

# Destroying America From Within...

- Immigrants Failing to Assimilate in the U.S.
- Washington's Refusal to Address Illegal Immigration
- Chain Migration, Amnesty & Asylum Assaulting America's Identity
- English fading as our common language

Dear Mr. Venrick,

**Please use the enclosed 48 hour reply envelope to RUSH BACK your completed SURVEY and PETITION demanding your legislators take action right away.**

Make no mistake, it is inside our borders, within Montana, and spreading across America. Our country is fast becoming a nation with no identity, no culture, no core set of values, no religion and **no official language.**

**Steadfast multiculturalists** rail against you and I because we believe that immigrants in the United States should learn the English language, adopt American customs and values, identify as Americans, and adapt to live within the American culture.

Those like us, who take pride in our American heritage, see a threat both to the American political system and to American ideals from **immigrants refusing to assimilate.**

**Mr. Venrick, I'm writing to you today to ask for your support.**

Will you please sign and return to me the English Language Unity Act Petition (H.R. 997/S. 678) I've prepared for you demanding **U.S. Representative Greg Gianforte and U.S. Senators Jon Tester & Steve Daines CO-SPONSOR, VOTE FOR, and PASS** bills that strengthen border security and preserve English as the national language?

Passing these bills into law is the **first, crucial step** to fighting back against multilingualism — the gravest threat to our national unity, our democracy, and our national identity.

**And when you do, will you also complete our brief survey on the Assimilation of Immigrants in the United States?** I've included this survey because it is important for Congress and the candidates running for political office to see how Americans, like us, feel about having our country destroyed from people who came to our country through illegal immigration, amnesty, or chain migration and refuse to assimilate.

Very soon, members of the House and Senate may consider passage of "The English Language Unity Act," bills which would establish English as our nation's official language. Lawmakers must hear your voice and know you want them to take on this battle. **That's why your signed Petition and completed Survey are so important right now!**

There simply isn't a more unifying force than a common form of communications currency. Nearly every sovereign nation state has, at bare minimum, an official language.

(over, please ...)

It is essential that we make assimilation of our legal immigrants a top priority and learning English is **Step #1** in that process. It requires all official functions of the United States government to be conducted in English. It establishes a uniform language requirement for naturalization. Finally, it places an obligation on representatives of the federal government to encourage individuals to learn and use English.

And now that the mainstream media and some presidential candidates have become laser-focused on language, culture, and border issues, we have a unique opportunity to advance our cause at the federal level!

**The proof is overwhelming — Americans demand that English become the official language of the United States.**

To date, **32 states** in our Union have passed laws making English the official language, and **a few more** have legislation pending in their state legislatures. It is clear that **Americans** want English to be adopted, nationally.

Without a strong sense of unifying patriotism that lessens racial, ethnic, and genetic differences to a secondary status... we will be end up with a bigger government whose main purpose becomes managing and negotiating differences between factions.

I don't believe that's what President Roosevelt envisioned in 1919 when he said, *"We have room for but one language in this country, and that is the English language, for we intend to see that the crucible turns our people out as Americans, of American nationality, and not as dwellers in a multilingual boarding house."*

Yet, despite vast bipartisan support for English becoming the official language of the United States, that is — **89 percent of Republicans, 59 percent of Democrats, 74 percent of Independents, and even 76 percent of Hispanics** — there is a powerful lobby of multilingual groups fighting to do great harm to our democracy and to our political institutions by...

- ◆ Filing law suits to overturn states that have voted and passed legislation making English the official language.
- ◆ Suing small business owners who require their employees to speak English.
- ◆ Forcing taxpayers to fund bilingual education in many public schools.

Unfortunately, the efforts of the politically correct, multilingual lobbies (like the ACLU) have already had devastating effects as they push us to be a divided nation. Here's what they've done to America in just a short period of time:

- ◆ Passed a Federal law **REQUIRING STATES** to print election ballots in foreign languages.
- ◆ The Equal Employment Opportunity Commission has sued organizations, like the Salvation Army, for requiring their employees to speak English in the work place.
- ◆ As widely reported, driver's license exams are now given in foreign languages in almost 90% of the United States; in as many as 30 different languages.

But their assault on our American identity doesn't end there.

The grave threat is immigrants not assimilating into American culture — **their**

**unwillingness to speak English and our Political leaders making taxpayers foot the bill, so they don't have to assimilate!**

Incredibly, our opponents are trying to use the coronavirus pandemic as an excuse to dramatically *expand* taxpayer-funded multilingual policies for people who live in the U.S. yet refuse to learn English.

