# ABSTRACT

“To know what we do not know is the beginning of wisdom.”

Maha Sthavira Sangarakshita

The states long ago lost control of their constitutionally created children, i.e. the public and private corporations. The states were lead (by their nose) to originate and continuously revise the state constitutions to give themselves more power while downloading more power via "home rule" to THEIR municipal monopoly while taking out, not including or diluting core individual unalienable rights. Constitutions do not dictate or limit sovereign state Citizens rights. Furthermore, the rights and ownership of the American infrastructure and natural resources are systematically outsourced via development rights and deception sales to international corporate boards at a direct cost to the property owner and tax payer. This is a form of human wage and property trading, i.e. human slavery and indentured servitude on a massive global level. The municipal planning associations across America and beyond American borders are charged with expanding their centralized "planning" areas for increased control. Planning = Control. The Bank of International Settlements, World Bank, IMF, unFederal unReserve, IRS and all the applicable cereal agencies are systematically tightening up their fish nets to pull us all into their pockets. Reagan Dunn and his King County Muni Corp. cohorts plus thousands of other city and county municipal corporations are part and parcel of this green planning game. The globalist have made an end run around DeCeit, Inc. and created many avenues of taking beyond what the average American can believe. Slavery today has become much more sophisticated than ships of human cargo traded across the Atlantic. Now the same global families who have always been in control of the vast

majority of the money and power, trade in cornering markets of natural resources which thread down to enslaving humans, their wages, lives and their public and private property. As more Americans wake up everyone else up, this global to local green web will be ripped out. The world will not end and there will be no chaos or anarchy as many believe. The chaos will only be in the eyes of the fat greedy spiders spinning these webs of lies taking local property one bite at a time tying up the allodial rights of sovereign state Citizens so the next insect can spin a larger web to poison more communities using forced usury, taxes and regulatory compliance. At least one third of Americans strongly believe the masses must be controlled or there will be anarchy. The planning associations, politicians, lawyers and banksters play on this fear by constantly creating false flags for profit and power. One glaring clue to believe this is the following; no one can get out of this political subdivision prison camp. Those who try die. The public and private corporations at the direction of elite global bodies will use any deception and tyranny necessary to create a pretext to take your private and public land, privacy, home, vehicles, animals, independence, sovereignty including killing you and/or creating false flags events to justify doing so. They will deny any global connection because someone who wants your land and wages more than you do, always has a better public and hidden reason to steal you property and wages with lies enough to convince at least a "majority" of their peers, i.e. plutocracy.

## STOP TAKING PRIVATE PROPERTY USING OUR PRIVATE PROPERTY –

Here we go again with Dunn taking more private property (216 acres) by using private property taxes behind closed doors without a vote by the property owners while property owners were working, if they were lucky to have a job, King County Municipal Corporation was working harder taking everything you own.

1. Property owners, state senators and representatives should notice these land taking decisions are made before they are announced.
2. Millions of Americans are jobless, homeless, living with relatives if they are lucky to have any, just to survive, while these Muni Mafia drive us into further poverty.
3. States like Maine are now waking up finally to stopping all land takings based on UN Agenda 21, see below.
4. Municipal corporations should return all this stolen wages to the property owners.
5. Municipal corporations are NOT true and honest free limited governments,
6. They are simply a utility service provider mutated into a network of global corporations via a popcorn effect influenced by super agendas.
7. Municipal corporations cannot put a gun to the head of a property owner and compel payment for anything, most especially the following:
  - a) recreational land, "toxic" weed control, "flood control", ferries, "emergency medical services",
  - b) "Other", Libraries, Hospital, Fire, Port, unincorporated/Road, City, County, Local School Support, State.
8. Stealing private property by taking property owner's wages is NOT necessary, not apportioned evenly as required by the U.S. CONstitution and not permitted at all by American fundamental laws, do you get the picture.
9. True and honest free limited republics cannot legitimize theft no more than an individual can.
10. True and honest free limited republics and THEIR public & private corporations cannot make a wrong a right by "majority" – no more than an individual thief can justify his takings with fellow thieves.

