

The Future of Northwest Hydropower by Jack Venrick

Please Note: This letter is in response to an appeal from my local power provider Flathead Electric Coop in Kalispell, Montana by the CEO Gary Wiens and General Manager Mark Johnson in the late June FEC Rural Montana magazine and the [November 2021 Light Reading](#) flyer, respectively. The appeal is for Coop members to speak up to the their Montana Congressional delegation to stop the proposed breaching of four snake river dams which would eliminate 3, 033 Megawatts of carbon free renewable energy.

January 8, 2022

ABSTRACT: The following 8 sections must be understood first to comprehend how YOUR God given abundance of electrical and individual power and other resources are being taken away over generations under your nose and replaced with fake power in more ways than one, e.g. "alternative energy". If you have no time to read or do not like to read just scan the titles of each section below and you will get the big picture if you have an OPEN MIND. Also scan my web site hot link index pages at the end of this treatise.

Stated more succinctly - Everything forced upon us is a lie invented by those who are directly and indirectly profiting from the takings of our wages, labor, pensions, resources, electrical power, property rights, free choice and [YOUR CERTAIN ENUMERATED 70 UNALIENABLE RIGHTS!](#) We have been systemically enslaved again in ONLY 5 generations in America. Time to fight - no more time to whine.

1. Introduction

I became involved in property rights in 2004 and set up a web site sending out periodic research reports to currently a few hundred property owners regarding my findings. I retired from The Boeing Company in 2000 as an Electrical Engineer with a M.S. in Industrial Engineering and Business Administration with a Master of Science in Applied Science. This gave me the time to become aware of our disappearing [unalienable rights](#).

I slowly learned how the global to local environmental extremist and name your deception code used to take your land, labor, resources by spinning their web of lies. On my web site, I have 8 of 36 chapters devoted to environmental politics including; Alternative Energy Myths, Critical Area Ordinances Myths, Embattled Property Owner Stories, Endangered Species Mythomania, Environmental Extremism, Fish Myths, "Man Caused" Global Warming Myths, Rural Cleansing & UN Agenda 21 Junk Social Engineering. [Link](#)

The Future of Northwest Hydropower by Jack Venrick

To understand the game of breaching dams and replacing them with so called "alternative energy" or "protecting name your species" you must greatly expand your belief system otherwise you cannot see through the deception. **The fish are the bait and we are the suckers.**

To this end I have spent the last 17 years gathering this evidence to expose the global to local fraud being committed to take our energy, resources, property rights, wages, and pensions and replace it with fiat worthless dollars and electrical power that is ultimately worthless but deceptively used toward our enslavement. The theme here is very simple, i.e. everything forced upon us is a lie! Big Tech, MSM, county, state and federal agencies, NGO's, NPO's takings are never vetted to the state or US Constitution or LONANG! Americans are being taken to the globalist cleaners. This is not unlike popping corn, i.e. the popcorn effect! Treason and Sedition have quickly become the norm!

2. Freedom From Environmental Extremism - Undue Influence - Money, Power & Politics

I heard years ago there were 76 environmental activist groups in Missoula and a large number also in Bozeman, i.e. the two State University towns where government and "non-profit" funding flows. Ron Arnold wrote two books **Undue Influence** in 1999 and **Freezing In The Dark** in 2007 regarding how wealthy foundations, grant driven environmental groups, interlocking corporate boards and directors, universities, and zealous bureaucrats control our future. There is a global to local network of non profits organizations, non government organizations, big money, big tech, and big media working together influencing and infiltrating first, second and third world countries.

Here is just a few mentioned in Ron Arnold book **Undue Influence**; Trust for Public Lands, Clean Water Action, League of Conservation Voters, Wilderness Society, World Wildlife Fund, Citizen Action, Natural Resources Defense Council, Friends of the earth, Wilderness Society, Sierra Club, The Nature Conservancy, Tennessee Environmental Action Fund, Southern Environmental Law Center, Rockefeller Family Fund, World Resources Institute, Sierra Club Political Action Committee, National Audubon Society, World Watch Institute, Teresa Heinz

The Future of Northwest Hydropower by Jack Venrick

Winslow Foundation, Endangered Species Coalition, SW Forest Alliance, Evangelical Environmental Network. Organized Ancient Forest Campaign, The Tides Center, Environmental Media Services, Environmental Information Center, Paul Brainerd, Center for Biological Diversity, The Antiquities Act, Ted Turner Foundation, on and on. Ted Turner owns land in Montana, Nebraska, New Mexico, Colorado, Georgia, Florida, South Carolina, and Argentina. He owns 1.35 million acres more land than The Nature Conservancy which owns or has conservations easement on 1.17 million acres in the USA according to Ron Arnold, **Undue Influence**.

