Subject: FW: [Capr-discussion] Support HB 2906 - Providing greater accountability for growth management hearings boards

This is a good idea. A review of bills sponsored and co-sponsored by this lady suggests she is a true conservative. I especially liked her bill allowing referenda on critical areas ordinances and another bill eliminating growth management hearings boards.

Lets put her on our "good" list.

Preston Drew

Introduced by Rep. Barbara Bailey on January 16, 2006, to require at least one member of the growth management hearing board to be a real property owner who is subject to critical area regulations. Members will be appointed by the governor with advice and consent of the senate.

- Referred to the House Local Government Committee on January 16, 2006.
