Coming soon: Definition of federal property- "Right out of their own Code. 40 U.S.C. 102(9) and 40 U.S.C. 1314"
Danny Martinez

In light of Federal's ever expanding property takings (through such as monument designations, wildland corridors, water diversions, AUM cuts Bi grazing) Land and Water USA publically asked: "What property does federal really own and or have the right to control?" Using our U.S. Constitution, Danny Martinez, immediately began to provide the clearest answers. Example: The Constitution divides authority between federal and state governments for the protection of individuals. State sovereignty is not just an end in itself: "Rather, federal secures to citizens the liberties that derive from the diffusion of sovereign power." *Coleman v. Thompson*, 501 U.S. 722, 759 (1991) (BLACKM J., dissenting). "Just as the separation and independence of the coordinate branches of the Federal Government serve to prevent the accumulation of excessive power in any one branch, a healthy balance of power between the States and the Federal Government will reduce the risk of tyranny and abuse from either front." *Gregory v. Ashcroft*, [505 U.S. 144, 182] *Ashcroft*, 501 U.S., at 458. See *The Federalist* No. 51, p. 323. (C. Rossiter ed. 1961).
