### [How Klaus Schwab's resident scientist in World Economic Forum views human beings](#) (2 Mins. Thanks Ken Shock)

- "What is this “Great Reset” we’re now hearing about? In a nutshell, the Great Reset refers to a global agenda to monitor and control the world through digital surveillance.

- As explained by journalist James Corbett in his Oct. 16, [Corbett Report](#) above, the Great Reset is a new “social contract” that ties every person to it through an electronic ID linked to your bank account and health records, and a social credit ID that will end up dictating every facet of your life.
- It’s about getting rid of capitalism and free enterprise, and replacing them with “sustainable development” and “stakeholder capitalism” — terms that belie their nefarious, anti-humanity intentions. As [noted](#) in the book, “[Technocracy](#): The Hard Road to World Order”:
- **“Sustainable Development is Technocracy ... The Sustainable Development movement has taken careful steps to conceal its true identity, strategy and purpose, but once the veil is lifted, you will never see it any other way. Once its strategy is unmasked, everything else will start to make sense.”**
- **“While technocracy is not a political system but an economic one, in practical terms it does resemble fascism. None of it is being sold under the banner of fascism, of course. Instead, they use financial terms like “stakeholder capitalism,” [described by](#) Forbes magazine as “the notion that a firm focuses on meeting the needs of all its stakeholders: customers, employees, partners, the community and society as a whole.”**
- **[The Great Reset for Dummies \(13 pages double sided\) MUST READ](#)**
  - **“[The Great Reset](#) is a massively funded, desperately ambitious, internationally coordinated project led by some of the [biggest multinational corporations](#) and [financial players](#) on the planet and carried out by cooperating state bodies and NGOs. Its soul is a combination of early 20th century science **fiction, idyllic Soviet posters, and the obsessiveness of a deranged accountant with a gambling addiction— and an upgraded, digital version of “Manifest Destiny.”****
  - **The mathematical reason for the Great Reset is that thanks to technology, the planet has gotten small, and the infinite expansion economic model is [bust](#)—but obviously, the super wealthy want to continue staying super wealthy, and so they need a miracle, another [bubble](#), plus a surgically precise system for managing what they perceive as “their limited resources.”**
  - **The psychological reason for the Great Reset is the fear of losing control of property, *the planet*. I suppose, if you own billions and move trillions, your perception of reality gets funky, and everything down below looks like an ant hill that exists *for you*. Just ants and numbers, *your assets*.**

- Thus, the practical aim of the Great Reset is to fundamentally restructure the world's economy and geopolitical relations based on two assumptions: one, that every element of nature and every life form is a part of the [global inventory](#) (managed by the allegedly benevolent state, which, in turn, is owned by several suddenly benevolent wealthy people, via technology)—and two, that all inventory needs to be strictly accounted for: be registered in a central database, be readable by a scanner and easily ID'ed, and be managed by AI, using the latest "science." The goal is to count and then efficiently manage and control *all* resources, including people, on an unprecedented scale, with unprecedented digital anxiety and precision—all while the masters keep indulging, enjoying vast patches of conserved nature, free of unnecessary sovereign peasants and their unpredictability. The king's world feels far more predictable and relaxed when the chaos of human subjectivity is contained for good."
- Keywords to awaken too - "Who are they - Top Capitalists, historically wealthy dynasties, secular & religious royalist, billionaires, individual super sharks and giant monopolies managing "their" global inventory by co-opting government, destroying farms and small businesses and bringing down the middle class, i.e. also called a soft coup.

"Mostly this is about going after Jones, who supported Trump in 2016. He was among the top influencers who attracted a lot of attention and support for our 45th president. The New World Order is now remedying that situation. Social media giants have since banned and silenced many conservatives, including Jones and GrrrGraphics. ### Jack's Notes Regarding World Economic Forum

The World Economic Forum (WEF) was founded by Klaus Schwab who is one of the key figures orchestrating globalism through a Swiss based company called World Economic Forum. [He is pushing the Great Reset.](#)

[Here](#) is a great article on Klaus Schwab giving the big picture of his movement called Schwabism. WEF and Klaus Schwab and UN Secretary General have signed a partnership agreeing to digitize the Fourth Industrial Revolution.

[Here](#) is another good report exposing the dark side of WEF and Klaus Schwab and the so called Great Reset.

Look at all the key words around the Klaus diagram, e.g. Corporate Governance implying there should be more, Batteries implying there will be more whether it makes any engineering sense at all, Circular Economy implying not an independent economy by sovereign state Citizens, Future of Mobility implying that is going to be controlled, Gender Parity implying more race and gender divisiveness, Taxation implying more of vs. none, The Ocean implying political control, on and on the twisted takings spin.

Notice what is not on the Schwab wheel of your future, i.e. freedom and liberty, true and honest elections, hard value coin and currency, no inflation, no more debt, no more direct tax taking on labor, wages, pensions, IRA's, private property, stopping radical environmental extremism, stopping junk science. Check out Klaus Schwab web site - <https://www.weforum.org>. There are no names to contact, no locations, no face, just feel good global socialism, no accountability, no debate, no blogs, and "just learn how your organization can work in partnership with WEF". Even The Boeing Company was seduced into this global One World Order club.
