What King County Municipal Corporation Planners Intentionally Left Out of This Chart

Councilman Reagan Dunn is the reason I left the "conservative party" as as I gradually awoken from my collective system induced stupor.

Here is how HoSeaMin City Times spun this

King County 'wall against sprawl'

The pending purchase of development rights on the White River Forest would bring county-protected forestland to 200,000 acres. Map does not show land owned by the county.

Public Municipal Corporations and Private Corporations - A Catalytic Combo Punch to Property Rights

Government owned natural resources were meant to provide revenue and honest jobs to the individual state Citizens and for a limited infrastructure. This simple basic righteous concept means government does not acquire natural resources by taking wages especially for environmental expansion fantasies. Property taxes are clearly unconstitutional as they are not apportioned and they clearly are forbidden by the higher laws of our land all together, i.e. you cannot tax the sovereign state Citizens property or wages at all. Laws of Nature and Natures God (LONANG), the Declaration of Independence and the spirit and success of the first American Revolution are very clear about this.

King County Municipal Corporation of WA Inc. is the 14th largest county in the nation of 3,141 counties and in a state where the federal government owns at least 33% of the state land while King County Municipal Corporation wants more land at a cost no property owner can afford just so Hancock Timber cannot build on it. All while most every county municipal corporation around Puget Sound rat packs its subdivisions for profit and power, i.e. wall to wall municipal sprawl.

I count 113 properties on King County Municipal Corporation's Foreclosure list. You can add to this heartless and needless takings thousands more if not tens of thousands of hardship cases this public corporation is creating by continually escalating these type of needless and debased land takings on the back of the property owners. You will see below more takings by this greedy municipal below who has shut down homes and small farm business because they do not meet some code no home owner ever agreed to let alone can afford. The county says they have set aside funds to buy more land with one hand while the other is throwing poor families into bankruptcy and into the street. I have one old friend and ex neighbor who recently moved to Idaho because the property taxes in King County were one third his pension. Another friend is paying \$18,000 a year for the pleasure to live in his home. We are also leaving.

Taking of land via "development rights" using property taxes has nothing to do with "sprawl" as the global to local state municipal monarchy has defined it, i.e. the occupation of the natural born sovereign and free state Citizens upon their own land. This labeling with intent to take by defining living on your own land is equivalent to persecuting witches and will be realized so in a few years as a critical mass of Americans wake up to this green wet dreams. This "wall of STRAW" is a global to local front line being staked out in every state and larger city and county municipal corporation. These stakes come in many colors and many pretty labels, e.g. smart

5/7/2013

growth, growth management, sustainable development, conservation easement, wilderness, wetlands, critical areas, sensitive areas, endangered species, alternative energy, ad nauseum.

The Seattle Times article above sanctions King County Municipal Corporation putting a gun to the heads of its Citizens and property owners to extort some \$33 million for 421,000 acres of land for a "wall against sprawl" all while most of us struggle to stay alive, find a job, keep food on the table and keep our homes or just give up and get out. What the Seattle Times is really saying is any growth of the municipal corporation is good growth because growth of government supports their declining readership by forcing everyone into the city while providing the illusion of more public forest where we have so much already.

Another King County Home Owner Who Has Enough

Here is another example of the criminality of King Collectivist County Municipal Corporation, WA State INC. This poor home owner is about 5 minutes from me. While these political and legal hacks in the county steal our wages for their wet dreams for more land, they are systematically plundering the local property owners off their land and homes and businesses. People like Reagan Dunn and his council cronies can glad hand buying up 421,000 acres for \$33 million while they put a gun to the head of this home owner and millions of others for the want of a \$20,000 new septic and drain field or whatever the current code is they make up for more revenue. Five minutes from this poor home owner this same King County Monopoly spent \$5 million to reroute the mouth of a tiny creek called Boise Creek while shutting down a farm family near me for offering good clean farm entertainment to families. All "elected" municipal corporation servants need to be placed in prison for the criminally insane and then their monopolies need to be broken up with the few useful functions reorganized into coops. All functions funded with force upon property owners must be stopped immediately, then you would see this madness quickly end.

