## **John R, our cattlemen are under attack!**

**"Meat consumption is devastating some of the world's most valuable and vulnerable regions, due to the vast amount of land needed to produce animal feed."**

That quote is from a report issued by the radical World Wildlife Fund (WWF), one of the top three most influential environmental groups in the world.

For years the WWF has been working to force us to stop eating meat and replace it with Soy products.

So, what you say? Empty threat? Not going to happen?

Then you had better listen to what I'm about to tell you.

## **The World Wildlife Fund has succeeded in taking over the American Cattle Industry!**

- They have created the Global Roundtable for Sustainable Beef.
- It comes with an endless list of rules to control how cattlemen are to operate – and those rules increase costs, and make it nearly impossible for small farmers to operate.
- They have succeeded in getting the National Cattlemen's Beef Association to endorse the Roundtable's crazy rules.
- And the Roundtable now controls the beef packing industry which in turn controls the entire beef retail market. Cattlemen either obey the WWF dictates or are cut out of the industry.

The Roundtable plans come with a strict set of "principles" that are right out of Agenda 21. The "principles must be considered in their entirety."

The rules take away the farmer's right to control his own property. Instead, the farmer is forced to deal with the introduction of predators like wolves and bears. The WWF calls that "biological diversity."

The rules disallow farmers to use water that runs through their own land –yet demand that the cattle be well fed and watered.

The rules even demand that the farmer provide "thermal comfort" – housing – for herds of hundreds or even thousands of cattle.

And the roundtable even dictates the rules on dealing with and training employees: "Business activities are conducted in a manner that respects human rights as set out in the United Nations Universal Declaration of Human Rights."

How could hiring an employee to take care of the cattle possibly violate their human rights? The only rights being violated here are those of the farmer!

These rules ignore that fact that American cattlemen have always produced the highest grade of beef in the world – just by using a process that has been used by their forefathers for generations.

**The real result of these rules isn't to produce a better beef product – but to destroy small producers and drive the industry to the massive corporate farms that can afford to play ball with the World Wildlife Fund.**

This is the growing threat of Agenda 21 and Sustainable Development and its stated purpose to "reorganize human society.

And this is how they do it – one industry at a time.

The World Wildlife Fund has openly stated its opposition to beef production. They insist that to "Save the Earth it is demanded that we change human consumption habits away from beef."

How in the world did this powerful anti-beef, anti-free enterprise, UN monster get control of our beef industry?

The short answer is that a vast majority of the beef producers in the nation, as represented by the National Cattlemen's Beef Association are merely ignorant of the threat from the Sustainable policy.

But there is a growing number of cattlemen who are starting to fight back. They know these policies are wrong.

The trouble is they are a small minority fighting a powerful monster. The leaders of their own industry are working to crush their opposition. They need help.

I'm proud to say these desperate freedom fighter cattlemen have reached out to the American Policy Center and me to help them fight back.

They know that the only way they can restore our American cattle industry is to teach their fellow cattlemen exactly what Agenda 21/Sustainable Development policy is, where it came from, and how to stop it.

That's what the American Policy Center does. That's why APC exists!

The truth is APC is the only national organizations that dedicates its full time to stopping this monster.

APC has helped to inform and train thousands of dedicated activists on how to fight in city halls and county commissions.

I have crisscrossed the nation, speaking, appearing on radio and TV. APC has produced manuals, books, newsletters, and special reports, all to teach the facts about the threat of the UN'S Agenda 21.

That's why these cattlemen have turned to APC for help.

Just a couple of months ago I spoke to their conference in Oklahoma to teach them the details they need to focus on to fight the radical World Wildlife Fund. I got a standing ovation. Now I am working to prepare articles to help get their story out to the nation. **I want to help these people in every way I can!**

Americans must learn the truth that our national food supply is being targeted as a means to change our culture and control us as called for in Agenda 21.

This attack on the cattle industry is a significant move to subjugate and "harmonize" the United States into global control by the UN. That is the ultimate goal of Agenda 21 and its policy of Sustainable Development.

With Nancy Pelosi once again in charge of the U.S. House of Representatives it is going to become a more significant challenge to fight back on the federal level. That means we have to fight harder on the local level – and that's where this battle can be won.

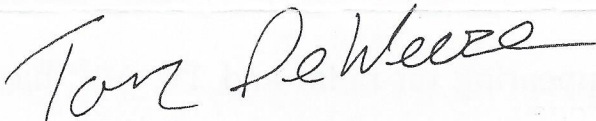

You and I had led the battle when others failed to understand. Now more and more victims are coming to APC for help. It's urgent that APC is there to answer their pleas.

