**Senator Paul has produced a reasonable, reachable exciting plan to save YOU the taxpayer, billions!**

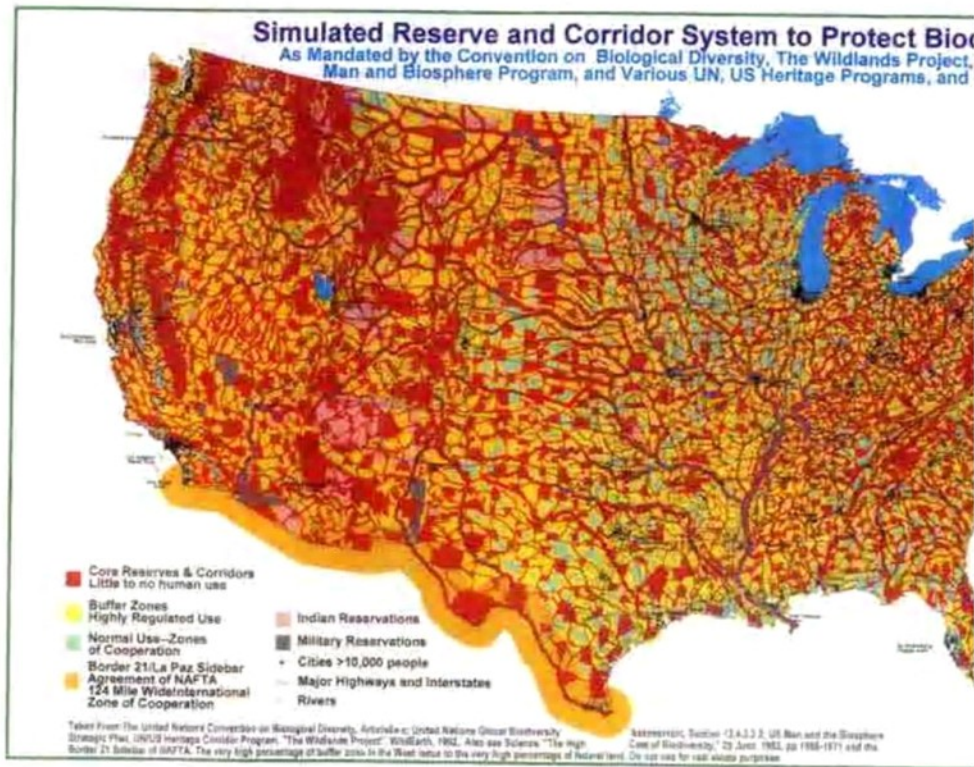

One thing we'd like for Senator Paul to add to the cuts: "No more grant monies to any eco-activist group!"

For example: The Nature Conservancy is already bragging that they're asking for and will probably receive \$900 MILLION in October 2011.

We want federal audits of TNC et al, to determine how much in their assets are due to federal grant monies.

Federal should then demand they return every penny.

Resource providers know TNC et al, are in partnership with the federal government, using money gifted by federal, to incrementally take control of all the land and water in the USA, through their plan, "Simulated Reserve and Corridor System to Protect Biodiversity." a.k.a. The Wildlands Project. The Nature Conservancy and all its affiliates are deserving of defunding.
