The Fed Discount rate is now ZERO AS IN NO COST TO US. THIS IS AS IT ALWAYS SHOULD BE. The Ponzi cartels has effectively brain washed the world to believe that waves of illegitimate interest rates necessitate waves of illegitimate taxes to pay for this. Nothing could be further from the truth.

The concept of interest especially upon the natural born free and sovereign state CITIZENS considered a crime along with money changing is and central banking criminal racketeering crime. This taking is as deadly as the

current illegitimate massive taking of taxes upon our private property. The government has more than enough money, it does not need to charge or pay interest let alone collect taxes upon the sovereign states Citizens.

As stress cracks continue to creep along the infrastructure of this world wide Ponzi scheme, you will see the takings more clearly and more frequently. The prophetic few who have been foretelling of these times in our past and present history will not be forgotten.

Such is the nature of a Ponzi scam. The "Creatures From Jekyll Island" knew well how to package their poison to make it a most attractive for the uninformed to swallow. The Federalist knew well how to stampede the few urban large city folk into orchestrating a central government constitution vs. the original intended amending of the Articles of Confederation for a 5% import custom duty for control of trade and commerce only.

We all must put this puzzle of taking together quickly in our own mind to understand for ourselves what happen and thereby understand how the second American revolution is going to unfold. Have no doubt about this. It is happening now and we are all part of it. Even the most liberal of folks in the City of Seattle clearly told their oppressive city government they could not have their guns. When the City told them, it was the "City of Seattle" Parks and buildings, the natural born, sovereign and free state Citizens of the City of Seattle told them, NO, IT IS OUR PARKS AND OUR BUILDINGS AND WE WANT TO CARRY OUR OWN PROTECTION. When the cities in America awaken to their true God given birth rights, we will all be free like we have never been free before.

All of the historical takings by the elite central brokers, bankers and big central governments at national levels as well as the state, county and city governments, are coming home to roast upon our private and public property including all our wages and our traditional way of life. This includes the collateralizing of our natural resources. What the dark side is accomplishing most successfully for over two centuries, is to break are will, our free choice, our spirit and our sovereignty. By so doing, they control our every movement to their gain.

Government has become a rabid mad dog taking whatever it wishes by creating unnatural, unconstitutional and ungodly laws, regulations, legislation, judication and administration upon the natural born. The government and the nongovernment types promoting this kidnapping of the Great Spirit of America

should be tried in Grand Juries and Trial (Petit) Juries comprised of those natural born who have been taken. The era of the political corruption of the judicial system must come to an end before all of the natural born are in prison and the political and banking criminals run more free than are now.

The Bill of Rights is the Supreme Law of the land, NOT the Constitution. This is how it should have been written but the 35 liars blocked the Bill of Rights from preempting the first signing of the Constitution and that was also illegitimate because they never had a unanimous approval of the several states. Are you getting the picture yet?

- "It is claimed that Madison wanted to incorporate the Bill of Rights into the text of the Constitution but the House decided to propose them as supplementary. They could be neither. The Bill of rights had to be ratified as a separate document because it directly contradicts many provisions of the Constitution. How then could these two contradictory documents be as one?
- The judicial power therefore is vested in a jury of people that judges both the law and fact. Article 7 of the Bill of rights states that in civil...the right of trial by jury shall be preserved and no fact tried by a jury shall be otherwise reexamined in any court of the United States.
- The people on a jury are sovereign"
- Article 6 of the Bill of Rights, "In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial by an impartial jury..."
- Article III section 2 clause 3 of the Constitution states: "The trial of all crimes...shall be by jury.."
- Ninety percent of all criminal cases are plea bargained without a jury being present .
- Plea bargaining therefore is in violation of both the Bill of Rights and the Constitution.
- The entire plea bargaining aberration is run by lawyers in their various unconstitutional capacities as legislators, U.S. Attorneys, Attorneys General, judges and attorneys for the defense. The lawyers enact the laws, the Attorney General and U.S. Attorneys enforce the laws and the judges interpret the law. this all is done in violation of the separation of powers"
- Georgia is one of three states whose constitutions still mandate jury nullification"

There are no laws but the Laws of Nature and Nature's God
above the natural born ^{state} Citizens

- We are sovereign and free.
- We are the law by virtue of the trial juries and grand juries.
- The natural born have been turned into slaves and sheeple
 - by the leeches living off our blood, sweat and private property

Wake up Others before it is too late

One Man Awake

*One man awake, Awakens another,
The second awakens, His next door brother.*

*The three awake can rouse a town,
By turning the whole place upside down.*

*The many awake, Can raise such a fuss,
It finally awakens, The rest of us.*

One man up, With dawn in his eyes

Surely then...Multiplies.

Economy & Financial Fraud:

Art Bell was joined by financial advisor [Catherine Austin Fitts](#) for a discussion on fraud and the economy. Financial fraud is tied into the black budget-- "the local narcotics trade is financing Tony Soprano, who's financing James Bond," she quipped. Offering her analysis of the recent fraud case involving [Bernie Madoff](#) siphoning off \$50 billion, she suggested that he couldn't have done it without some kind of institutional support.

The shakeout from the bubble economy is going to continue, Fitts warned, with the Dow possibly dropping as low as 4500 during 2009. Pension funds will take huge losses, and municipalities will be handed the bill, she continued. There are pockets of people around the country who are successfully adapting, said Fitts, who advocated investing in local banks and farmers, as well as precious metals.

First hour guest, trends analyst [Gerald Celente](#) added his dire economic outlook into the mix. By February, there'll be major bankruptcies in the retail sector, leading into a global depression, he said.

Quote of the Night:

"This economic stuff...This one is as frightening as anything Coast's ever talked about. It's as frightening as any ghost story, the best you've ever heard. It's as frightening, if not more so, than just about anything scary we've ever talked about on this program. And if it's not yet personally affected you, get ready because it's going to. Our economy is like a living thing, that's had a stroke. It's as though we've all had a stroke. Some of us don't know it yet...but eventually it's going to cause us at the very least, a grievous illness, grievous pain." --Art Bell

One result of the current financial crisis has been a dramatic reduction in prices (i.e. real estate, oil, stocks, etc.) The scenario for the yield on US Treasury bonds (as with the fed funds rate) has been no different. For some perspective, today's chart illustrates the significant decline of both the fed funds rate (gray line) and the 10-year Treasury bond yield (thick blue line). As concerns over a potentially deep recession have increased and fears over inflation diminished, investors have moved significantly towards safety resulting in a dramatic decline of the 10-year Treasury bond yield (especially over the past couple of months). As today's chart illustrates, the long-term 10-year Treasury bond is once again testing resistance of its 23-year downtrend.

There is no evidence either from ethnographic accounts or archaeological excavations to suggest that rates of accidental trauma or interpersonal violence declined substantially with the adoption of more civilized forms of political organization. In fact, some evidence from archaeological sites and from historical sources suggests the opposite.