John R, I need your financial support, so I can be there for them. There are materials to produce to help them educate their fellow cattlemen. There is a lot of travel that must be done to meet with them first hand and conduct training.

Will you help me now with your donation to APC for \$25, \$50 or as much as \$80? The Sustainablists are pushing harder than ever before – they are desperate to enforce their plans. I've got to be strong to counter them.

If not APC – then who will stop them? Please help me now!

Sincerely,

A handwritten signature in black ink that reads "Tom DeWeese". The signature is written in a cursive, slightly slanted style.

Tom DeWeese

President

# American Policy Center

Dear Friend:

I urgently need your signed "Stop the UN Agenda 21 Takeover" Petition for President of the United States Donald Trump.

And please, I mean that I need your signed "Stop the UN Agenda 21 Takeover" Petition RIGHT NOW.

The United Nations has hatched a plan to restructure American cities and towns in their own socialist image, called Agenda 21.

It is a violation of our U.S. Constitution.

It destroys American's precious system of limited government.

It steals private property.

It destroyed our free market economy.

It destroys our public education system.

It is even being used to change our churches!

That's exactly what Agenda 21 is designed to do.

And right now, in the guise of "sustainable development", pro-United Nations radicals have already infiltrated 600 American towns and cities via the UN Agenda 21 scheme!

Now the news is EVEN WORSE.

One of the main leaders of the UN's Agenda 21 cabal is none other than new Speaker of the House, San Francisco leftist Nancy Pelosi!!!

Leftist Nancy Pelosi wants NOTHING MORE than to impose the UN's socialist Agenda 21 on the rest of America.

It's been the BIGGEST GOAL of her lifetime!

More than 25 years ago, Nancy Pelosi introduced a House Concurrent Resolution demanding that the United States immediately implement all aspects of the UN's socialist Agenda 21.

*P.O. Box 96401 \* Washington, DC 20090-6401*

AAa

And now SPEAKER OF THE HOUSE Nancy Pelosi has the power to ram the UN's socialist Agenda 21 down our throat!

That's why I'm asking you to please sign the "Stop the UN Agenda 21 Takeover" Petition for President Trump I've enclosed for you.

Every step of the way, American Policy Center has fought this dangerous UN scheme to socialize America.

American Policy Center has been on the front lines for over 20 years – sometimes fighting a very lonely battle trying to get people to stand up and fight the UN and its Agenda 21 schemes.

And now our lonely battle is coming to center stage in Congress!

San Francisco leftist Nancy Pelosi has taken control of the House of Representatives. And she's going to push the socialist, pro-UN agenda through Congress ... unless we stop her.

That's why I need your signed "Stop the UN Agenda 21 Takeover" Petition to President Trump immediately.

We need to help President Trump stand up to leftist Nancy Pelosi and BAN the implementation of the UN's Agenda 21 scheme.

Liberals in Congress -- led by Nancy Pelosi -- will pull out all the stops to advance the UN's Agenda 21 and their dreams of a UN takeover of our cities!

The only thing that can stop the liberals is for American Policy Center to rally the American people behind President Trump to STOP THIS SOCIALIST UNITED NATIONS SCHEME.

My friend, we need to generate a MASSIVE amount of grassroots pressure from Americans like you and me to make sure President Trump has the backing he needs to defeat Nancy Pelosi and the UN's Agenda 21.

That's why I need your signed "Stop the UN Agenda 21 Takeover" Petition for President Trump right away!

And when you send me you signed "Stop the UN Agenda 21 Takeover" Petition, I also urgently need your help to fight and win this battle.

We need to print and distribute more education materials.

We need more "Stop the UN Agenda 21 Takeover" Petitions.

And we need more reports to back up our case!

I have run out of copies of my manual that exposes this UN scheme,

“Sustainable Development, the Wrenching Transformation of America,” and we need more now!

I've been in meetings with public officials with them holding a copy as I entered their office. This manual has become a guidebook for many.

I have no more of them in stock and it costs \$5 each to print them. But I do not have the funds to get more. That situation must be fixed if we are to win.

American Policy Center has succeeded in mailing out more than three MILLION letters warning Americans about this UN scheme to control our cities.

I am certain that is the reason opposition is now growing across the nation. But that is not enough.

With San Francisco leftist Nancy Pelosi now the House Speaker, the pro-UN Agenda 21 socialists are back in the driver's seat.

There has never been a more urgent time to get this “Stop the UN Agenda 21 Takeover” Petition and our comprehensive manual into the hands of thousands of Americans!

