START VETTING THE VOTE

Since California encourages illegal aliens (non citizens) to vote, their future election results should be subtracted from the national legal vote count totals; at least until they can certify authenticity.

Stop violating yourself!

If we want to become whole and heal shame we will have

to see to it that our own principles are in practice.

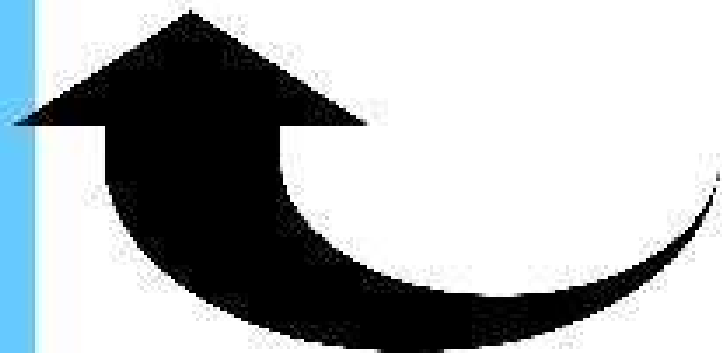

We must be careful not to fail the standards we so easily and so rigidly uphold for others. For as long as we

violate our most prized values so too will the little chief critic inside levy fines against our self-concept.

Usually without our awareness or permission.

ATTENTION DIGITAL PATRIOTS

While the Trump team worked hard to win the last election, we worked harder.

We, the people of good conscious and true fairness over came the leftist media, the facebook Fascists, the twitter Marxists and the self appointed google Gods to assure that real choice is still available in America.

We insured that Freedom rang and that the Bill of Rights persevered despite the odds and despite the stronghold that Hollyweird and the tech elitists hold over our free speech.

**AND WE'LL DO IT AGAIN!!!!

What if.....

All this focus on Russia and this election is merely a distraction to keep Americans from realizing who actually altered the course of this election: A way to keep real Americans out of the political debate?

Russia didn't really influence this election or our political landscape anywhere near the levels that you, the American Social Media Activist did. "They" don't want THE PEOPLE in control of the political discourse. Donald Trump is not being marginalized: We Are!

The focus on Russia is simply a means of diminishing the reality that REAL Americans are now in control of the political landscape via social media and NOT the Main Stream Media or any particular political party and their campaign's advertising dollars.

**They won't say it but I will. Way to go AMERICAN SOCIAL MEDIA ACTIVISTS!
WE ARE NOW IN CONTROL!!
WE OWN THE MESSAGING NOW!!!**

An Open Letter to My Family

I am a drug abuser. I need help.

Don't solve my problems for me. This only makes me lose respect for you—and for myself.

Don't lecture, moralize, scold, blame, or argue with me, whether I'm stoned or sober. This may make you feel better but will only make the situation worse.

Don't accept my promises. The nature of my illness prevents my keeping promises, even though I mean them at the time. Promises are my way of postponing pain.

Don't keep adjusting our agreements. If we make an agreement, stick to it.

Don't lose your temper with me. You'll destroy yourself *and* any possibility of helping me.

Don't let your anxiety for me make you do what *I* should do for myself.

Don't believe everything I tell you. Often I don't even know the truth—let alone *tell* the truth.