Planning Your Life Away - Stepford Town USA

The real sprawl is the growing nodes of cancer connecting up municipal and planning associations all over America, i.e. local city, county, state, national to global. Public planners and their cohorts councils have swallowed a poison which makes them believe they have magic powers and insight regarding our future. They believe they can plan every facet of our life, property, what you may consider right and wrong, the density of the community you live in or near, the appropriate designation of any land, water and air around you, what type of land is more appropriate for you to go onto or stay off of, the percentage of open space and agriculture space you may live on, crops you may grow or not, when you can burn your slash, the size of your toilet, the type of light bulb you can use as well as the appropriate license, permit and fees you will pay for all of the above while they trespass all over your property and have no professional education in the area of their taking.

All these takings are being done without a vote or true understanding of the taking by the poor home owners. Most if not all of the

5/7/2013

state Citizens will not have a clue what is really going on even if they were told because they at the most listen only to mainstream media. These are back room deals between the benefiting municipal corporations and the non government corporations like Hancock Timber.

Someone else always has a better use of your property than you do especially when municipal corporations can TAX AND TAKE See how much land the federal government holds in the western states above graph and then add land taken by the states and their "constitutional" children, i.e. counties and city municipal corporations. You have to ask what kind of thinking justifies acquiring more government land. State Citizens are sovereign and free and cannot be taken for anything for any reason by our American fundamental laws. There is no reason to use force upon the individual property owners and business owners when America is so rich and bountiful in resources and corporate revenue.

Here is the dirty little secret the municipal and the corporations never mention. Constitutions are corporate bylaws written by the corporations and their lieyers and their banksters which gave birth to their mutant municipal children which are the true bastards of America and the offspring of a long lineage of British magalomania dictatorship at any cost which has no place in a free society. This is the unspoken death knell to American freedom and liberty. Disembowel the municipal monarchies and transform them into public coops based on free choice and American spirit and prosperity will soar once again. Those who are living on your blood will scream bloody murder until they are given the free choice to join a free market society or not.

Property owners who are undergoing one of the most barbaric waves of property taking in history via legal fiction profiteering like usury, government encroachment, tax taking, regulatory taking and debasement of currency inflationary taking. Government land is largely taken out of production and becomes a burden upon the tax payers so these environmental extremists can brag how many acres of development rights they have stolen and placed on the backs of the unsuspecting surrounding property owners and tax payers. Free choice would eliminate all of this gluttony.

Did you know that the public corporations have no more rightful authority over you than the private corporations? If they did, we would still be living under feudal monarchy law, which we are. All for no good reason other than the inflated egos of the little people who sit on these public monopoly councils. How did this happen? They simply bestowed themselves this power and authority over the centuries and the apathic and trusting Citizens rolled over.

One third of the state Citizens trust the public sector more than the private sector, one third are profiting from this delusion and one third to one half trust the private sector more than the public sector. The truth is that a free and sovereign state Citizen should never trust either the private or public sector because they will both steal you blind and you will not even know what happen. Collusion is a specialty of politicians and lieyers and non government organizations, e.g. King County Municipal Corporation and Hancock Timber. Shame on Hancock Timber too for creating a market of the blood, sweat and tears and wages of property owners.

Someone else always has a better use of your private property than you do. especially if they can put a gun to your head and force you to pay for it. A home and property just is not enough as a sanctuary alone for the family. It has to be put on the public auction block and offered up to the highest bidder like some slave. This is the mentality of the fascist system we live in. Then professional political lieyers send out an email bragging about the theft.

American natural born state Citizens have been overrun by a perverted mind game by lieyers, politicians and their benefiting NGO (non government organizations) all of which are profiting from the taking of our land in back room deals. Acquiring assets with the use of force, usury and collusion against the will of the sovereign and free individual state Citizen goes against the fundamental laws of our land, LONANG, the Declaration of Independence and the spirit and success of the first American Revolution. When are the Citizens going to wake up.

