[House Bill 132](#) has passed both chambers of the Montana legislature and is now on the Governor's desk. This bill changes the legal definition of "wild bison" to ensure that animals that were once livestock can never be changed to wildlife. This is especially important for bison on the APR.

The bill was contentious through the legislature, with most Democrats opposing the changes. We are concerned Governor Bullock may veto it.

You can weigh in to show your support by [contacting Governor Bullock's office here](#).
