Subject: Thousands of Crimes exposed in Maricopa

— MARK —
FINCHEM
— FOR SECRETARY OF STATE —

Hello Jack,

When I say that Maricopa was a corrupt cesspool of fraudulent filth in 2022, that's not an exaggeration. When I say that every day, new evidence comes to light that the 2022 election was illegitimate, that's not an exaggeration.

Just this week, the Arizona Senate Election Committee uncovered literally THOUSANDS of crimes committed by Maricopa County in the 2022 election.

Testimony to Arizona Senate Election Committee Reveals Thousands of Misdemeanors Allegedly Committed by Maricopa County in 2022 Election

January 31, 2023 Rachel Alexander

Shelby Busch is the co-founder of *We the People AZ*. She testified before the Arizona Senate Election Committee, revealing her findings – that thousands of crimes were committed in Maricopa in the 2022 election.

The Arizona Sun Times reports:

Busch explained that her team found many violations of the state's Election Procedures Manual (EPM), which are class 2 misdemeanors. The statute that addresses the EPM, A.R.S. 16-452(C), states that "A person who violates any rule adopted pursuant to this section is guilty of a class 2 misdemeanor."

Busch's team submitted public records requests to Maricopa County to investigate the 2020 and 2022 elections. Although the county turned over some of the data, there was a significant amount that it refused to or heavily redacted, which Busch is now fighting legally. One of the county's excuses was it had misplaced the data.

Busch said she found election law violations in five categories. They were:

- adjudication of ballots, cast ballots that didn't match;*
- over 8,000 people who were unable to vote on Election Day;*
- a backdoor portal to voter registration records that nonprofits were able to access; and*
- around 300,000 ballots submitted to drop boxes that lacked a chain of custody*

To be clear, within these five specific types of election violations alone, there are more than enough fraudulent votes to overturn the results of the 2022 election – exactly like what happened in 2020!

Are we surprised the Democrats doubled down on their fraud?

Misplacing data, refusing to provide transparent access to data, ballots that don't match, disenfranchised voters, unsecure voter registration records, and hundreds of thousands of ballots without chain of custody...

Are we really that surprised?

Of course not. This is why the fight in Arizona carries on. We are fighting every day for Election Integrity!

HELP US FIGHT THESE ELECTION CRIMES

The good work that the Arizona Senate Election Committee is uncovering is revealing serious problems for our Republic.

We must fight the fraudsters that are trying to dismantle our elections, and we must fight the activist courts that are trying to attack Election Integrity with punitive sanctions.