13. In a true and honest free limited republic, there is a very clear line in the consciousness of the community separating the church and the state AND..
14. Separating the church and state from the divine birthrights of the individual sovereign and free state Citizen.
15. Neither the church nor the state can take free will and free choice away from the state Citizen, especially for "recreational" purposes.
16. A true and honest free limited republic was never meant to be run by "professional" career politicians and lawyers.
13. All public servants take short term offices and rotate so neither party, politics, religion, special interest roots
14. The global to local movement has infested itself from day one into our republic and Hamilton made sure of that.
17. It is critical to understand land takings are planned and taken one bite at a time over generations.
13. The hope of the Takers is the average Citizen will never notice and even applaud the taking.
14. One day you and your children wake up and there is no private property to own with allodial rights, i.e. today.
15. There is no public land to homestead upon, you can raise no crops, you cannot build, you cannot do anything with your property, i.e. today.
16. Every piece of property and movement is "secured" by cameras and satellites and controlled at locations far from where you were born and raised, this is exactly what HAS happen.
18. Property owners do not need Reagan Dunn or any of his type who are working day and night with globalist agendas for their profit and power.
19. Municipal Corporations are unnecessary monopolies which must be reconstituted into free market coops and local private enterprises offering free choice.

## KING COUNTY MUNICIPAL CORPORATION HAS SIGNED WITH THE TRUST FOR PUBLIC LAND – TO TIE UP MORE PRIVATE PROPERTY THEY DO NOT NEED AT THE EXPENSE OF LOCAL PROPERTY OWNERS

- **The Trust For Public Land** is one of the main organizations which is a member of the UN Agenda 21 International Union for Conservation and Nature.
- American is blessed with 95% rural space & does not need more rural land takings nor rat packing of the urban areas.

### CHAPTER 22

#### PROTECTION OF PRIVATE PROPERTY RIGHTS

##### § 831. United Nations Agenda 21; international laws

1. **Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Agenda 21" means the plan of action adopted by the United Nations in 1992 at the United Nations Conference on Environment and Development and published in "Agenda 21. Earth Summit - The United Nations Programme of Action from Rio" (United Nations publication, ISBN 9789211005097, 1993).

B. "Political subdivision" means any municipality, plantation, county, quasi-municipal corporation or special purpose district, including any public-private partnership, of the State.

C. "Public-private partnership" means any partnership in which the State or a municipality, plantation, county, quasi-municipal corporation or special purpose district is a partner.

D. "State" means the State and any office, department, agency, authority, commission, board, institution, hospital or other instrumentality of the State.

2. **Prohibition on restricting private property rights.** The State or any political subdivision may not adopt or implement policies that intentionally or recklessly infringe on or restrict private property rights without due process as may be required by policy recommendations originating in or traceable to Agenda 21 or any international law or ancillary plan of action that contravenes the United States Constitution or the Constitution of Maine.

3. **Prohibition on transactions with organizations assisting in implementation of Agenda 21 policies.** Notwithstanding any other law to the contrary, the State or any political subdivision may not enter into any agreement with, expend any sum of money for, receive funds or contract services from or give financial aid to any nongovernmental or intergovernmental organization accredited or enlisted by the United Nations to assist in the implementation of the United Nations policies related to Agenda 21.

