Subject: Breaching and Taking Power

Just received the attached joint statement from the USDOJ and the USDA thanks to Scott and Norm which compelled me to review the following subjects.

- A quick way to get the drift on any long winded government or NGO statement is count the green key words, here's what I counted from the attached 5 pages, you may think of other green words.

- *Land* = 39
- *Indian* = 33
- *Lands* = 29
- *Tribes* = 28
- *Waters* = 19
- *Water* = 20
- *Stewardship* = 17
- *Land and water* = 12
- *Agreements* = 9
- *Co-stewardship* = 7
- *Collaborate* = 3
- *Sovereign* = 2
- *Coordinate* = 2
- *Affected Indians* = 2
- *Defense to tribal, tribal proposals, tribal requests, tribal land locator tool, cooperate EACH* = 1

- This is more abdication, i.e. BREACHING of OUR public land and water by pandering to the tribes who are used by a global to local elite political bodies for profit and personal power.

- This is also what happened with the Confederation of Kootenai and Salish Compact which narrowly passed in Montana **approving** more taking of water in Montana April 2015 and the Kerr Dam.
 - See the history of this taking, Section 1, Block 1 thru 21, <https://www.freedomforallseasons.org/FreedomFromWaterTakings.htm>
 - Also Dr. Kate (Catherine Vandemoer PhD) covers the CSKT takings blow by blow in Montana and Flathead Lake Valley - <https://westernmtwaterrights.wordpress.com/2023/12/18/bad-faith-negotiations/>
- Our Flathead Electric Coop new category of charge labeled “Demand Rate” for power use during peak hours of 7-10AM & 5-8PM M-F has gone from \$0.26/KWH in June 2019 to \$2.26/KWH current end of 2023.
 - Federal Bonneville Power distributing the federal dams’ power is starting to squeeze the coops when their customers demand more power during common peak use times all while the extremist make deals with the feds and tribes to take down more hydro dams while cutting out the locals from coordination.
 - Peak usage penalties will continue to increase as well as the windows of hours as the globalist use the governments, extremists and the tribes to breach our dams to make us less independent and sovereign.
 - **Breach our dams, power, water, election systems, reliable currency and coin, borders, natural resources, strong stable trained military, protection and isolation from foreign powers and terrorism, growing numbers of lower, middle and higher courts ignoring constitutional and natural laws , all levels of education based on God at the same time creating false flag crisis to use emergency laws to accelerate the takings.**

While I am a Christian I have been to India twice to experience an avatar called Sathya Sai Baba, here is one of thousands of his spiritual messages to the world.

- A. **What should I do if I see a crime?** - I have sent this avatar's statement out before over the years because it is so profound however; it is more relevant than ever before, my overview follows.
- B. Dharma is defined by Merriam – Webster as divine law and conformity to one's duty and nature.
- C. If we are a mere spectator or merely watching what goes on we are giving encouragement to the evil.
- D. If we are unconcerned we are regarded as an accomplice in the crimes and this included passive association.
- E. If the good people do not oppose the wicked we share responsibility of the deeds of the evil doers.
- F. The failure to resist evil is our offence and we are guilty of abatement.
- G. Abatement is defined as the act or process of reducing or weakening.

Q: What should I do if I see a crime?

Sai Baba: "Today many are indulging in actions opposed to Dharma and Truth and, on the basis of their caste or community, are promoting strife and conflict in the country. Elders in the nation are remaining mere spectators of all the unrighteous and violent actions that are being done by the evil elements. Even the scholars and intellectuals are remaining silent. Persons holding high office are merely watching what goes on. No one, however, is making any effort to stop this menace. They are not resisting the evil elements. It appears as if all their knowledge, position and influence have been reduced to nothing. Such persons, though they may not be indulging in unrighteous acts, are giving encouragement to them.

When evil and injustice and violence are being perpetrated, if individuals look on unconcerned, they must be regarded as accomplices in the crimes. In the end they also suffer as much as the criminals. By their passive association, they provide encouragement to the evil doers.

When the good are associated with the wicked and do not oppose them, they share responsibility for the deeds of the evil doers. The Divine destroys even those who either do not oppose or remain passive while injustice and wrongdoing is perpetrated. The Divine will not consider whether they are learned or ignorant, wise or unwise. If they are learned or wise, why did they not stand up for truth and justice? Why did they remain silent? It means they are tainted by the same guilt. The failure to resist evil is their offence. It is only when we resist acts of unrighteousness and injustice and try to put down malpractices in society that we can claim to be assisting in the task of restoring Dharma. ...

Whoever may commit an offence, whether a son, a relation or a close associate, one will be free from the taint of being accessory to the crime only if he opposes the wrong action and tries to correct the offender. If, on the contrary, he allows it or encourages it to be done, he will be guilty of abatement."

Hot linked to a more readable version.

Merry Christmas, Happy and Prosperous New Year to each of you!

✚ Time to make the bells of freedom and liberty ring over our land again!

✚ I believe God has given each of us a role to ring this bell.

Ken —

Try digging deeper . . .

The attachment is Joint Secretarial Order 3403. It's an order by the secretaries of the Department of the Interior and the U.S. Department of Agriculture.

It's all about how the departments and all of their agencies/bureaus are using the tribes to change the face of federal lands, waters, and resources management through the use of tribal governments as "co-managers" and the cutting out of local governments from the process.

Be sure you're sitting down when you read it.

Norm
