ten more (300 x 10 = 3,000) ... and so on, by the time the message reaches the sixth generation of people, we will have reached over THREE MILLION consumers !!!!!!! If those three million get excited and pass this on to ten friends each, then 30 million people will have been contacted!

11/3/2010

If it goes one level further, you guessed it . . . THREE HUNDRED  
MILLION PEOPLE!!!

Again, all you have to do is send this to 10 people. How long would  
all that take?

11/3/2010