Big money is swallowing up our rural land and changing the local traditions in many seductive and deceptive ways. Another example in Montana is American Prairie Reserve buying up large ranches in NE Montana and bringing in bison and dropping the fences and taking the land out of the tax roles and operating them as an open range private park. Read more research on environmental extremism [here](#). The locals via United Property Owners of Montana are fighting this green takeover by new legislation.

[Read this two page report by American Stewards titled The Naivety of Green Republicans if you think it is only the left that lives in greentopia.](#)

3. Freedom From Water Takings

There is a big movement to turn your water into gold. Nestle and Halliburton corporations are leading this effort. Traditional water rights are being trampled on. I have a ranch friend in Colorado who I quote on my web site, [Link](#). Roni says the State is filling water applications for appropriations even though the State's water

The Future of Northwest Hydropower by Jack Venrick

is fully appropriated. The State sends out some 4700 notices of Water Rights abandonment but the forms are deliberately misleading which lead people to give up their water rights. She says "water corporations are the biggest happening in the U.S. and no except the thieves are paying attention." China says "to own the water you own the world".

The tribes are being used by the Federal Government to roll up water, mineral and timber resources. The CSKT Compact here in Montana was a classic example of this with the federal government working with the state and the tribes to transfer the Kerr Dam to the tribes giving away some one million a year in tax revenue to Lake County as well as 100 mile radius around each of the 6 reservations. Elaine Willman a local activist and author has demonstrated how the federal agencies are gaming the laws to roll up our property and water rights. [Link here to see my research.](#) I hear similar smaller scale stories of fed agencies aggressively trying to mess with water and bridges in Lake County. Few people can believe the enormity of these takings, let alone comprehend how the takings game is played. [Link here to see my research on Water Takings.](#) The tribes are being subsidized some 20 billion annually plus given gambling rights on public land now they want all the water, timber and mineral rights. So everybody wins including the bankers and the tax payer gets the tax payments and the debt.

4. Freedom From Man Caused Global Warming and Climate Change Myths

Man caused global warming myth is another green extreme funded global to local lie. Man's contribution to CO2 is ONLY .117%. Global temperatures have cyclic widely showing extreme changes going back to least 2400 BC. Global temperatures variations over time are highly correlated to solar sun spot cycle NOT man!

The Future of Northwest Hydropower by Jack Venrick

Pulp mills smell so shall we stop producing paper? Surgery used to be highly infectious until we understood the cause and how to reduce it. The manufacturing of circuit boards yields toxic waste so do we stop making printed circuit boards? Washington State industry gives off 120 tons of SO₂ daily and the Centralia Coal plant after pollution control equipment gives off 27 tons of SO₂ daily. Pollution control on pulp mills, circuit board manufacturing, coal plants, automobiles, industry in general is always improving. Septic and drain field technology has become so advanced that they have systems currently where you can literally drink you waste water. The point is that the global to local green gangrene extreme are like children, they have no discipline, no common sense, no engineering. However, they are funded by massive wealth from globalist, transnational corporations, very elite family foundations and retired big tech looking to make a name for themselves and for more power, profit and control. The green extreme will never have enough even when they control everyone. Too much power and money changes ones common sense, values and belief systems. The point here is let us not give our water rights to the fish or the government or environmental extremists or the some 562 tribes rapidly growing funded by government handouts and networks of power mongering foundations.

