**Old email but worth a glance, especially if you connect it to "global warming".**

**This is hard for the media, academia, greens & government to understand, even when it is obvious & & especially when it goes against their revenue. When you are making a living on a myth, the "facts" are what you want them to be. CONgress, CO..urts, EXECUT(e)..ives & non government groups have created a government of myths, by myths and for myths to take away every right we ever had. They must perpetuate this ignorance to stay alive even if it means killing those who keep feeding them.**
