Why do I call the cover up of Obama aka Soetoro aka and all his other aliases a crisis? Because the longer federal judges play fast and loose with the law and other law enforcement (DOJ) continue to ignore a true constitutional legal challenge, the more extensive the damage to this country will be. As I have said in recent columns, production of a long form vault birth certificate will "not put to rest this issue once and for all." If the document were genuine and showed Obama aka Soetoro and so forth, were born in Kenya, it would only prove what so many of us already know: Obama aka Soetoro is a classic narcissist and pathological liar. However, if a genuine long form birth certificate shows he was born in Hawaii, it still does not get around constitutional restrictions even though his mother was a U.S. citizen.

The issue of his citizenship status is a legal one, not a

political one. This is what Obama's supporters willfully continue to ignore. They gleefully display their industrial strength stupidity by attacking Americans who are asking the law be upheld because no one, not even a president (or usurper president) is above the law. Here are a few examples of individuals who care nothing for our constitution. I can tell you by reading their carefully crafted lies and distortions that they've never spent five minutes reading any legal analysis or historical writings about the issue of 'natural born at birth.'

Editorial: [Facts can't stop Obama rumors](#)  
 The MetroWest Daily News  
 April 27, 2009

"But a crowd becoming known as "birthers" continues to pump up the story, and some people are eager to believe.

"This non-controversy was cleared up long ago, for those capable of using the Internet to discover facts as opposed to spreading lies. We recommend [www.snopes.com](#), which for years has been investigating and reporting on Internet rumors, both true and false. Obama was born in Honolulu on Aug. 4, 1961, according to the birth certificate posted on Obama's campaign Web site last summer."

The unnamed author of this bilge is not only factually challenged, but attempts to present facts clearly not in evidence. I can tell you he/she knows nothing about Article 2, Section 1 of the U.S. Constitution or why the framers grand fathered in this clause. If you take the time to [read this complete posting](#), you will see the alleged birth certificate is a forgery and a poor one at that.

[Culture of conspiracy: the Birthers](#)

"Out of the gaze of the mainstream and even the conservative media is a flourishing culture of advocates, theorists and lawyers, all devoted to proving that Barack Obama isn't eligible to be president of the United States...

"A quick reality check, before we dive in: The

challenges to Obama's eligibility have no grounding in evidence. Courts across the country have summarily rejected the movement's theory — that Obama can't be a citizen because his father wasn't — as a misreading of U.S. law; and Hawaii officials, along with contemporary birth announcements, affirm that Obama was in fact born in Honolulu in 1961.

"But belief in obscure, discredited theories is a constant in a country with a history of partisan division — a country in which, a recent survey showed, 34 percent of the public believes in UFOs and 24 percent believes in witches..."

No court in the land has heard one single case based on merit. That is a fact, not a conspiracy theory. The statement about Obama's father and "misreading of U.S. law" is laughable and pathetic. Tying in UFO's and witches is deliberate and transparent.

David Horowitz, much admired by conservatives, makes an astonishing and completely anti American statement on the issue of the law:

[Obama Derangement Syndrome](#)

"The continuing efforts of a fringe group of conservatives to deny Obama his victory and to lay the basis for the claim that he is not a legitimate president are embarrassing and destructive...What difference does it make to the future of this country whether Obama was born on U.S. soil?"

"Advocates of this destructive campaign will argue that the constitutional principle regarding the qualifications for president trumps all others. But how viable will our Constitution be if five Supreme Court justices should decide to void 64 million ballots?"

What difference does it make whether Obama was "born on U.S. soil?" That's not the issue and it's a shame someone like Horowitz shoots off the pie hole in his face without even knowing the correct legal argument. How viable would it be if the U.S. Supreme Court upheld the supreme law of the land? Shame on you, Mr. Horowitz, for your cavalier attitude about the law.

It is Obama aka Soetoro who has defrauded an alleged 64 million voters. Who is this "fringe group" Horowitz speaks of demanding the supreme law of the land be enforced? Why, some of the very people who protect Horowitz' backside:

For the better good and National Security of "We the People of the United States" and for Absolute Command of the Military Forces of the United States, I whole heartedly support the efforts of Dr. Orly Taitz, ESQ for taking legal action to determine whether or not Barack Hussein Obama, aka Barry Soetoro, Citizen of Indonesia and possibly citizen of Kenya, is eligible to become President of the United States and Commander in Chief of the United States Armed Forces.

