

Jack's Notes Regarding World Economic Forum

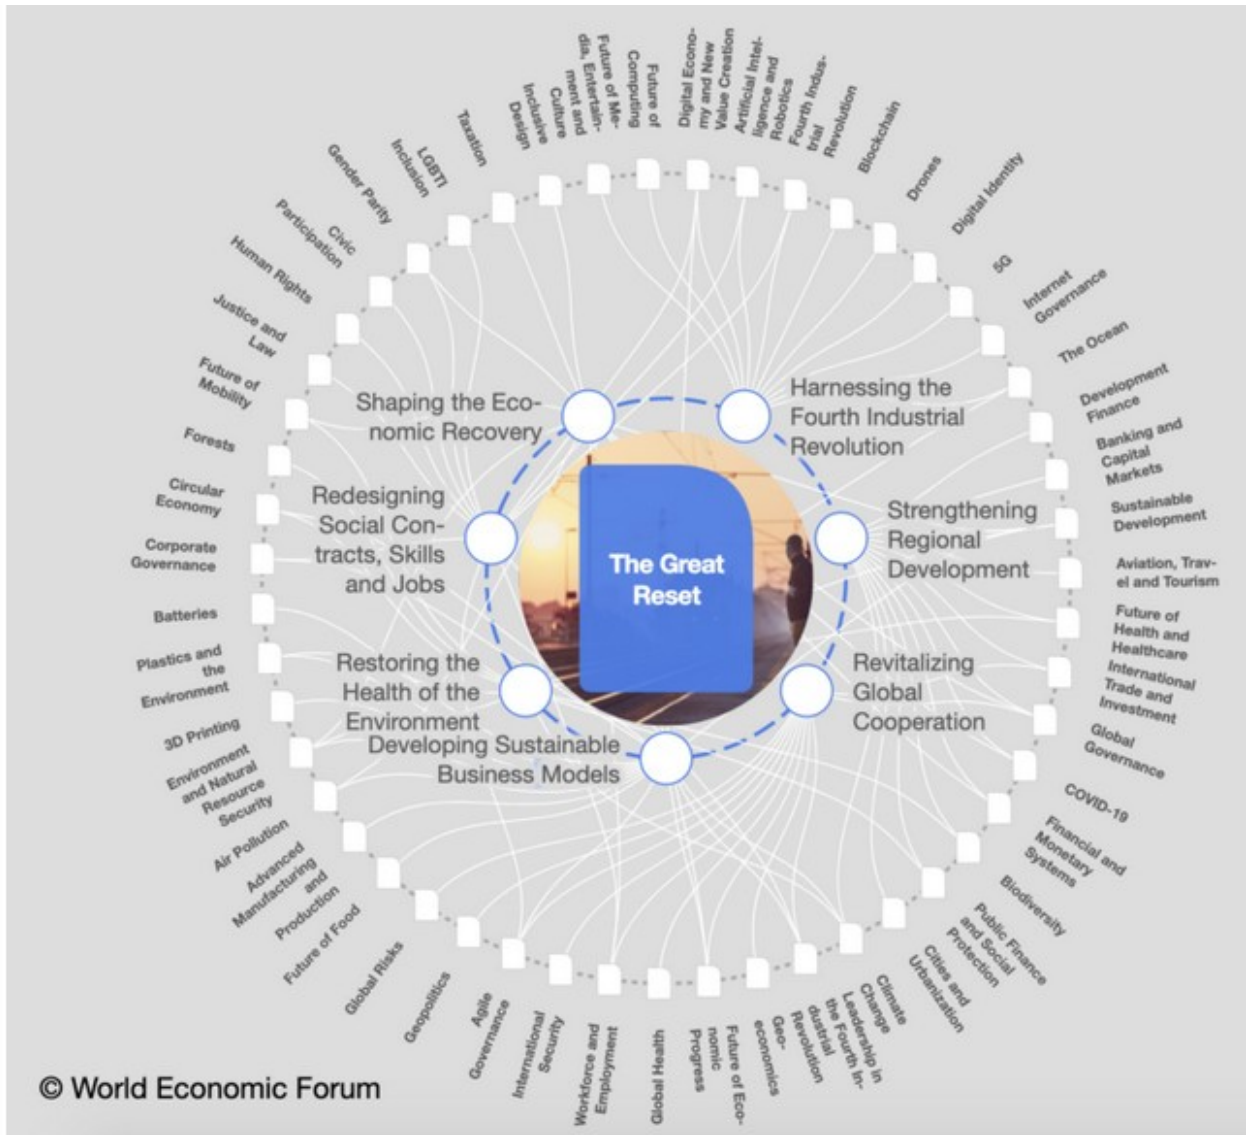

The World Economic Forum (WEF) was founded by Klaus Schwab who is one of the key figures orchestrating globalism through a Swiss based company called World Economic Forum. [He is pushing the Great Reset.](#)

[Here](#) is a great article on Klaus Schwab giving the big picture of his movement called Schwabism. WEF and Klaus Schwab and UN Secretary General have signed a partnership agreeing to digitize the Fourth Industrial Revolution.

[Here](#) is another good report exposing the dark side of WEF and Klaus Schwab and the so called Great Reset.

Look at all the key words around the Klaus diagram, e.g. Corporate Governance implying there should be more, Batteries implying there will be more whether it makes any engineering sense at all, Circular Economy implying not an independent economy by sovereign state Citizens, Future of Mobility implying that is going to be controlled, Gender Parity implying more race and gender divisiveness, Taxation implying more of vs. none, The Ocean implying political control, on and on the twisted takings spin.

Notice what is not on the Schwab wheel of your future, i.e. freedom and liberty, true and honest elections, hard value coin and currency, no inflation, no more debt, no more direct tax taking on labor, wages, pensions, IRA's, private property, stopping radical environmental extremism, stopping junk science. Check out Klaus Schwab web site - <https://www.weforum.org>. There are no names to contact, no locations, no face, just feel good global socialism, no accountability, no debate, no blogs, and "just learn how your organization can work in partnership with WEF". Even The Boeing Company was seduced into this global One World Order club.