Hot Talk, Cold Science is out of print and a new edition is promised soon - [From Barnes and Noble for \\$26.95.](#)

Look at all the books ridiculing the lie of "man caused global warming:
Climatology Is A False Religion, Understanding The Global Warming Hoax,
Climate of Corruption - Politics and Power Behind the Global Warming Hoax, The
Greatest Hoax: How the Global Warming Conspiracy Threatens Your Future, The

The Future of Northwest Hydropower by Jack Venrick

Climate Change Argument, The History and Science That Expose a Major International Deception, Climate Ecopolitics, Unreported Truth - Climate Hoax 2030 - Global Warming, Rear Politics and a Totalitarian Techno-Fascist Future? Agenda 21 - The Great Reset - The Green Deal; Exposed, Climate Change and International Politics, A Sinister Charade: The Global Warming Hoax, Inconvenient Facts: Proving Global Warming Is a Hoax, Republic of Lies, The Climate Change Hoax: Pathway to Socialism, A Layman's Guide to Understanding the Global Warming Hoax, Hot Talk, Cold Science, etcetera, etcetera. I hope you get the picture of the truth.

5. Freedom From "Endangered Species" Myth

Finally, I would like to put a nail in the coffin of the so called "endangered species". I devote one web site section to this myth and have researched it for 17 years. Mass extinctions on this planet are quite common. Taking legal action to return the beetle to "Endangered Species" status is all about money and control, i.e. taking unprecedented power over your property, wages, and life. The establishment of the so called "Endangered Species Act" is to deny the scientific evidence that these cycles of species extinction is caused by sun spot activity, geomagnetic reversals, polar reversals, asteroid collisions, i.e. solar and cosmic phenomena we are still researching to fully understand. There is also evidence that mass extinctions do both create new species AND destroy old ones by breaking the evolutionary rigidity of ecosystems and allowing opportunistic replacement. [Link to my research here.](#) Follow and sign up for American Stewards feeds on the truth and join their delisting movement.

6. Freedom From Environmental Extremism

The message above is environmental extremism is intentionally created and propagated by those who directly and indirectly benefit. The direct and indirect benefit is power and money by rolling up resources and herding people into a co-dependent mind set where they have lost control of their own water, electrical power, food, property, transportation, self defense, control of their country borders, quality of their life, loss of their traditions, ability to get a job including to save and retire early enough in their to enjoy life.

The Future of Northwest Hydropower by Jack Venrick

Creating myths regarding electrical power is a classical way the Deep State and globalist take away the most dependable local sources of fuel we need to keep America free and independent. So they vilify fossil fuel, hydro electric power and oil because the U.S. has lots of it and we even export coal and oil. The green extreme agenda at the globalist level where the big money flows from is for power and control. Smearing and degrading hydro electric dams is all about fear mongering propaganda. If they can get Americans and any country to not use their most abundant resources and to become dependent on a false and unreliable sources of power like solar and wind they will accomplish their mission. This tactic is no different than creating a fiat worthless currency and forcing the country off the gold standard. The debt becomes the base of profit and not value. Alternative energy is equivalent to debt. So called "alternative energy" is to the globalist as debt is to the central and world banks.

7. Freedom From "Alternative Energy" Myths

Alternative energy like solar and wind is subsidized and is not profitable and the cost per delivered KWH is huge compared to coal, hydro and natural gas. Furthermore, so called "alternative energy" is highly unreliable, extremely high maintenance cannot be stored, extremely weather dependent and its output power is near useless for the modern homes and certainly commercial and industrial purposes. Wind mills take tons of copper and other mineral ore that are extremely expensive. Turbine blades are rendered inoperable due to ice. Wind turbine blades are made of fiberglass and composites and do not deteriorate so become graveyards of toxic trappings. Renewable energy does not have the current to supply the heavy power load demand of industry and commercial requirements.

The takings of electrical power, mining, water, timber, rural private and public property by mass global to local deception policies and propaganda down to the grade school levels over generations is the perspective you must have to see the globalist game plan. Environmentalism is a recipe for self destruction. These takings are like the tide rolling in bringing the debris of misrepresentation and lies, e.g. breaching your most reliable sources of commercial and industrial power from hydro electric dams for the fish as if there were no better alternatives. Then the tide sweeps out your individual, state and national sovereignty, independence, traditions, free choice and gradually turn your power off in a few generations.

The Future of Northwest Hydropower by Jack Venrick

[Link here to see my research on the reality of so called "alternative energy". Great report by Hayden Ludwig of Capital Research - "The Left's War on Coal and the Coming Green New World."](#)

Many of you may go to the thought "conspiracy". Here is the Merriam-Webster definition.