Included in the "fringe group" are elected members of state legislatures who have taken considerable flack because they believe no one is above the law:

Mr. Eric Swafford, in his capacity of the State representative from the State of Tennessee; Mr. Timothy Jones, ESQ, in his capacity of a State Representative from the state of Missouri; Mr. Timothy Comerford, in his capacity of a State Representative from the State of New Hampshire; Mr. Frank Niceley in his capacity of the state representative from the state of Tennessee; Ms. Cynthia Davis, in her capacity of a State representative from the State of Missouri; Mr. Larry Rappaport in his capacity of a State Representative from the State of New Hampshire; Mr. Stacey Campfield in his capacity of a State representative from the state of Tennessee; Mr. Casey Guernsey in his capacity of a State Representative from the state of Missouri; Mr. Glen Casada, in his capacity of a State Representative from the state of Tennessee

Included in the "fringe group" are those who, in good faith, were either candidates or electors and feel they have been cheated and victims of fraud:

Ambassador Dr. Alan Keyes, in his capacity of a Presidential candidate on the Ballot in 2008 Presidential Election. Ms. Gail Lightfoot, in her capacity of a vice presidential candidate for Ron Paul on the Ballot in CA in the presidential election. Mr. Robert Cusanelli, in his capacity as an Elector of the 2008 electoral college from the state of Alabama.

None of the previously mentioned complainers mentions some of the cases - which Americans have every right to bring forward -- [were tampered with by known persons at the U.S. Supreme Court](#). None of the above report **that every court has refused to hear these cases based on merit and facts**. Instead, each and every one of them have been dismissed because of "standing" (which these days can mean anything) or because a judge read on the Internet there was no merit! Dr. Orly Taitz has fully documented all the manipulating that has gone at our highest court. None of them mention the outrageous problems that went on with Leo Donofrio's case. The list is endless and those responsible should be hauled in front of the grand jury because no one is above the law.

It doesn't seem to bother any of of them that Obama aka Soetoro has spent approximately \$940,000 to keep his school records and the long form vault birth certificate under seal. It doesn't seem to bother them that politically corrupt federal judges would make rulings based on "twittering." How shameful. Dirty journalism [has printed easily proven lies](#) about Dr. Orly Taitz, i.e., [she hasn't been admitted to practice in front of the Supreme Court](#) (proof [here](#) and [here is her certificate](#)), she has false teeth and more malicious slander. Orly has provided all the official documentation (except her real teeth) to refute these lies. Her paypal account has been hacked and donations stolen; Orly has demanded the FBI investigate as well as the hacking of her web sites. This seeker of the truth is a dentist with a thriving practice in Southern California, a licensed attorney and real estate agent; she speaks five languages, is a loving mother and wife.

Many sincere Americans are struggling to understand the issue of 'natural born at birth.' I have taken the time to pull all of the legal analysis and historical

writings on this issue published by Leo Donofrio (an attorney who brought forth one of the cases the Supreme Court refused to hear) into one place. In this link is also a few items from Dr. Taitz and Mario Apuzzo, Esq. This way, you can read all the legal arguments in one place in sequence. Research takes time. If you don't have the time, you don't want the truth. I believe you will see this issue is not a "frivolous" one and that Obama aka Soetoro does NOT meet constitutional eligibility. He has known it all along and so have his co conspirators in covering up this massive fraud.

[The complete file](#)

Until this legal issue is resolved, Obama aka Soetoro will continue signing laws that will eventually lead to a torrent of lawsuits that will flood the courts and continue to divide this country. I am printing out a copy of this column and sending it to several U.S. Attorney's as well as individuals in the FBI (Not Mueller). We the people will not be silenced on this issue by industrial strength stupidity pumped out by politically motivated individuals in the media or the David Horowitz's who have so little regard for the U.S. Constitution. Every American should continue demanding U.S. Attorney Jeffrey Taylor convene a Quo Warranto. Every American regardless of political party affiliation should continue demanding the various U.S. Attorney's investigate Obama aka Soetoro for fraud regarding the data bases put together by Dr. Taitz. Only millions of letters or faxes will put on enough heat to bring this to a court of law.