#### SUMMARY

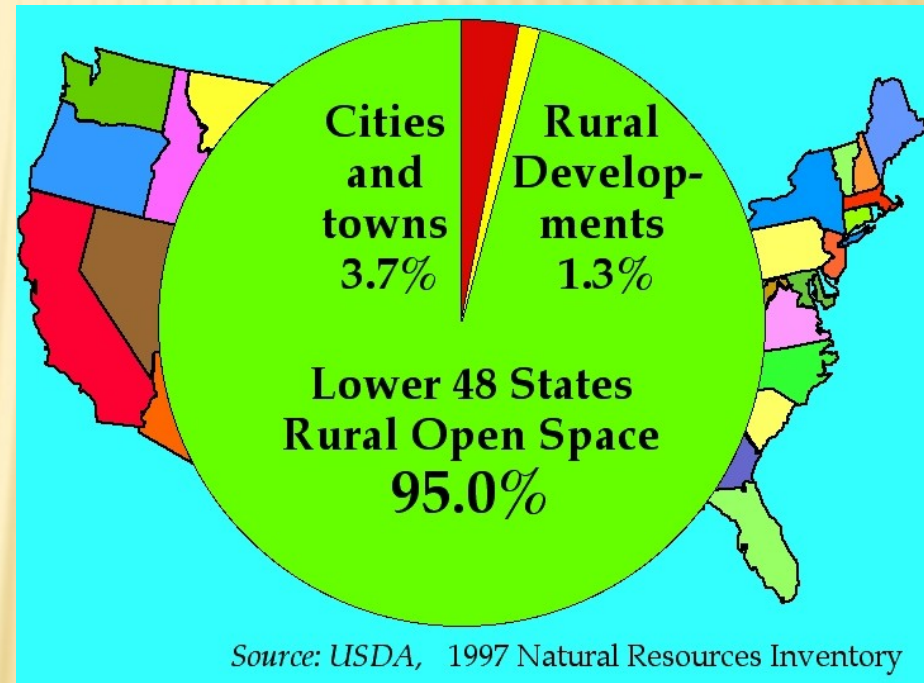

This bill prohibits the State or any political subdivision of the State from adopting or implementing policies originating in the United Nations Agenda 21 or other international laws that restrict private property rights without due process. Because the United Nations has accredited and enlisted numerous nongovernmental and intergovernmental organizations to assist in the implementation of its policies related to Agenda 21 around the world, the bill prohibits the State or any political subdivision from entering into agreements or financial arrangements with those organizations.

- ✘ <http://www.themainewire.com/2013/03/agenda-21-land-conservation-trojan-horse-big-government/>
- ✘ Maine has started a bill "An Act To Ban the United Nations Agenda 21 in Maine" to stop all political subdivisions, e.g. municipal corporations from entering into any agreements with these organizations.
- + "This bill prohibits the State or any political subdivision of the State from adopting or implementing policies originating in the United Nations Agenda 21 or other international laws that restrict private property rights without due process. - + Land "conservation" is not what you think it is, i.e. it is a selling out of our sovereignty and property rights to international corporations colluding with local municipal corporations transferring private property into a highly coordinated network of international corporate boards. No you do not need to put your tin hat on to believe this.

## BE DONE WITH DUNN – TAKE HIS COOKED SURVEY & FILL HIS EAR

- I invite all property owners to take Reagan Dunn's cooked survey and turn it around on him AND then call, fax or email him and the council of self bestowed kings with divine rights. We do not need more rural space, we have more than enough, see below. We need free choice and free will returned to America. Muni planners and those directing them need to put in prison for life .

## THERE IS NO NEED FOR PRIVATE LAND TAKINGS AT THE EXPENSE OF LOCAL PROPERTY OWNERS & PROPERTY RIGHTS – MUNICIPAL CORPORATIONS ARE LYING TO CORRAL MORE SHEEPLE FOR SLAUGHTER

- 1) This 216 acre Squak Mountain taking is being done at the same time King County Municipal Corporation is trying to take 43,000 acres off of SR410 toward Mt. Rainier Park in Washington state by colluding with John Hancock Timber Company which is a part of a large international Canadian holding company affiliated with the UN Agenda 21 takings.
- 2) I reported on this 43,000 acre taking a month ago and sent it to King County Council, WA state House and Senate and hundreds of property owners. Please review this research again via the link below if you have not seen.

  - [Here We Go Again - The Dark Side of Municipal Corporations - 2nd Best Viewing Option Adobe PDF \(3MB faster download\)](#)
- 3) Applicable slides follow from the above presentation for review. It is imperative to visualize the big picture of what is going in American Municipalities and their planning associations who will deny and defy this.
  - What we don't see and don't believe is killing US
  - America is abundant in property, we do not need to conscript American property owners and America private and public property with national or international corporations.

