Subject: Washington State GMA STAFF, WEBSITE & TAKINGS PLAN - CTED Prepares to Release the Scope of Work for WAC Update Process

CTED Schedules 4 workshops to Update GMA

The CTED stands for: the WA State Dept. of "Community Trade and Economic Development". This is the government agency that oversees the GMA (Growth Management Act), COA (Critical Areas Ordinance) and other environmental agency/liberal/UN agenda take-overs/take-away's. Some may be familiar with the personal property issues that are being controlled by their governance, via state and county ordinances/WAC's, with their property.

Below is their mission statement....

Growth Management Services (GMS) Mission and Goals Mission

We assist and guide local governments, state agencies, and others in planning and achieving effective solutions to manage growth and development, consistent with the Growth Management Act (GMA).

....you can view their government goals for your personal property at:

Also below is a fine email from a friend of mine about their upcoming meetings called: "CTED Release of the Scope of Work for WAC Update Process". At these meetings, they will be dreaming up new ways to take control of your personal property. For those that wish to get involved or find out more info., please read on.

"The most effective way of making people accept the validity of the values they are to serve is to persuade them that they are really the same as those which they... have always held, but which were not properly understood or recognized before. And the most efficient technique to this end is to use the old words but change their meaning. Few traits of totalitarian regimes are at the same time so confusing to the superficial observer and yet so characteristic of the whole intellectual climate as the complete perversion of language, the change of meaning of the words by which the ideals of the new regimes are expressed."