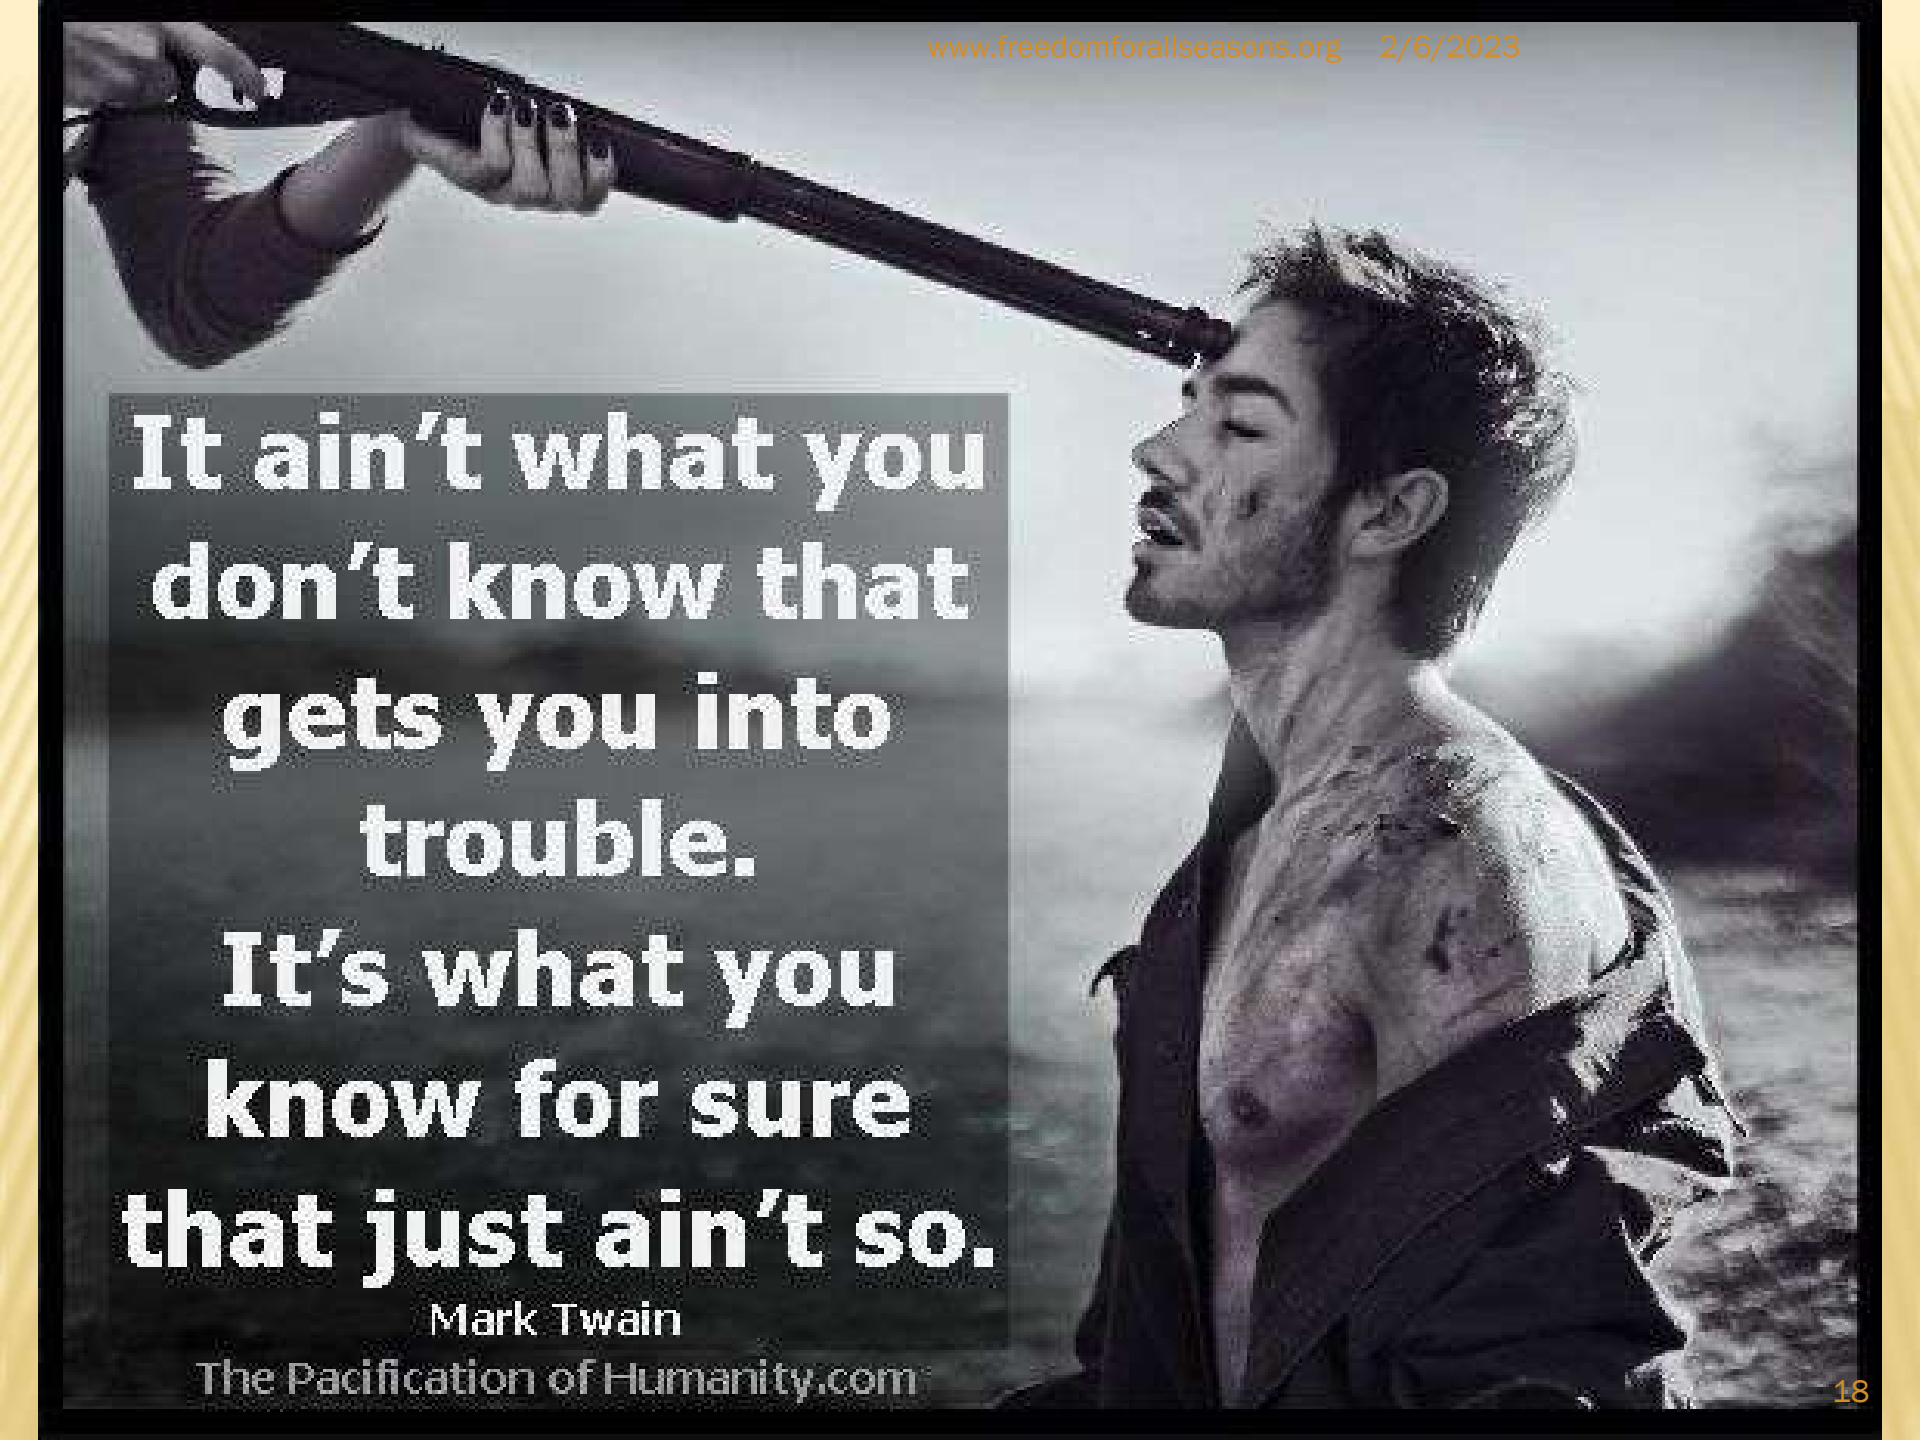

Don't cover up or try to spare me the consequences of my using. Your efforts may reduce the immediate crisis but will make my illness worse.

