Subject: What about this little lady's freedom?

To Rural landowners and Interested Parties:

Every day there are constant reminders of government abuse of constitutional rights and every day they get away with it. Every day government is guilty of gross negligence, waste, fraud and corruption and they get away with it. Every day there are examples of government taking property by eminent domain abuse, unconstitutional ordinances and outright confiscation and they get away with it. Every day politicians, federal, state and local, violate their oath of office to preserve, protect and defend the Constitution of the United States and the state in which they reside and no one holds them accountable. Every day government willfully ignores its sworn duty to protect the American people from all enemies, foreign and domestic and they get away with it. Every day thousands of illegal immigrants flood across our open borders and invade our country with illiteracy, disease, drugs, crime and significant draw downs of government services and the illegals get away with it while our government looks the other way. Every day freedom and liberty for WE THE PEOPLE grow weaker and government power grows stronger and they get away with it because WE THE PEOPLE do very little to nothing to challenge them.

As I keep saying time after time, unless the people rise up in large numbers (*and so far they haven't*), this cradle-to-grave mentality, along with abuse, negligence, waste, fraud, corruption and takings by government will go on unabated and get worse over time. I wonder what it will take for WE THE PEOPLE to finally say "***I'm mad as Hell and I'm not going to take it anymore***"? And then do something about it. What a few of us are doing now is just a pin prick to a giant government-mandated injustice and government gets away with it because there are not enough of us to fight effectively.

***If we do nothing, what will her freedom look like
when she becomes an adult?
Her name is Vanessa
And she's counting on you
To protect and defend her freedom.
The question is, will you?***

Our younger generation, like this precious little lady, and all future generations in America and around the world, are doomed to government enslavement if we continue to sit on our hands and do nothing. We and a few others have devoted our lives to doing something. **We could use your help! But don't do it for us, do it for Vanessa and your own children and grand children.**

"THE NATIONAL ASSOCIATION OF RURAL LANDOWNERS"

The National Association of Rural Landowners (NARLO) is a non-profit corporation, duly licensed in the State of Washington. It was formed in response to draconian land use ordinances that were passed by King County in Washington State (Seattle) in the late Fall of 2004, after vociferous opposition from rural landowners. NARLO's mission is to begin the long process of restoring, preserving and protecting Constitutional property rights and returning this country to a Constitutional Republic. Government has done a great job of dividing us up into little battle groups where we are essentially impotent at a national level. We will change all that with the noisy voices and the vast wealth tied up in the land of the American rural landowner. The land is our power, if we will just use that power, before we lose it. We welcome donations and volunteers who believe as we do, that government abuses against rural landowners have gone on for far too long and a day of reckoning is at hand. To learn more, visit our website at www.narlo.org.

*President Roosevelt, in his 1933 inaugural address said, “.... **The only thing we have to fear is fear itself**”. I maintain that the only thing we have to fear is **unbridled government**. The only way unbridled government can exist is if WE THE PEOPLE allow it. Unfortunately, we have.*
