bcc: The Takers

FYI below my rant on keeping an eye on your license plates from one of our astute property owners.

Have you noticed how all takings of our freedoms and liberties connect together in a puzzle that paints a picture, e.g. "Little Shop of Taking"?

All private property has been under attack since day one, when "man" walked the earth. England came after the small pilgrim colony that started with 102 starving desperate

desperate men and women and children in 1620. 20,000 followed them over the next twenty years. Fifty years later, tyranny was taking again, to collect taxes by force to pay for English wars. Nothing has changed. Taking is an addiction, a drug of choice, killing the family & the family of man who innocently are taken in.

Freedom has given us everything. Government and mob rule tyranny has taken everything. This has been the cycle since day one. Consider America the latest "living" archeological dig on how freedom is quickly and easily taken.

We had no income taxes between 1776 and 1913.

- How did we survive then?.. By indirect taxes and voluntary direct taxes on profits and and gain, from what history I can dig up. Im still digging.
- Wages are private property, just like your vehicles, guns, land, home, farm equipment, equipment, etc.
- Taxes on private property are unconstitutional.
- America has been subjected to brainwashing vortex of taking over the last 230 some years.
- Aaron Russo documentary says 66 million people do not file income taxes, see my estimate below.
- The IRS has refused to show the law which require any free U.S. citizen to file an Income Tax Form.
- There is no law requiring the average citizen to pay a direct unapportioned tax.
- Income is gain and profit NOT wages.
- Believe it or not, the IRS Code says the tax system is meant to be voluntary compliance not mandatory.

The 16th Amendment was never legitimately ratified.

- They never had near enough votes in 1913 so they twisted Lame Duck Secretary of State Knox's arm to make the fix.
- The Federal Reserve Act of 1913 was also orchestrated fraud while many of the Senators were home for Christmas.
- Going off the gold standard was a total disaster.
- The central bankers have taken us to the cleaners.
- The Government is not required to pay interest on its debt.
- The debt is going to the central banks.
- Government prints the money.

The following is a great visual example of what the rising river of freedom looks like.

- <http://www.taxfoundation.org/publications/show/542.html>.

There are near 300 million people in America according to the July 6, 2006 census estimates.

- <http://www.census.gov/popest/national/asrh/NC-EST2006/NC-EST2006-01.xls>.
- 131 million paid taxes in 2004 according the above Tax Foundation site.
- That leaves 169 million that did not pay less growth from 2004 to 2006.
- Of those 169 million, approximately 21 million are under 19 years old according to the above census reports.
- So that leaves 148 million adults more or less Relative Order of Magnitude numbers for email conversation
- This is 2.2 times the number of 66 million that Aaron Russo's documentary says are not paying federal taxes.
- No free man or women or child owes anybody anything except love, compassion and voluntary help lest of all their private property.

The internet is now our door to our own truth, freedom and liberty. The truth is buried deep. Until we dig it up, we will not be free.

It is becoming more clear to understand the history of erosion of our basic rights, freedoms freedoms and liberties.

- This addiction to printing worthless fiat money and spending debt is one of the major major takings of our freedoms.
- Every worthless paper dollar and coin in your pocket is debt.
- If you collected all this worthless fiat money, it represents what America owes.
- Our paper money is not federal silver or gold redeemable notes.
- Our paper is only "legal tender" which means it is government forced exchange, totally worthless in commodity value.
- Our monetary is unconstitutional.

- It has been extorted and distorted from our Founding Fathers intentions.

The underground economy in America is growing like a river goes around log jams. The log jam builds up almost naturally and obstructs the river while the river silently goes around the jam, faster and higher. The "log jam" thinks it is controlling the river. Deep rivers are near silent, they graciously move around the obstructions. Only those with eyes to see, can see the increasing fluid dynamics around the obstruction.

While the green and social engineering movement grow in building their log jam of taking, taking, the river of freedom silently goes around them.

We The People, wait for the perfect storm, the river of freedom is the storm.

- The river is slowing rising
- While we wait, the takers take more voraciously of our individual and national freedoms.
- The takers are addicted to US and our bundle of rights
- They will straggle our freedoms and believe it is for our own good.
- It is time for America to be independent and sovereign beyond what our Founding Fathers ever imagined.
- Beyond what you and I can even dream off.
- Perhaps this time, only time will be taken in the end not more lives.
- The most brutal dictators have never been able to hold people struggling to be free for for long even with holocausts and genocide.

We the People do not need government to "protect" us any longer.

- With a government like ours, who needs an enemy?
- It has become a cancer to our bundle of rights and an embarrassment to free constitutional loving Americans.
- This great nation was built on individual freedoms, liberties and natural rights not dependent on anyone or any group.
- Ironically it may take a hundred million illegal Mexicans to break our social taking system and set us all free.
- Check these stats below, what do you see?
- <http://www.census.gov/ipc/www/usinterimproj/natprojtab01a.xls>

The final shoe on our freedoms drops when you start to study and understand the dynamics

dynamics of war.

- What I am learning is that most wars including our so called American civil war was totally unnecessary and the truth was corrupted.
- Hundreds of thousands of men died and women and children for this corruption of the the truth by central banks and power brokers.
- I say this as an ex conservative hawk. I am neither liberal nor conservative now. I am a hawk for individual freedom.
- Our party system is a total fabrication against all our freedoms.
- Our educational system is a State run school of propaganda horrors.
- Our government consumes our freedoms to keep itself in power
- Mobs rule the government to take our individual freedoms and liberties.

The hard truth boiled down.

- Absolute freedom and sovereignty is a natural right that cannot be taken or given.
- When we allow each other this "natural" God given right, then we will have absolute absolute freedom.
- All our rights are gone because the "dark forces" messing with the river of freedom.
- Other property owners and freedom groups are way ahead on piecing this picture of taking.
- Spread the word, support and attend your local and national property and freedom groups.
- One person makes an incredible difference because this movement is so young.

"Thus, the particular phraseology of the constitution of the United States confirms and strengthens the principle, supposed to be essential to all written constitutions, that a law repugnant to the constitution is void; and that courts, as well as other departments, are bound by that instrument."

God Bless America and may She wake up, stand up and grow up to take back all her freedoms including the ones She never had.

Subject: Keep an eye on your license plate.....read further

This is true: <http://www.snopes.com/autos/theft/gastheft.asp>

A woman said her son found his license plate missing so he called the police to file a report. They told him people were stealing the plates to get free gas. Given the rise in gas prices, people have taken to stealing license plates, putting them on their car, then getting gas and running. The gas station will have "your" license plate # and you could be in trouble for "pump and run." Check your car periodically to be sure you still have a plate. If you should find it missing, file a report immediately!!! Keep an eye on your license plate! Make sure you always know it's there! When the license plate is reported as the "drive off vehicle", it's YOU they contact! Be aware!!!! Be aware of your license plates, most of us never look to see if they're there.
