- This presentation has been designed for “at-a-glance” viewing.
- I invite you to drop your belief systems temporarily while you journey down the rabbit hole with me and then make up your own mind.

Summary:

1. This presentation proves the fraud of direct tax taking on private property, wages and pensions which I have investigated since 2004. I am not the only one so reporting.
2. You will find in this research what entities have transferred their rightful tax responsibility onto the sovereign state Citizens long ago and to whom the rightful tax taking must go back.
3. You will discover that direct tax taking:
 - a. is destructive and regressive, contrary of what you may believe or have been taught,
 - b. is not necessary in a free society and is criminal in nature,
 - c. can be replaced by alternative non direct and non sales tax taking legitimately,
 - d. quickly becomes a weapon designed to destroy targeted individuals and groups,
 - e. the rich and poor have the system figured out, i.e. the rich do not care and the growing number of poor do not have to pay, leaving shrinking middle class AND
 - f. yes, there are legitimate alternatives to fund the infrastructure in this research report.
4. Eliminate direct tax taking and you cut one arm of the global to local tentacle exploiting our private and public property and traditions.
 - a. Learn the connection between local tax taking and international banking cartels expanding their empires replacing freedom with debt, then debt to slavery.
