- 1) This graph speaks for itself derived from over 7 years of research.
- 2) The message is we are all slaves until a critical mass awoken to the reality that an enlighten society is self governing requiring less and less government NOT more.
- 3) Societies which vote in more government and more public infrastructure to replace and oversee what they fear in the private and voluntary sectors suffocate themselves to death by a self fulfilling paradigm of false flag fear and power mongering snuffing out what they arrogantly pretend they are protecting.
