To: New Property Rights Folks - I just met at Wendy's Freedom on Fire out of Orting Washington & Amy FYI Repeat & Sharon FYI & couple family & neighbors

My name is Jack Venrick and I met you at Wendy's Freedom on Fire gathering with Michael Shaw at Orting Washington yesterday. As

promised, I have added you to my property rights and freedom related reporting. Wendy's gathering was most special and I was deeply impressed on many levels which is not easy to do after some 67 years. I sent this material out about a month ago to my property rights distribution and wanted to also share this with you. I believe this material is most significant and will further expand your awareness of what the founding lawyers did to us and the ensuing collateral avalanche of takings as the territories opted to join the union.

I find one has to discard much of our history we have been taught, in order to better try and understand how all our 70 unalienable rights and counting have been taken.

Please find attached material in .PDF, 14 font and color to better read. You may forward to your nearest copy center and instruct them to print the three documents in black and white, double sided, 3 hole, and bind them together in an inexpensive binder. This is the best way to digest this material. Its roughly 10 cents a page double sided about \$20 +/- . The shift in consciousness gained by Michael Tsarion's material alone, will be your reward, I hope you agree.

OVERVIEW

The material attached of Michael Tsarion, confirms what my 5+ years of research, e.g. "A Treatise on the Corruption of the Constitutional Convention" revealed. Tsarion's material on the Constitution aligns with Lysander Spooner's material filed in the courts in the late 1800's. In 1886, Lysander sent a 110 page letter to President Grover Cleveland (1885-89) detailing his outrage of the centralization and growing tyranny against individual freedom, liberty and unalienable rights by the "government" since its "founding". <http://lysanderspooner.org/node/2>. This is also very key material. I printed this letter out and am wading through it now. Lysander Spooner was one of the most prolific American legal writers in the nineteenth century. However, he died in relative obscurity until he was resurrected by Professor Randy Barnett, tombstone and his works.

Mr. Barnett is the Carmack Waterhouse Professor of Legal Theory at the Georgetown University Law Center, where he teaches constitutional law and contracts. He has also taught torts, criminal law, evidence, agency and partnership, and jurisprudence. After graduating from Northwestern University and Harvard Law School, he tried many felony cases as a prosecutor in the Cook County States' Attorney's Office in Chicago. He has been a visiting professor at Northwestern and Harvard Law School. In 2008, he was awarded a Guggenheim Fellowship in Constitutional Studies.

Other sources confirming this indirectly and directly are:

- In Property and Freedom, Baird Research Professor of History at Harvard University and author of a dozen books on Russian history, describes the oppressive history of American government.
- Furthermore, a Rochester, New York retired policeman, Ralph Boryszewski, over 90 years old now, is on his second book after writing "The Constitution That Never Was". He is saying the same thing.
- Eric Black, the author of "Our Constitution The Myth that Binds Us, says the same thing.
- Kenneth W. Royce, in "Hologram of Liberty" outlines how the Constitution has a "shocking alliance with big government". (Profound On Book Read First)
- All are Must Read to understand and help you believe the enormity of the process used to steal all our private and public property

You will soon read more evidence closer to home in an upcoming release of a "Web Site Documentary on The State of Washington Constitution That Never Was". The evidence to date shows constitutional conventions and THEIR resulting constitutions have been cooked, big time. Corrupted conventions beget corrupted constitutions which beget municipal corporations (modeled after British monarchy, et al) which beget corrupted revised codes in each state which authorized literally the taking and taxing of everything. All of this goes against the Laws of Nature and Nature's God, the Declaration of Independence and the success of the first American Revolution which freed us from all this tyranny.

One enlightening phrase called these takings "parchment worship". There never was a separation of power, this too was a lie. The founding and following political lawyers, politicians and bankers saw to it before the quill pen touched the parchment. We have all been thoroughly duped. We have been taught and fed lies about our history and just about anything where the truth can be subverted.

- Duped - 1. a person who is easily deceived or fooled; gull. 2. a person who unquestioningly or unwittingly serves a cause or another person: a dupe of the communists. 3. to make a dupe of; deceive; delude; trick.

It was a great honor to meet each of you and see some of you again. I thank you for all your work to regain our lost freedoms and liberties and unalienable rights. Please see latest revision of "Your Certain Enumerated Unalienable Rights" attached FYI.

One Man Awake

One man awake, Awakens another,
The second awakens, His next door brother.

The three awake can rouse a town,

11/1/2010

By turning the whole place upside down.

The many awake, Can raise such a fuss,
It finally awakens, The rest of us.

One man up, With dawn in his eyes
Surely then...Multiplies.