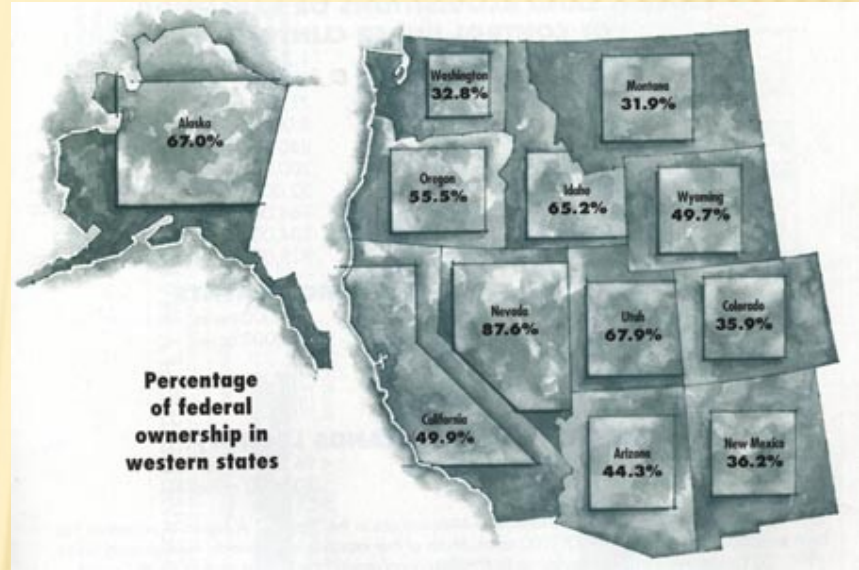

The rat packing of American communities by the global to local interlocking associations is based on lies they create to control the masses for profit and power. These lies include creating false flag strikes, wars, intentionally leaving our borders unprotected to break the American worker and their families, population control, man caused global warming, alternative energy is economical, trading "sprawl" for municipal corporations to sprawl all over our land, life and unalienable rights.

# PLANNING YOUR LIFE AWAY – ONE STEPFORD TOWN AFTER ANOTHER

"No one can take anything from anyone without their express personal permission because the minute this happens, everyone else is given a better reason to take your property than you have to keep it."  
FreedomForAllSeasons

- 1) The true sprawl is the growing nodes of municipal and planning associations all over America, i.e. local city, county, state, national to global. Public planners and their councils of cohorts have swallowed a poison which makes them believe they have magic powers and insight regarding our sovereign and free future.
- 2) Planners believe they can plan every facet of:
  - i. our life,
  - ii. property,
  - iii. what we each of us considers right and wrong,
  - iv. the density of the community we live in
  - v. the appropriate designation of any land, water and air around our allodial land rights,
  - vi. what type of land is more appropriate for each of us to go onto or stay off of,
  - vii. the percentage of open space and agriculture space we may live on,
  - viii. crops the sovereign Citizen may grow or not,
  - ix. when you can burn your slash,
  - x. the size of your toilet,
  - xi. the type of light bulb you can use as well as the appropriate license,
  - xii. permit and fees you will pay for all of the above,
  - xiii. All while they trespass all over your property and birthrights and have no professional education in the area of their taking.

- 3) All these takings are being done without a vote or true understanding of the taking by the poor home owners. Most if not all of the state Citizens will not have a clue what is really going on even if they were told because they at the most listen only to mainstream media. These are back room deals between the benefiting municipal corporations and the non government corporations like Hancock Timber.
- 4) See how much land the federal government holds in the western states (above graph) and then add land taken by the states and their "constitutional" children (the county and city municipal corporations). There is no need nor fundamental laws of the land to use force upon the individual property owners and business owners to take land or anything when America is so rich and bountiful in resources and corporate revenue.