If we don't rally enough Americans behind President Trump to DEFEAT Nancy Pelosi and the United Nations .... WE WILL LOSE.

---

I need your signed “Stop the UN Agenda 21 Takeover” Petition.

And I need funds to make and deliver copies, mail more, reach more Americans, and help President Trump take action!

I am receiving more and more calls to speak, from across Virginia, to Maine, to Ohio, to North and South Carolina, to Florida, to Michigan, to Montana, to Idaho, to Washington, to California.

I have received calls for help in all of those states. I have given over 100 talks in 35 states over the last 18 months, with more coming.

I have the materials. I have the knowledge. We CAN defeat Nancy Pelosi!

But we WILL lose it all without the necessary funds.

Please, will you join me in this fight by giving American Policy Center your most generous gift? Will you send a contribution to American Policy Center for \$25, \$50, \$100, \$250, or even \$1000 today?

I need to raise \$2675 immediately to get my manual to all the elected officials in Congress (435 Congressmen + 100 Senators = 535 x \$5 each). We need to educate the “moderates” in Congress to start to fight back against Nancy Pelosi and the United Nations!

Next, I need at least \$20,000 to support this grassroots “Stop the UN Agenda 21 Takeover” Petition drive for President Trump. And that’s just the start!

This is our moment. This is our time to lead this fight and crush the forces of tyranny that have strangled our nation for so long.

With Nancy Pelosi leading the charge, they may look unstoppable – but thanks to American Policy Center, they are not any more.

It’s vital that you help right now by signing your enclosed “Stop the UN Agenda 21 Takeover” Petition to President Trump and rushing American Policy Center a support donation of at least \$25.

When I was with one Maryland official recently who is taking his own stand against the UN’s Agenda 21, I asked him this question.

“How are you holding up under the intense pressure and attacks you are receiving from the federal and state government agencies, from the news media and from the hundreds of non-governmental organizations (NGOs) that are targeting you? Are any of you starting to waiver and have second thoughts about what you are doing?”

Here was his answer: “Every day, when we get our mail or get on our computers we receive another 4 or 5 letters or emails of thanks and support. That keeps us going.”

If just 4 or 5 letters kept that official going, just imagine what THOUSANDS of “Stop the UN Agenda 21 Takeover” Petitions would do to bolster President Trump as he fights Nancy Pelosi and the United Nations!

That’s why it is vital that you sign your enclosed “Stop the UN Agenda 21 Takeover” Petition and mail it to me right away.

Imagine the impact that will have on President Trump! And when we show HIM that kind of support, the word will spread and more and more Members of Congress will be less afraid to step out and OPPOSE Nancy Pelosi as well.

That is what your signed “Stop the UN Agenda 21 Takeover” Petition and contribution of \$25 or more to American Policy Center will do.

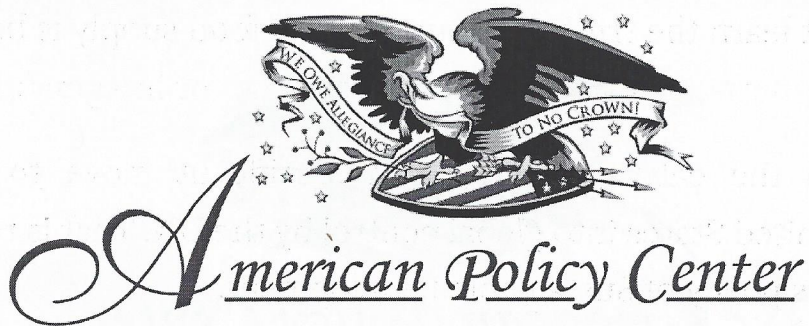

Thanks for standing with me in this fight to stop Nancy Pelosi and the socialist UN’s Agenda 21.

Sincerely,

Tom DeWeese, President

## **ABOUT THE AMERICAN POLICY CENTER**

The American Policy Center (APC) is a grassroots activist organization located in suburban Washington, D.C. Since 1986, APC has been the leader in the fight to preserve private property rights against government land grabs; protect national sovereignty from the threat of the United Nations; protect privacy rights; and restore academic-based education and eliminate federal intrusions like Goals 2000, School-To-Work, Common Core, and Outcome-based Education. APC President Tom DeWeese travels the nation, appearing on a countless number of radio and television programs and speaking before conferences, spreading APC's message of individual liberty, limited government and free enterprise.

## **APC'S MISSION**

- Fight to protect property rights against government intrusion
- Reduce the federal role in education and return control to local schools
- Stop federal land grabs and radical environmental policies not based on sound science
- Prevent federal data banks from intruding in personal lives of Americans