Essential Meaning of *conspiracy*

1: a secret plan made by two or more people to do something that is harmful or illegal, e.g. The CIA uncovered a *conspiracy* against the government.

2: the act of secretly planning to do something that is harmful or illegal, e.g. they were accused of *conspiracy* to commit murder.

Full Definition of *conspiracy*

1: the act of [conspiring](#) together they were accused of conspiracy to commit murder.

2a: an agreement among conspirators uncovered a conspiracy against the government

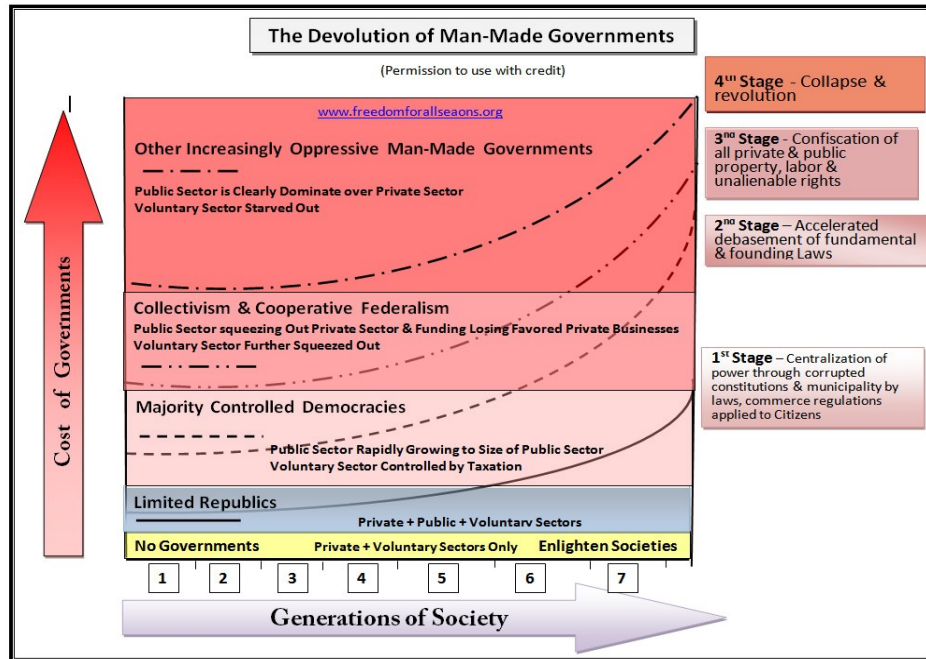

2b: a group of conspirators a conspiracy made up of disgruntled aristocrats

So the word conspiracy is real as opposed to fear mongering, misrepresentation and the spreading of false flags. Redefining the truth is typical of how the globalist extreme operate. They have the wealth and the power to change anything they want. **"Resistance is futile" is their motto.**

The globalist plays chess on a global to national to local level. The winner takes all and that includes your most reliable forms of electrical power! We are living in a cesspool of deception and lies created by a vast network of self benefiting divisive power mad wealthy foundations, grant driven environmental organizations, big tech, mainstream media, infiltrated government agencies, hungry universities, and corrupt politicians.

American is in the 3rd Stage of devolution, see graph above

8. Freedom From Water Takings

There is a tidal wave movement to turn your water into the new gold. Nestle and Halliburton corporations leading the pack while forcing people into "Smart Cities" for over control of resources and Citizens life and death. Bless your life and your water to a higher consciousness than the dark side purposes.

Water is being taken from every angle. Here is just one example from a Colorado rancher property rights and Patriot friend.

12/20/2020

"I'm saying the 18 feet they raised the water table was the 17" on the first floor of our home. All over our state they're filing applications for appropriation...even though the state's fully appropriated. There's more. Statewide, they sent out approx. 4700 notices of Water Rights abandonment, which is an every 10 year deal. But, here's the kicker. The forms are deliberately misleading. Folks that is not as informed as I will unwittingly give away their rights.

Anyway, water corruption is the biggest happening in the U.S., and no one except

The Future of Northwest Hydropower by Jack Venrick

the thieves is paying attention. China said (paraphrased), "to own the water you own the world." Roni Sylvester, Colorado.