Above all, don't run away from reality as I do. Drug dependence—my illness—gets worse as my using continues.

Start now to learn, to understand, and to plan for recovery—yours and maybe mine. Find Families Anonymous, whose groups exist to help families in just your situation.

I need help: from a doctor, a psychologist, a counselor; from people in self-help programs who are recovering from their own drug problems; and from a Power greater than myself.

At this time in history the needs of our country and of the citizenry are of no concern to those in power.

At this point in history the left will do whatever it takes to win the presidency.

Not because they have some new revolutionary ideas, but instead because they need more time to destroy evidence and hide the bodies in order to stay out of jail.

The Supreme Court found that one state cannot deny a marriage license from another state thus making gay marriage legal (must be recognized) in all states.

Part of the their findings rested in similar laws that require reciprocity for drivers licenses, car registrations etc... This allows you to drive in a state without getting a separate license there. There are no differences in the how rights are protected under the law that would allow for a prohibition of Gun Carry Permits/Licenses between states.

States either has sovereignty or they don't.

We demand

Conceal Carry Reciprocity

We demand FAIR, JUST and EQUAL interpretation of all LAWS & RIGHTS

Attention America

There is a new contagious mental illness plaguing this country. It's called "Hyper-libtardia."

At the core of the disease you'll find a group of ideological inconsistencies. The carriers of hyper-libtardia infect others with frantic notions that are irresolvable using any form of logic known to man. Researchers have found the most prolific delusions present mostly in larger cities and coastal regions. It is believed that the contagion initially incubated in the public school system and major college campuses. The illness spread as the students returned to the dampness of their parent's basements.

"One example we have found is that there are a growing number of Americans that view the Russian Government (Formerly the Union of Soviet Socialist Republic) as their enemy but at the same time want to form a government based on the same socialist ideologies."

At this time there is no actual cure for the illness but hyper-libtardia becomes more "resistant" when groups of carriers gather in large numbers either in person or on socialist media. It seems that many of the mainstream media broadcasts are activating the traumatic aspects of the illness thereby reinforcing its delusional presentations.

Unfortunately the illness is hard to treat because the reality serum required seems to be in short supply in large cities. Obviously more research is required.

What do these 3 people all have in common?

They are all RICH

They are all WHITE

They are all MEN

They all preach tolerance but have none.

**They all work for sexist/racist stations
that don't have a single female or black**

Late Night Host (not in decades).

**They all have TV shows that air on TV
stations that no one has to pay for**

**and,,,,, they are all worth
every penny of it.**

The government is the only service provider that we pay for that isn't held accountable for the quality of the service that they provide.

We don't hold them accountable so they do what they want and just keep picking our pockets; charging us more and more to do what we don't want them to do.

The failure of society will be a separation from nature; not nature as a thing to explore or live but nature as the essence of self.

Seeing life as an arrangement between humans and nature doesn't work either because that is still separation.

One must identify their self as nature and then understand that their experiences are the things that have separated them from the source to which they came.

The question as to whether or not God is nature is irrelevant. If all things are nature then God is nature. If God is nature too then the discussion is moot. One must then ask again why one has separated themselves from God/Nature.

**America doesn't have a real problem

**America has a problem with people

everyone else because they believe
the right narratives or ideologies.**

WE DEMAND YEARLY MENTAL STATUS EXAMS FOR ELECTED OFFICIALS

We have a mental status requirement to buy and possess a gun and even to drive a car after a certain age: How come we don't have one for members of congress and other elected offices? Elected officials are people who can drastically affect the lives of as many as 325 million people, yet nothing!

They have stripped your identity
and you don't even know it.**

irrelevant and your attire

**Woke hysteria is merely a reflection of

**Trying to "be" woke makes you a fake, a copy,
an illusion, a lie!**

**Woke expression is not a form of self-expression it is
a form of hive-expression; an impersonation of how
one is supposed to be not how they are.**

**Being woke simple means your truth is not your own,
it is instead an approved version of the truth.**

You were you before you woke.

**If you want to be inauthentic have at it but
personality does not develop cognitively. Personality
it is the sum total of personal experiences and not
the expression of other's experiences.**
