No covenants, restrictions or contracts were ever owner agreed to be bound  
In these fictional commercial British corporate *municipalities*  
Self serving councils long forgot the higher founding and fundamental grounds  
Private property or wages cannot be taxed, regulated or taken down

Codes invented by the green and yellow *municipality* council of CONs  
Our natural waste became an unnatural crime for revenue  
What all animals freely do upon the ground  
The Natural Born, their property and septic systems are confiscated too, by the municipals

One by one each private property abode grows old and is closed down  
By illegitimate misapplied commercial permits, taxes and plans  
The British Kings and Queens invented this corporate municipal CON  
They codified and criminalized the natural rights and natural habits of man

Weather, fuel and rural living too, were coded into crimes against humanity  
Little houses that always survive in natural cycles of wet and dry  
Where water tables naturally rise and fall  
The yellow municipality coded this for their revenue and stole it all

The high priests of the global elite associations and municipalities  
Revoked the great American Founding and Fundamental Laws  
Declared a continual national state of Emergency and Revocation  
To collect more revenue by legal fictional commercial laws

The first American Revolution rose up and rearranged  
The Rights of man and gave him allodial rights upon his land  
But ONLY the names of the British Kings and Queens changed  
Individual freedom never came

Against all odds, little houses grew across the land  
Great and small in their natural uniqueness and multiplicity  
But ownership was systematically taken down by the new King's and Queen's greedy hands  
They conscripted our property, media and land into artificial commercial municipalities

No freedom, no liberty, no property, no life .....no private or public use of OUR land  
Only dirty revenue to pay the despicable debt of the municipal CON  
Paid for by the extorted, untouchable wages and property of the Natural Born working hands  
And generations of blood and tears continue to spill upon our own land

British municipalities go against all founding and fundamental laws  
The Natural Born Sons and Daughters were conned  
By the parasitic Associations, Mayors, Councils, Benches and Bankers  
In and around these towns

The Second American Revolution & militia silently sprouted up in these communities  
They organized against these green and yellow municipality towns  
Urban and rural property owners rose up and fought against over two centuries of feudal takings  
Another American Revolution brought the British American monarchy down

One third of the population sold out to the kings and queens municipalities  
One third waffled to wherever there was greed  
One third to one half said they wanted to be free  
Only two thirds of one percent actually marched against the King's municipalities