We Need a Revolution of Awakening

We need a revolution of awakening to understand we do not need to put up with this dispicable state created municipal business model making stealing legal. Wages and private property cannot be taxed by the fundamental or the founding laws. What the political parties don't tell you is we can have it all within reason. We do not have to steal from the blood, sweat and tears of our own

5/7/2013

property and wages to have the basic infrastructure of a free and limited republic. We do not have to create political and legal dialectics and fight over the liberal vs. conservative pros and cons. These are petty distractions created by the politicians and liewyers and benefitting NGO's for their profit and gain. In a true and honest free limited Republic the rightful duty to pay a uniform limited tax is upon the corporations not the sovereign and free state Citizens. The sovereign citizens created a free limited republic to free themselves from slavery of the past. The power to tax the state natural born is the act of enslaving. The political and legal hacks and the NGO's do not want to hear this simple truth. They want the Citizens to pay for it all while they take it all and pay little to nothing. What is baffling to me is the fact that corporations do not pay taxes, they are transfer agents and pass most of their taxing on in the pricing of their goods and services. The Citizens and foreigners pay all taxes when they purchase the goods and service by free choice. It is that simple. You cannot tax the sovereign state Citizen at all, let alone multiple times.

America is blessed and rich in spirit and resources if left free. There is no reason to take wages or property from any state sovereign and free Citizen by force when we have more than enough to fund a limited free true and honest republic. America must reconstitute its public sector by ripping out the underlying causes of our problems, i.e. the municipal corporations and driving a stake in the heart of the vampires who are constantly sucking the blood, sweat and tears of the poor homeowners and business owners.

Once again in a true and honest limited free republic, the public sector has no more authority or power over the natural born state sovereign Citizen than the private sector. Now the blush is off the rose. The public land belongs to the each person to rightfully use to homestead and raise food as needed. There is more than enough free public land for everyone to use especially in the NW states. When people fall on hard times the public lands are there to provide food and shelter in a true and honest free limited republic not to be locked up by environmental extremism. Sick municipal monarchies buy up more land while they tax the sovereign Citizen into poverty ultimately throwing them into the street and then deny them recourse to survive via access to their own public land for homesteading.

Public sector businesses are no different than the private sector in a true and honest free limited republic. They are both held to the same high standards of the fundamental laws of the land in a true and honest free limited republic. Both type of corporations are bound by the principals spelled out in the Laws of Nature and Natures God, the American Declaration of Independence and the spirit and intent of the first American Revolution. Neither one can use force, deception, coercion or become a monopoly eliminating free market competition. Both types of businesses may grow from honest trade and profit NOT tax and take tyranny upon the sovereign and free state Citizens. Rightful Americans are the new kings and queens of the land. The public sector is a rightful free choice coop NOT a maniacal municipal monopoly expanding itself on the backs of struggling property owners and wage earners.

The building and sharing of community infrastructure by free choice goes back further than any man made constitutional bylaws. Crafty liewyers and politicians quickly changed and left out the fundamental laws of the land so they could bestow their careers and pocket books by stealing other property owners labor and wages to grow their fiefdoms.

Any business, private or public which is allowed to grow on the blood, sweat and tears of its property owners while maintaining itself as a monopoly especially using force is a formula for fascism which is exactly what we have in the network of some 3, 141 counties and thousands more of city municipal corporations.

Replace this tyranny with individual free choice and reconstitute these elite monarchies into modern coops where we all share by free choice and the municipal dynasties will collapse.