## THE NATURE OF NATURAL – FORCING PROPERTY OWNERS TO PAY TO PARK.. ...

5/16/2013

“Life is a maze in which we take the wrong  
turn before we have learned to walk.”

Cyril Connolly

True and honest limited free Republics never force property owners to do anything they do not directly contract and agree to do. Municipal sewer and water utility coops never take anyone's property:

- ✓ So they can look more green
- ✓ So urban muni corporations CAFR's look good
- ✓ So they fit into the ICLEI global community
- ✓ so they can borrow more
- ✓ so they can tax more
- ✓ so they can park out more land
- ✓ So more local property owners have to sell and get out of this God forsaken county

- ✓ Political manipulation of nature kills creativity and assures failure due to collateral downstream problems beyond human comprehension impacting the generations proceeding.
- ✓ Many false beliefs which have taken on a life of their own can no longer be supported in the mass consciousness.
- ✓ The nature of these mass takings of property are debased on a false structure of political, “scientific”, financial and monetary negative rewards which have long run its course.
- ✓ Elite groups of very passionate people have created their own reality through their own belief system and successfully projected it globally to locally like the popcorn effect.
- ✓ The victims of these groups have a very different view supported by real science reality who cannot be obligated or forced to comply in a true and honest limited free Republic.
- ✓ “Reality” is manipulated through various lens of perceptions, e.g. politics, religion, science, law, etc.
- ✓ Manipulated data including holding back the big picture or creating a biased big picture through dogma boils down to intolerance for others unalienable rights and rightful credible dissenting “science.
- ✓ Intolerance, fear and highly judgmental agendas are hallmarks of blind belief systems.
- ✓ So called buffers, sensitive areas ordinances, critical area ordinances, Shoreline Management Acts, Growth Management Acts are environmental and social feasibility studies AT BEST which should never have been allowed into real life conditions.

## WASHINGTON STATE IS DUMPING PARKS WHILE KING COUNTY MUNICIPAL CORPORATION IS PARKING OUT MORE PRIVATE LAND ON THE BACKS OF LOCAL PROPERTY OWNERS

### "Beyond 2013 – A Transformation Strategy

In 2003, the Washington State Parks and Recreation Commission adopted Centennial 2013, a vision for the future of State Parks and a plan to carry it out. For the past decade, State Parks has been working with the public and park supporters to upgrade and improve state parks all across Washington.

As Washington State Parks enters its second century of service in 2013, a new plan must be developed to meet public needs and desires, and to continue State Parks' legacy of stewardship for future generations.

A new strategic planning process is now under way, involving recreation, heritage and conservation groups, park neighbors and supporters, legislators and other governments. We are exploring choices and setting direction for the next five years and beyond. We especially want those who love state parks to be involved in the process. Information gained through the process will be used to develop the transformation strategy intended to succeed the Centennial 2013 Plan." <http://www.parks.wa.gov/Beyond2013/>

### THE MEANING OF THE ABOVE GREEN SYRUP OF IPECAC IS:

WA State Inc. is not making enough revenue, a.k.a. taxes, on our park system so they are going to sell it off to the highest bidder AND continue to tax and take more and do less. This is what WA State Inc. and its legions of Muni. Corporations are designed to do best, tax, take and make it look like chocolate cake while transferring the sovereignty and ownership of your private and public property and your local businesses out of state and out of country. All while they increase their revenue and net worth.

- "Heritage" is a key word taking for UN and global groups,
- "other governments" are foreign governments,
- "conservation groups" love your land so much they will do anything to take it from you. Here is a short list of 40 some: <http://usparks.about.com/blkparklands-oz.htm>.

- The "transformation strategy" means the WA State Sovereign Citizens will own and control less of his or her public land and pay more big time.

# FORCE NEVER WORKS – IT CREATES MORE PROBLEMS THAN ITS WORTH – PART 1 OF 3

## WE CAN HAVE WHAT WE NEED WITHOUT STEALING PRIVATE PROPERTY

“For Whom Do The Park Bells Toll, They Toll For Thee.”

