Subject: [Capr-announce] CAPR Chapters

To all CAPR members,

We are considering establishing local chapters within King County as well as chapters in other counties statewide.

In King County chapters might form around similar geographic areas like Vashon Island, Enumclaw Plateau; specific watersheds such as the Green River basin; or simply around more generic areas like North, Central or South King County.

Intended as a flexible alternative to driving long distances to attend a state or county-wide board meeting, local chapters would have full control in establishing a meeting schedule appropriate for the area and time of year. Perhaps the chapter might have regular monthly meetings in the winter and simply organize a few neighborhood gatherings and potlucks in the summer.

Each chapter could focus on specific local issues in addition to providing a local contact point for property owners and a formal structure to organize local phone trees and volunteers. Ultimately local chapters may elect to host one of the county-wide CAPR meetings and a local representative from each chapter will have a position on the CAPR Governing Board.

All that is needed are three interested individuals from each area; a Chapter President, Vice President and a Secretary/Treasurer.

If you think you might be interested in forming a local chapter please email Tony at t-zgraggen@comcast.net

Thanks

Rodney McFarland, President
Citizens' Alliance for Property Rights