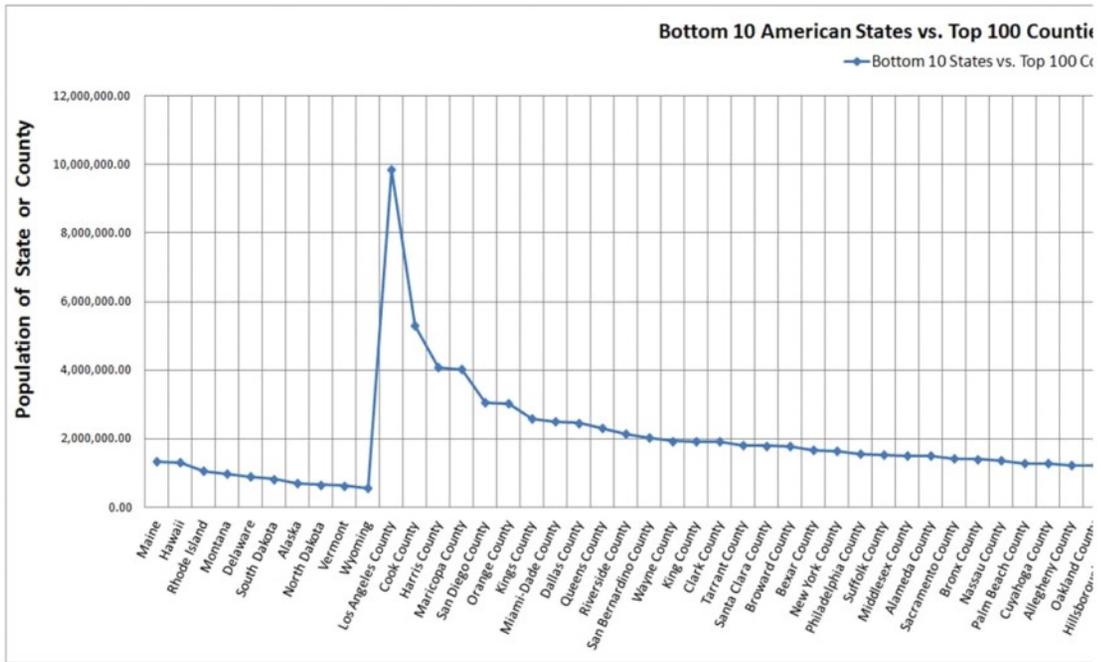

Hundreds of City and County Municipal Corporations Increasingly Larger Than Many States

I have attached an Excel Spread Sheet (Office 2007) I did a few years ago to confirm this new merging shadow government rapidly growing in America. Check this out and you will see more proof of the rise to power of the vast network municipal monopolies. In short there are 112 counties greater than the smallest state and hundreds more equal to or slightly less than the smaller states. There are 31 cities larger than as many as 39 states. These municipal are run by a handful of people who believe they have divine rights to all private and public property.