- 1) City of Seattle privatized the City Aquarium and the Zoo because they were increasingly forcing operational costs onto the local property owners. Now the private owners/investors are free to make a profit and provide a viable service to the Seattle visiting public not on the backs of local property owners.
- 2) The state of Washington is offloading its Park System
- 3) Public owned park systems poison the community private and public property because once land can be taken for “free” there are never enough parks to satisfy everyone as long as their land is not taken.
- 4) If this slide seems counterintuitive to what you “know” about parks please refer to the site page link below for examples. Note one case in particular of the Rosser family on Vashon Island in King County. Vashon Park Division has 22 some Parks but the School Dist. , Park Dept. and King County still must walk all over one of best and dearest families I have long known over 47 years.

- 5) A municipal corporation is debased on the ideology of a monopoly and a monarchy while using tyranny and force in a free limited republic which can be easily privatized and/or reconstituted into a coop giving everyone free choice to make the right decisions for themselves and their family not on the backs of others who do not want anything for anyone and most especially when stealing property from A to give to B all done by B and C.

# KING COUNTY WA MUNICIPAL CORPORATION CAFR – CONSOLIDATED ANNUAL FINANCIAL REPORT VS. PROPERTY TAX TAKING – PART 4 OF 8

“Between truth and the search for truth, I opt for the second.”  
Bernard Berenson

King County Municipal Corporation of WA Inc. Annual Gross Revenue for 2010 is \$3.522 Billion –  
The Property Tax Larceny for the same year is \$3.428 Billion –  
Did I Make a Mistake in my Accounting or is this Unbelievable.

**King County Washington 2010 CAFR Summary**

Funding Category	Net Worth or Net Assets	Annual Gross Revenue	Annual Net Revenue/Income	Notes
	(\$ in Millions)	(\$ in Millions)	(\$ in Millions)	
1. Governmental Funds	\$2,162	\$1,720	\$44	Public Transportation annual loss is \$468 Million with a net worth of \$1.5 Billion
2. Proprietary Funds	\$2,346	\$1,077	\$33	\$10 Billion tax payer expense for Workman Compensation
3. Fiduciary Funds	\$2,660		\$134	Total Assets = \$5.5 Billion
4. Component Units	\$1,072	\$725	-\$15	15.7 Million expensed as depreciation
<b>Grand Total</b>	<b>\$8,240</b>	<b>\$3,522</b>	<b>\$196</b>	

- 1) The 2010 Total King County Municipal Corporation property tax takings and pie chart on the previous slide show some \$3.428 billion dollars
- 2) Then refer to the table to the left. King County Municipal Corporation has a annual gross revenue of some \$3.522 billion for the year 2010.
- 3) The revenue of King County Municipal Corporation appears to be near identical to the annual property tax larceny grand theft.

## PROPERTY, WAGES & SMALL FAMILY BUSINESSES CANNOT BE TAXED, TAKEN, REGULATED OR CHARGED USURY

- 1) Americans revolted and shed blood to stop all tax taking upon their individual and family labor and property including regulations and usury.
- 2) Jesus stated, “What thinkest thou, Simon? of whom do the kings of the earth take custom or tribute? Of their own children, or of strangers? Peter saith unto him, Of strangers. Jesus saith unto him, Then are the children free”. Matthew 17:24-27 King James Version
- 3) The Laws of Nature and Nature’s God encompass our 70 some unalienable rights which are divine birthrights providing sanctuary to all man and most especially those who have been blessed to be born in America. These highest fundamental laws are inviolable, immutable, indisputable, unrestricted, unqualified and absolute.
  - + <http://www.freedomforallseasons.org/NaturalLawAndNaturalRights.asp>

- 4) The American Declaration of Independence is very clear, the colonists detested British oppression from uncountable fronts, especially taxing of the Citizens (**“the children” vs. strangers.**)
- 5) The American first Revolution intent and success was also very clear that Americans were willing to fight, bleed and if necessary die to take down the monarchy. General Washington and a few thousand frontiersmen and the French Navy won our freedom. However, the British monarchy remained by leaving its barbaric banking system and feudal municipal infrastructure exercised by tyranny not free choice.
- 6) There have been at least 53 cases in the Supreme Court and Federal Circuit Court ruling against the taxing of labor and private property.

