Dear Friend,

As you read this letter, please hold in your other hand the "No U.N. Taxes" Petition to Senate Majority Leader Mitch McConnell that I have enclosed.

Because, right now, that "No U.N. Taxes" Petition is the most important document in our nation.

Please sign your "No U.N. Taxes" Petition to NEW Senate Leader Mitch McConnell and get it back to me at American Policy Center as fast as you can. Here's why:

I have been warning about U.N. taxes for more than 15 years. **And now it's happening.**

The United Nations is making its move to impose global governance ... right now.

The U.N. and its globalist allies are using the global economic crisis (which they created) to rush their global governance agenda into place.

The U.N.'s New York Conference on the World's Financial and Economic Crisis laid down a very specific agenda for U.N. control, including:

- Global control of the sea, space and air.
- Global tax authority.
- Global financial regulatory authority.
- Global competition authority.
- Global Economic Coordination Council.
- Creating a World Monetary Board.

In short, the U.N. is moving to impose global taxes and intends to make the U.N. the global IRS!

If this scheme is allowed to survive, they will control the entire economy of the world!

*P.O. Box 96401 \* Washington, DC 20090-6401*

Former U.N. General Assembly President Miguel D'Escoto pushed U.N. delegations to accept their U.N. global tax scheme, arrogantly proclaiming that "Capitalism cannot be reformed ...".

He also said: "Egotism and greed cannot be corrected. They must be replaced by solidarity, which obviously implies radical change ... It must be absolutely clear that we must go beyond controls and corrections of the existing model to create something that strives towards a new paradigm of social coexistence."

D'Escoto won the Lenin Peace Prize from the old Soviet Union. He was a former priest DEFROCKED by the Pope for becoming a communist. He served as Foreign Minister under the communist Sandinista regime in Nicaragua.

And now D'Escoto is leading the U.N. effort for total global control of the United States!

What's even more alarming, Barack Obama's U.N. National Security Advisor Susan Rice told the United Nations that "the United States has placed the highest priority" on the U.N.'s World Economic Crisis conference.

Make no mistake. D'Escoto, Rice and Obama are talking about destroying the very system of freedom that made the United States the envy of the world.

If this is allowed to happen, you will have no ability to stop U.N. global taxes and global governance.

You will have no vote. No say in the matter at all.

American sovereignty and independence will be irrevocably lost. Our money will be taxed by the U.N. Our laws will be dictated by the U.N. And our very destiny will be dictated by the U.N.

Can we stop it? I believe we can! And here's why:

First, just because the U.N. and Barack Obama and the liberal media say it will happen doesn't make it so.

Remember, we stopped Obama and his U.N. "Global Poverty Act" when it looked like there was no chance.

How did we do it? American Policy Center sounded the

alarm in Congress with supporters like you!

We did the same thing to stop the push for amnesty for illegal aliens. AND WE WON THESE BATTLES.

Second, conservatives have taken control of both the House and the Senate now. Obama lost his majority in Congress and now can't be sure to ram this U.N. Global Tax down our throats!

Now our job is to sound the alarm about this United Nations scheme.

Even with a conservative majority, Members of Congress are often cowards who look to "compromise" with liberals.

We can't let that happen with U.N. Global Taxes!

Instead, you and I need to "poison the well" against the U.N. tax and governance scheme and send our U.S. Senators running away from this Obama/Rice/D'Escoto U.N. cabal!

How can we do that? By collecting as many "No U.N. Taxes" Petitions to new Senate Majority Leader Mitch McConnell as possible from supporters like you!

Remember, Barack Obama will try to push a lot of the U.N.'s global tax agenda through the Senate in the form of "treaties" with the "global community".

The U.S. Senate has the sole responsibility under our U.S. Constitution to "advise and consent" on any treaty.

So it is critical that we pressure Senator McConnell to make sure he leads the Senate to DEFEAT any of these U.N. treaties that would hand them control of our wallets!

Please immediately sign your "No U.N. Taxes" Petition to Senate Majority Leader Mitch McConnell.

And then please rush your signed "No U.N. Taxes" Petition to Senate Majority Leader Mitch McConnell back to me at American Policy Center (APC).

APC is the recognized leader in the fight to get us out of the U.N. Our fight against the U.N. has been recognized internationally. In fact, I recently traveled to Cambridge University in England to debate the U.N. issue with the

former UK Ambassador to the U.N. It was quite an evening.

APC's Action Alert System, called "Sledgehammer," is one of the most effective in Capitol Hill. APC's articles and reports have been published in hundreds of newspapers and magazines. Through the Internet we are reaching millions of people around the world. I regularly appear on radio and television shows and speak at conferences across the nation.

APC is a fierce, effective voice in the fight for the principles of liberty.

Will you help me lead this vital effort to stop the U.N. from taxing us by sending APC a contribution to help me pay for the cost of reaching Americans nationwide?

Your gift for \$25, \$50, \$100, \$250, \$500 or even \$1000 will help me print more "No U.N. Taxes" Petitions to Senate Republican Leader Mitch McConnell, and help me crisscross the country to build more support for stopping U.N. taxes -- and ultimately getting us out of the United Nations.

Individual contributions like yours are APC's ONLY source of income. ~~We receive no grants or large corporate donations.~~ Your support is vital to APC's work.

So, whatever amount you can send, please do it today. I believe the time is very short for America's independence if the U.N.'s global governance agenda goes forward unchecked. If we do nothing we will lose.

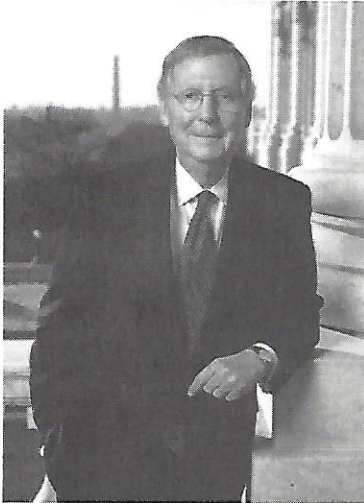

Or we can stop it now - if we demand it! Please let me hear from you TODAY.

In Liberty,

Tom DeWeese, President

P.S. I intend to fight the U.N.'s global control over our nation. I will fight to stop American taxpayer funds from going to the U.N. But I can only do that with your financial support. Will you help me?

## A Petition To Senator Mitch McConnell

Dear Senator McConnell,

The U.N. and its globalist allies are using the global economic crisis to rush their global governance agenda into place. The U.N.'s New York Conference on the World's Financial and Economic Crisis laid down a very specific agenda for U.N. control, including:

- Global control of the sea, space and air.
- Global tax authority.
- Global financial regulatory authority.
- Global competition authority.
- Global Economic Coordination Council.
- Creating a World Monetary Board.

In short, the U.N. is moving to impose global taxes and intends to make the U.N. the global IRS!

I, the undersigned citizen, do hereby respectfully request and demand that you lead the Senate to DEFEAT any United Nations treaty handing them global taxation powers over the American people. Please use this petition to help convince a majority of Senators to join with you in defending American sovereignty.