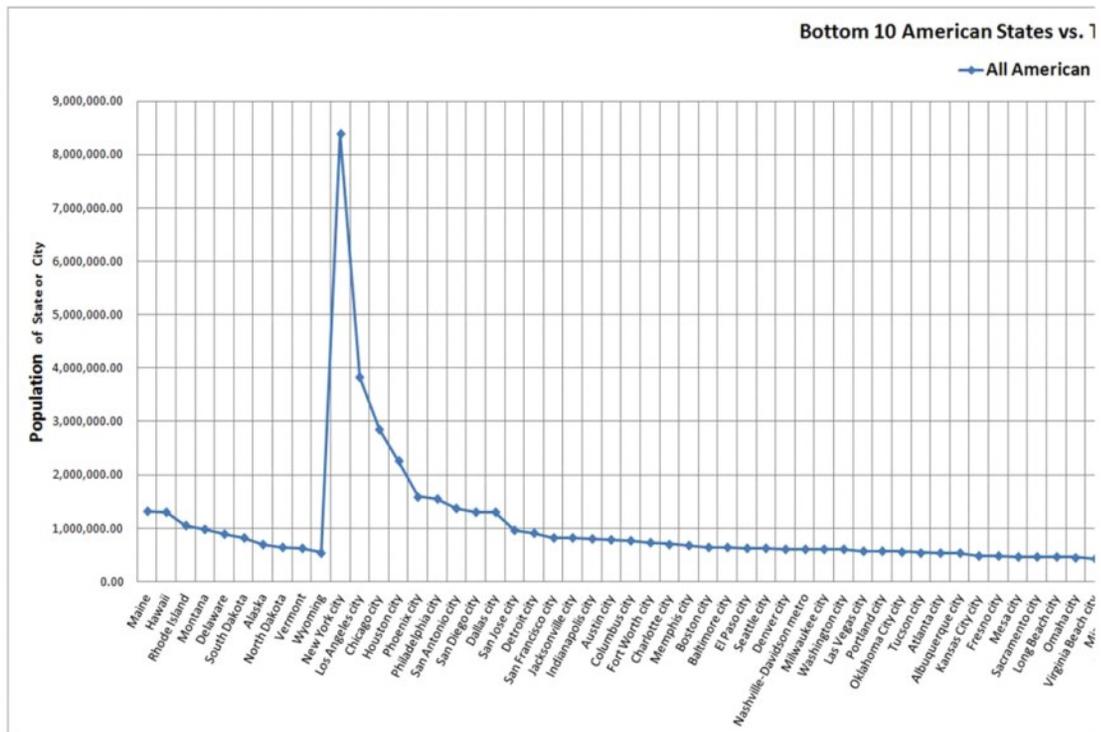

What is going on? The municipal dynasty is quickly devouring surrounding land, herding the masses into their Venus fly trap, parking out the rural areas and entering into national and international commercial, financial, entertainment, transportation, gambling, liquor deals all without any return on investment or internal rate of return. Why would they do that? Because the political parties, the Bar association, the public unions, the banksters and the benefiting NGO's are making a killing, killing the property owners faster than they can get out of Dodge. All while "Dodge" is replicating itself so fast there are no safe havens to run too.

i

5/7/2013

This chart is extracted from the above attached Excel series and shows how the top 100 counties compare to the bottom 10 states. This should tell you the whole story at a glance. Power corrupts absolutely and absolute power corrupts absolutely. This is what the globalist are going for, i.e. through the back door via the network of municipal corporations who are the equivalent of rogue governments operated by a few "elected" party hacks which are colluding with their favorite NGO's to expand their empires at the expense of all the property owners.

This chart is extracted from the above Excel series and shows how the top 100 cities compare to the bottom 10 states. There are hundreds more that are at and less than the bottom 10 states. This empire of municipal monopolies and monarchies is built on the blood, sweat and literal tears of millions of property owners like myself. This is not necessary and horribly regressive. This is arsenic and lace wrapped up in a feudal opiate which drugs those within its web to death. The spider gets fatter and the victims are strangled to death in its web.

Even The Boeing Company got sick of dealing with this mentality and out-sourced itself out of the USA Inc. and WA Inc. over decades along with every other corporation. Corporations with international customers are especially adept at picking up their jobs and leaving. Municipal Monopoly Monarchy mentality is forcing the private sector to cut basic future benefits of its employees because it cannot pay the government many times over as well as its employees and its shareholders at the same time and grow. The sovereign state Citizens are not so adept at pulling their roots and leaving. However, I see more of my retired friends also leaving and going to Ecuador and Panama or other location in the states where basic living costs and taxes are relatively lower.

Changing Legislation vs. Severely Punishing Those Perverting the Game Board Rules

Changing "legislation" is useless as long as the game board is not level and the higher fundamental laws of the land are not honored. If you are watching a game of chess and one player has mounted the board and another is ignoring the fundamental rules of the game and you are sending out pleas to all chess lovers to change the rules, does this make any sense? We cannot change America by creating endless "legislation" when the fundamental laws of the land are ignored. The players perverting the game board rules to expand their fiefdoms must be severely dealt with to send a message to all other players. Increasing the takings and the rules which law it while allowing this perversion of ignoring the fundamental laws of the land to continue, only encourages more crooks to enter the game and do what Reagan Dunn has done, i.e. cheat more.

In an enlighten society, government gradually declines as the people awaken and ultimately the state Citizen throws off this empire building bcause the people become self governing through free choice. Without free choice, we are slaves

The level of oppression reflected in the charts above is beyond the barbaric era of Europe and Asia. There are 97 men and their families controlling the wealth in the world. They control some 100 countries via the banking system and elite power groups. The real name for "government" is a global to local Mafia. They prefer to have everyone locked up in political subdivisions so the sheeple can be herded and prodded at the will of the state. This is a mind game at a global level to control the masses by instilling waves of false fear and unnecessary takings they create which is reflected in a boom bust society. Boom bust economies are the symptom of

the actions of exactly what these corrupt county municipal corporations are doing.

We must fight back, we are a nation formed on rebellion. Even if you are not in this county, Reply All to King County and tell them what you think.