The Montana Confederation of Salish and Kootenai Tribes (CSKT) Water Compact is another example of the federal government using state and tribal politics to control vast resources of a state they otherwise could not get their hands on. Check out the story on my site especially the Anatomy of the CSKT, Inc. Water Compact. [Link here](#) and scroll down to Section 1.

The Central Banking Warfare Investment Model - How it controls large populations and resources - See below excerpt from my web site.

Okay Ms. Fitts: "..... you mention as a prime factor that governs our lives on planet earth for roughly the last 500 years "the central banking- warfare investment model." Can you describe to us at the beginning of this interview some of the essential characteristics, rationales and goals of that "model"?"

"The central banking-warfare investment model" is really a control model, through which a small group of people can control the most resources on the most profitable basis.

Essentially what happens is:

Central banks print money and then the military makes sure that other parties accept it and that the financial system continues to have liquidity.

The question many people ask with regards to a fiat currency, which is a paper currency, is: Why would anybody take paper, which has no value? They take the paper, because it's part of the enforcement and military supervision, if you will, of the network that is printing the money. The system has created a fantastically profitable way of controlling large populations and access to resources very cheaply.

Let's say for a second that Mr. Global is in charge of "the central banking-warfare investment model": Mr. Global prints money and then people take that paper and give him in essence what he needs to buy up and control the national resources. The population is dependent on his paper and then he controls all the real things. Also through the military, he can steal whatever he wants. And organized crime is a very important component as well, because it can be expansive to drop an army and to occupy a place. If he can take over a place and buy that place with the place's own money, it's much more efficient, and that's where the drug business traditionally comes in. It's basically part of a model for controlling a territory with huge resources in the cheapest way possible."

The Future of Northwest Hydropower by Jack Venrick

[2010-9-3 Behind the Wheel With Catherine - About Her & Interview](#)

"Although it is unpleasant to acknowledge, we are caught up in an invisible war. We are being tricked and, in many cases, we can't see the game. It follows that if we don't know we're being 'played,' we won't know how to protect ourselves. My goal is to remove the barriers that prevent you from seeing this game: how it affects your money, your health, and your safety. Then I can help you take action. This is why I am doing The Solari Report."

8. The Truth on Hydro Electrical Power

Removal of our most natural form of industrial level of power by building dams is environmental nonsense which is rooted in the global to local wealthy elite funding these networks of propaganda, misrepresentation, false flags and lies.

There is no substitute for hydro electric power and there are no alternatives to the reservoirs of water for irrigation, buffering for both agriculture and power demand in low water seasons.

