"EARTH DAY - COMMUNIST PROPAGANDA!"

Talk about brainwashing, indoctrination and fear mongering! Some national and international elitists, money changers, power brokers, the United Nations, Europe, socialists, radical environmentalists and the one-world-order crowd, aided and abetted by a news media that has lost any semblance of

journalism ethics, have perpetrated one of the greatest frauds in the civilized history of mankind. But worse, the American government, at every level, who are supposedly constrained by our Constitution and every American politician who espouses, supports or endorses this nonsense, is complicit in this fraud and the propaganda that propagates it.

Little kids are scared to death that the boogie-man of Man-Cause Global Warming is going to flood their homes, kill their parents and leave them destitute, hungry, homeless and all alone. Disenfranchised and unrepresented rural American landowners have lost virtually all of their property rights, due to draconian environmental land use regulations regulations that are based on another fraud, that we must protect every damn wetland in existence today, even if the wetland was caused by man in the first place. It is a fraud for one very basic reason that no one ever mentions. Just a short 10,000 years ago in geologic time, one-third of the Earth's surface was covered by an ice sheet over one mile thick. Underneath that ice there were no lakes, streams, rivers, or wetlands and there was little to any wildlife whatsoever. Somehow the Earth managed to survive without all those wetlands and it will continue to survive whether we save wetlands or not. In fact, the Earth will even survive the miniscule effect that mankind inflicts upon it. Did you know that man's foot print on the North American Continent is less than 5% of the total land mass. And that foot print took over 200 years to materialize. Don't you think that if that foot print rose to 10% over the next 200 years, there would still be a whole lot of land left for the wild creatures and all their little creatures?

And no, man is not causing global warming, in spite of the unmitigated lies you are being fed, by those who are hell-bent on controlling you.

This same fraud, perpetrated by government and special interest groups, is forcing inefficient wind and solar power energy sources upon us, that require more fossil fuel energy to build, require huge government subsidies to be viable at all and represent a insignificant fraction of the total energy we consume. In the meantime the policies from this fraud are sucking the energy needed to keep our economy

humming by very efficient sources of energy from hydro, nuclear, oil, coal and natural gas, and they are being seriously inhibited or prohibited all together. A country without sufficient energy is a third-world country, subject to all the vagaries of third-world countries and banana republics.

And this insanity about outlawing incandescent light bulbs and replacing them with very environmentally unfriendly, mercury-laced, fluorescent bulbs that require special, expensive disposal handling, is beyond any reason or common sense. Who are these people who make these off-the-wall decisions?

Now you may think that we are against environmental stewardship, but you would be wrong. Our motto is:

**Protecting the Environment is Laudable.
Trashing the Constitution to do it is treasonous.**

So In celebration of this fraud and communist propoganda that is "Earth Day", we are increasing our carbon foot print and turning on every light in our home and business. We will not fall prey to worldwide propoganda and unbridled hysteria, because those in power, who want to control every aspect of our lives and are the very perpetrators of the fraud and the propoganda, says its so. Americans must choose. Will they be the marionettes controlled by the almighty government, or will they be the puppeteer that pulls the "strings" ON government?

Wake up Americans, or you will find yourself in chains, if you aren't already.