Municipalities are mutated children of a Constitutional Republic

City and county municipal corporations were created by the state constitutions which fall under the U.S. Constitution which fall under the Articles of Confederation, LONANG, the Declaration of Independence and the spirit and success of the first American Revolution. The Articles of Confederation give no power of taxation to the states. Corporations may be taxed yes, the natural born rightful state Citizen absolutely not. They cannot tax, regulate, charge usury or act as a proxy to buy anything including any form of land for a rightful state Citizen otherwise the sovereign and free state Citizen would be a slave. It is that simple. It is common sense back up by LONANG, clear warnings to King George II in the American Declaration of Independence and the action, spirit and success of the first American Revolution.

- A handful on a council or a few hundred so called "representatives" or "senators" or civic "administrators" cannot overlay the fundamental charters and actions just because they have concotted a "majority" vote for a better use of your property, wages and labor. There are no exceptions to the what is clearly the intent of the Laws of Nature and Natures God, the warnings written to King George III and the resulting action and success of the first American Revolution.
- If a few politicians and lawyers with the help of their local NGO's could grow their fiefdoms with a simple majority vote, the fiefdoms would grow and the Citizens would loose everything and they have.

4. Scan this article to familiarize yourself with the property taking euphemism "Conservation Futures". This is another expression invented by the lieyers and politicians to steal private property including labor from small time wage earners via property taxes and give to large non government multi-million dollar revenue corporations so the municipal monarchy can expand their fiefdom because it suits their greed and egos. This is how these corrupt politicians stay in power, i.e. from political donations and silent favors. Both King County Municipal Corporation and Hancock Timber add this purchase to their Net Worth Statements to make their bond ratings and stock (Hancock) look better. All of this so they can float more debt to make their Ponzi scam look better to the unaware. http://www.historylink.org/index.cfm?DisplayPage=output.cfm&file_id=10057

Subject: Agreement to permanently protect the 43,000 acres of the White River Forest (http://your.kingcounty.gov/mkcc/members/dunn/enews/13_March3.html)

Having trouble reading this email? [View it in your web browser.](#)

5/7/2013

Dear Neighbor:

Yesterday I was proud to help announce an agreement to permanently protect the 43,000 acres of the White River Forest from development. This site is east of Enumclaw and roughly twice the size of Bellevue.

The land is owned and operated by the Hancock Timber Resource Group, and is located along scenic Highway 410, which takes motorists to Crystal Mountain ski resort in the winter and over Chinook pass in the summer.

Click to enlarge map.

The agreement, which must still be approved by the Council, would purchase the development rights to the property from Hancock Timber using existing funding sources such as the Conservation Futures Fund.

The White River Forest is a critical component to a large north-south wildlife habitat link that connects Mount Rainier National Park in the south to the upper Green and Cedar River watersheds in the north. It is also an important east-west wildlife corridor.

This land protection deal ensures that the White River Forest remains a working forest that encompasses all the economic and conservation principles that are important to thriving forest lands. The sale preserves both local jobs and areas where county residents currently enjoy various outdoor recreation activities.

King County has consistently been a leader in protecting open space and working forests. Whether it is this preservation of nearly 43,000 acres from Hancock Timber in the White River Forest or the 3,500 acres along the Raging River, King County and the County Council are demonstrating our priorities are in the right place.

For more information watch the [press conference](#) from yesterday or read more coverage from the [Seattle Times](#).

Please feel to e-mail me at reagan.dunn@kingcounty.gov or call my office at (206) 296-1009 if you have any questions regarding this or any other matter involving county government.

Best regards,

Reagan Dunn
King County Councilmember, District 9

Special Announcement:

Join us for an Upcoming Town Hall Meeting in Fairwood

Please Join Councilmember Reagan Dunn and King County Sheriff John Urquhart for a town hall meeting. This event provides the opportunity for you to discuss County services and recent events in Fairwood and to ask questions of your elected officials and King County department representatives.

When: Thursday, April 4, 2013 at 7 p.m.

Where: Fairwood Elementary School
16600 148th Ave SE
Renton, WA 98058