Assimilation is not *just* important — it is essential. Immigration without assimilation is invasion!

Consider the impact of NOT assimilating:

- According to the 2012 Census, the assistance offered by social welfare programs is being utilized **by 75% of legal and illegal immigrant families** — the latest sign that many immigrants come to America for the taxpayer-funded benefits like Medicaid, subsidized food, and cash.
- National Review researchers estimated that 6.4% of the estimated 11 million illegal immigrants — roughly 700,000 people — cast votes in recent U.S. elections.
- A disproportionate number of murderers, rapists, and drug dealers are crossing into the U.S. — illegal immigrants are three times as likely to be convicted of murder as members of the general population and account for far more crimes.

This is bad for our identity as Americans; it is bad for the American culture, and bad for the American political system.

I don't believe that the Federal Government — **AND OUR TAX DOLLARS** — should be used to further a radical agenda that embraces official multilingualism (a divided America) or threatens to block Official English laws that have already been passed in 32 states.

My friend, this is why I need your help. Please sign and rush back your English Language Unity Act Petition and Assimilation of Immigrants Survey with the enclosed stamps — so we can let Congress know they are on a dangerous path of destroying America from within.

When you do, please consider the impact your generous contribution will have to help this national mobilization campaign.

I wouldn't be asking for your help if we weren't at a dangerous crossroad. The Supreme Court could have another vacancy soon. And the next appointee could hold the deciding vote to tip the scales of justice in our favor, or forever against us.

It is vital that the next justices confirmed by the U.S. Senate have a strong record of upholding state law — in particular, the English as official language laws already passed in 32 states.

Will the next Justice be a defender of H.R. 997/S. 678 if the English Language Unity Act is passed and signed into law? We must let Congress and all the politicians running for office this year hear our voices!

There is another growing and gathering threat to Americans from “**chain migration**” — the endless **chains of foreign nationals** who are (under current law) allowed to immigrate only

(please turn over ...)

because permanent residents are allowed to bring in their non-nuclear family members into the U.S.

This damning policy is the primary mechanism that has caused immigration in this country to **quadruple in the last 40 years** and it is the chief culprit for our record-breaking population boom and all the attendant sprawl, congestion, and school overcrowding that damages Americans' quality of life.

This ill-conceived system has brought an estimated **11 million illegal immigrants into our country** because adult relatives of legal residents routinely overstay their visas (becoming illegal aliens). And Washington looks the other way, and in the past has granted them amnesty. **THIS MUST STOP!**

Now is the time to pressure Congress into passing the English Language Unity Act — please use the enclosed stamps to mail back your signed petition and the completed survey and return it **with a much-needed gift of \$30, \$45, or \$60** so we can broaden our fight for the future identity of the United States.

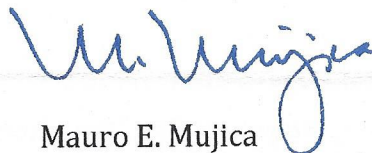

Mr. Venrick, the truth is the overwhelming majority of Americans clearly favor making English the official language of the U.S. But as it so often happens, politically-correct special interest groups are brow beating Congress to hold off on asserting the will of the majority.

**It is time we spoke up LOUDLY and CLEARLY.** Your signed English Language Unity Act Petition and completed Assimilation of Immigrants Survey campaign is how we get heard.

With your help and a large showing of support from each state in the nation for making English our official language we will remind Politicians in Washington, DC that anti-assimilation/multilingual pressure groups are fringe elements that do not speak for the will of the people.

A common language is the most powerful, unifying source of creating cohesive culture and preventing division. Please join this fight to preserve our country's unity — by returning your signed Petition, completed Survey, **and a contribution of \$30, \$45, or \$60 today.**

Sincerely,

Mauro E. Mujica  
Chairman of the Board/CEO

P.S. We are a nation strengthened by assimilation, and it is important we share one vision and one official language. English as the official language of our nation ensures we are all bound together and can achieve the American dream. Help me show Congress and the 2020 candidates that this is the will of the vast majority of Americans.

**Please take this moment to sign your English Language Unity Act Petition and complete the Assimilation of Immigrants Survey. Then, please return them to me RIGHT AWAY using the 48-hour reply envelope I've enclosed for you, along with a gift of \$30 or more so I can quickly get the tabulated results to your legislators:**

US Representative *Craig Gianforte*  
US SENATOR Jon Tester  
US SENATOR Steve Daines
