New Nail Gun Made by DeWalt

Might want to add this to your collection:

New from DeWalt

New Nail Gun, made by DeWalt. It can drive a 16d nail through a 2 X 4 at 200 yards. This makes construction a breeze, you can sit in your lawn chair and build a fence. Just get the wife or kids to hold the fence boards in place while you sit back, relax with a cold drink, when they have the board in the right place just fire away. With the hundred round magazine, you can build the fence with a minimum of reloading. After a day of fence building with the new DeWalt Rapid Fire Nail Gun, the wife will not ask you to fix or build anything else.

PS: add'l battery packs req'd!