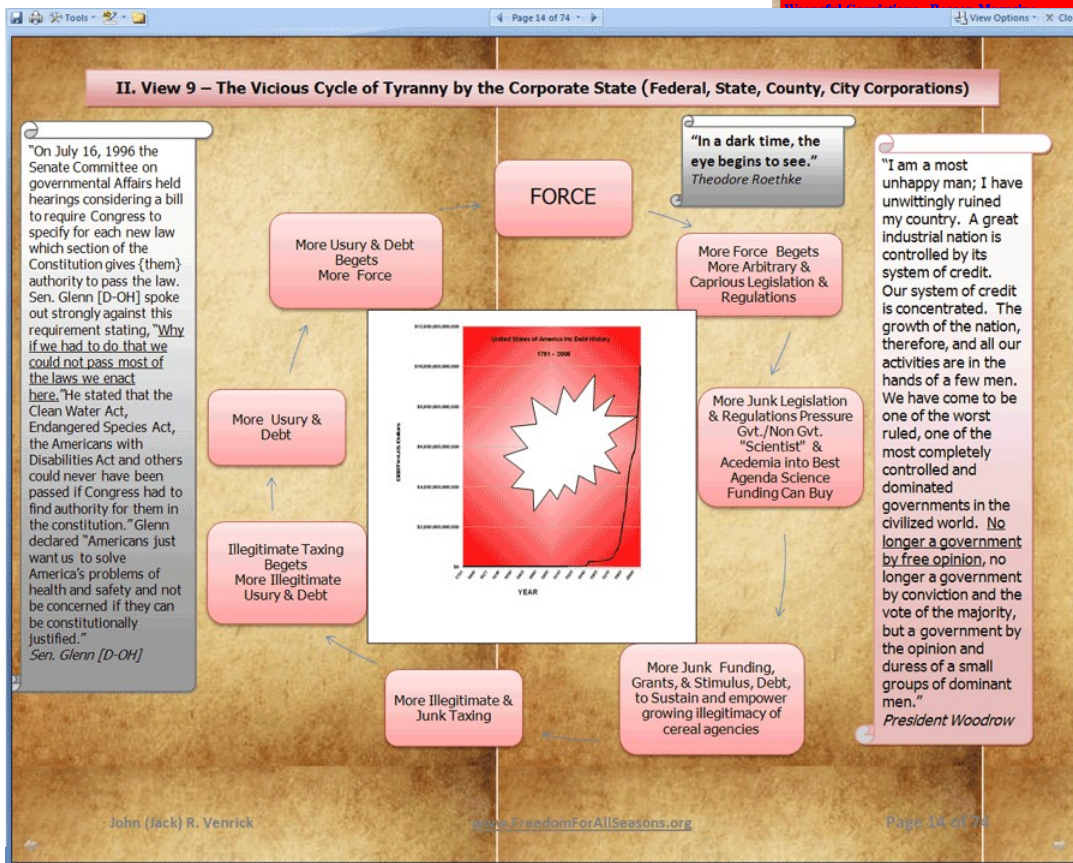

Hydroelectric dams are financially viable and also provide flood control, recreation and are ideal for America's abundant water resources.

Better yet, there is more available hydro energy, true alternative energy, found in some 550 non-powered dams in America. The global to local extremists do not want this truth to be known. If these 550 non-powered dams are harnessed with generators this would supply 90% of our current power capacity. The return on investment for the Lake Champlain Basin in upstate New York, Vermont and south Quebec shows all 6 dams would more than pay for the cost in one year. Solar and wind cannot add this amount of power capacity at this ROI.

The Future of Northwest Hydropower by Jack Venrick

[Link here to check out my research on the many virtues of hydroelectric dams.](#)

Everyone must expand their consciousness to better grasp the enormity of the unnecessary takings of our natural resources, electrical power, borders, wages, pensions, private property, and election systems by lies and clever misrepresentation. The globalist use media, academia, foundations, NGO's, government agencies they have created over centuries to evolve their power and deception. They use usury, printed paper of no value and circulate it into every corner of the world making a form of paper debt to extort nations into slave states.

The Future of Northwest Hydropower by Jack Venrick

Figure 2: **Network topology.** (A) A bow-tie consists of in-section (IN), out-section (OUT), strongly connected component or core (SCC), and tubes and tendrils (T&T). (B) Bow-tie structure of the largest connected component (LCC) and other connected components (OCC). Each section volume scales logarithmically with the share of its TNCs operating revenue. In parenthesis, percentage of operating revenue and number of TNCs, cfr. Table 1. (C) SCC layout of the SCC (1318 nodes and 12191 links). Node size scales logarithmically with operation revenue, node color with network control (from yellow to red). Link color scales with weight. (D) Zoom on some major TNCs in the financial sector. Some cycles are highlighted.

[Forbes Summary of global bow tie study above](#)

Massive national, transnational and global wealth INDIVIDUALS, intentionally, over generations, enslave nations and SOVEREIGN individuals taking their core resources, e.g. labor, property rights, usage of public and private land, water, timber, minerals, individual God given DIVINE free will. THIS IS NEVER ACCIDENTAL OR RANDOM.

The Future of Northwest Hydropower by Jack Venrick

PICK YOUR PATH - AWAKEN TO YOUR FREE WILL AND ABUNDANCE! NEVER EVER RESET TO THE GLOBALIST DECEPTION LEADING TO YOUR ENSLAVEMENTUsing constant resets by those who never ask for your consent nor ever vet their takings with the State AND US Constitutions AND the Laws of Nature and Natures God. We are being constantly reset into enslavement to the transnational corporate globalist Matrix and THEIR municipal corporations, federal agencies, Non Government Organizations and Non Profit Organizations.

Jack

Sincerely,

Jack Venrick