- 11) Free limited Republics do not debate unalienable rights let alone take them, they protect them at any cost.
- 12) In the history of enslavement of others through tyranny and war there is one common denominator and that is the justification of taking and forcing upon others for another’s profit and power, i.e. the self righteous and arrogant takings debased on thinking the equivalent of a utility sewer maintenance public servant knows more than the sovereign Citizen.

## THE PLANNING PARADIGM

---

- 1) The planning paradigm relies on sophisticated, centralized interdependent systems of services. This creates greater capacity for disruption when any one part fails. Economies of scale in utilities may come with increased risk of failure under duress. This applies to sewage treatment infrastructure, communications, water, energy distribution, and power supplies. It also applies to public transport systems.
- 2) Poorly designed intensification reduces permeable surfaces, intensifying flood impacts.
- 3) Converting brownfield and even greenfield sites (such as undeveloped urban space) to housing or mixed use reduces the safety valve of open space and increases vulnerability associated with the concentration of buildings and populations.
- 4) Crowding more people into smaller spaces around constrained road capacity reduces prospects for rapid evacuation from the city or into safe structures and areas.
- 5) Lifting the density of buildings increases the consequential impacts of severe events by such things as the collapse of structures, the spread of fire, and the transmission of disease.
- 6) Mixing uses increases the risk of injury and destruction when people live close to premises where hazardous and flammable goods may be stored. Gas, chemical cleaners, and fuel are obvious examples.
- 7) Reducing the space available reduces the capacity of people – households and communities – to fend for themselves, particularly if the consequences of a disruptive event are prolonged.

## THE CENTRAL BANKING WARFARE INVESTMENT MODEL

**Catherine Austin Fitts** offers a unique perspective on the global financial system and on the political economy. Her background includes Managing Director and member of the Board of Wall Street investment bank Dillon Read & Co. Inc., Assistant Secretary of Housing – Federal Housing Commissioner in the first Bush Administration and President of Hamilton Securities Group, a Washington DC investment bank. Catherine has designed and closed over \$25 billion of transactions and investments to-date, has led portfolio strategy for \$300 billion of financial assets and liabilities and has participated in the private and public workout and turn around of billions in mortgage, real estate and banking fraud.

**Okay Ms. Fitts: "..... you mention as a prime factor that governs our lives on planet earth for roughly the last 500 years "the central banking-warfare investment model." Can you describe to us at the beginning of this interview some of the essential characteristics, rationales and goals of that "model"?"**

"The central banking-warfare investment model" is really a control model, through which a small group of people can control the most resources on the most profitable basis. Essentially what happens is: Central banks print money and then the military makes sure that other parties accept it and that the financial system continues to have liquidity. The question many people ask with regards to a fiat currency, which is a paper currency, is: Why would anybody take paper, which has no value? They take the paper, because it's part of the enforcement and military supervision, if you will, of the network that is printing the money. The system has created a fantastically profitable way of controlling large populations and access to resources very cheaply.

Let's say for a second that Mr. Global is in charge of "the central banking-warfare investment model": Mr. Global prints money and then people take that paper and give him in essence what he needs to buy up and control the national resources. The population is dependent on his paper and then he controls all the real things. Also through the military, he can steal whatever he wants. And organized crime is a very important component as well, because it can be expansive to drop an army and to occupy a place. If he can take over a place and buy that place with the place's own money, it's much more efficient, and that's where the drug business traditionally comes in. It's basically part of a model for controlling a territory with huge resources in the cheapest way possible."

### 2010-9-3 Behind the Wheel With Catherine - About Her & Interview

"Although it is unpleasant to acknowledge, we are caught up in an invisible war. We are being tricked and, in many cases, we can't see the game. It follows that if we don't know we're being 'played,' we won't know how to protect ourselves. My goal is to remove the barriers that prevent you from seeing this game: how it affects your money, your health, and your safety. Then I can help you take action. This is why I am doing The Solari Report."

## HOW TO TELL IF YOU ARE IN PRISON OR FREE

The chart above shows how the stages of oppression under any name ultimately collapse a society. America is in Stage 3 & 4. Only when individuals are allowed to be completely free to use their God given free will and free choice will society prosper and become enlighten to shed itself completely of the chains of over control. Without risk, experimentation and competition, freedom and liberty degenerate into oppression. You cannot force free people to take care of each other, that is an oxymoron, however you can force artificial man made creations to perform to some reasonable code and conduct. God creates man with free will, then man creates the public and private corporations, a.k.a. "government" to serve man, not visa versa. Man serves God if he chooses, God gives him a choice. The state rightful Citizen is the sovereign and free creator and does not serve government or its constitutional children of private and public corporations.

### Key Thoughts To This Slide

- 1) American communities have never been totally free. While they enjoyed a greater level of free choice early in American history, communities have been subverted into a nationwide franchise of political subdivisions and municipal corporations systematically centralizing power which are clearly prison camps.
- 2) American state Citizens have been intentionally out maneuvered into playing an escalating defensive losing game with the politicians, liewyers and banksters and the corporate cartel of non government benefactors.
- 3) When you realize you cannot get out of these overlays of political, financial and environmental webs anywhere in America, you will see we are in a political prison camp.
- 4) Free and sovereign people are not locked into overlays of tyranny, usury, compulsory regulations and tax taking for the "common good".
- 5) Prisoners have limited to no choice, free people have unlimited choices. Constitutions limit the government, not the free state Citizens, i.e. the constitutions were cooked from get go.
- 6) True and honest free limited republics promote experiments of freedom and liberty NOT prison franchises of feudal habitual municipal monarchies using predatory encroachment.
- 7) I challenge any individual or groups or community to get out of this suffocating, dictatorial, self bestowing, arrogant, interlocking, degenerate imperial system and create your own free communities.
- 8) The first community(ies) to escape and cut the chains of the fed, state and its municipal madness will declare themselves free of all taxation, usury and compulsory regulations upon its local citizens will be flooded with business and people stampeding to its doors to reinvent a new experiment in freedom and liberty.
- 9) The act alone of escaping from the municipal & subdivision prison camps will be the death knell of the one world government global to local multigenerational squeeze play. They hate freedom and anyone who tries to escape will have to fight to the death if necessary. This is how sick these municipal corporations and their mother states and DeCeit Inc. have become. This is what Jefferson warned us about and other righteous leaders.

1. King Coun Council members are forbidden by the American fundamental and founding laws of our land to assume this sovereign role which is exactly why this power is left strictly to the sovereign and free individual state natural born Citizen.
2. These employees only have authority over county employees. This group of political egos has been given no rightful authority or jurisdiction over any Citizens private property or family business. Municipal employees have no rightful power or authority than a common janitor, plumber or electrician. Mayors, councils and cereal agencies are merely utility providers, e.g. sewer.
3. The political parties and NGO's behind this council front themselves with false masks by creating dialectics for power and profit. Voting different parties in and out of office has no effect to the game plan of the global to local agenda. The agenda is to take all forms of rightful individual sovereignty and replace it with global to local false flag political, banking and legal control to suffocate any form of sovereign State Citizen freedom and liberty to keep you "safe" while safely keeping them in power over your freedom and liberty.
4. The city and county municipal corporations are taking private property from the home owners with one hand thru property tax extortion while they tie up more private property in land development rights with the other hand.

To fully understand how easy it is to dupe government employees; (1) look at the make up of this county municipal corporation council. They have no technical education or skills to separate fact from fiction which is handed to them by their NGO & cereal agency stooges. Yet they are ruling on science and engineering policy they have no clue about and worst yet, they are strongly biased in outcome debased political agendas.
