## ***Absolute Rights***

*"As regards right to interfere with contractual obligations of another, 'absolute rights' which individual may exercise without reference to motive are rights incident to ownership of property, rights growing out of contractual relations, and right to enter or refuse to enter contractual relations.*

*"By the 'absolute rights' of individuals is meant those which are in their primary and strictest sense, such as would belong to their persons merely in a state of nature, and which every man is entitled to enjoy, whether out of society or in it. The rights of personal security, of personal liberty, and private property do not depend upon the Constitution for their existence. They existed before the Constitution was made, or the government was organized. These are what are termed the 'absolute rights' of individuals, which belong to them independently of all government, and which all governments which derive their power from the consent of the governed were instituted to protect."*

**"The assumption that, by a certain paper, called the constitution of the United States --- a paper (I repeat and reiterate) which nobody ever signed, which but few persons ever read, and which the great body of the people never saw --- and also by some forty subsidiary papers, called State constitutions, which also nobody ever signed, which but few persons ever read, and which the great body of the people never saw --- all making a perfect system of the merest nothingness --- the assumption, I say, that, by these papers, the people have all consented to the abolition of justice itself, the highest moral law of the Universe; and that all their own natural, inherent, inalienable rights to the benefits of that law, shall be annulled; and that they themselves, and everything that is theirs, shall be given over into the irresponsible custody of some forty little cabals of blockheads and villains called lawmakers --- blockheads, who imagine themselves wiser than justice itself, and villains, who care nothing for either wisdom or justice, but only for the gratification of their own avarice and ambitions; and that these cabals shall be invested with the right to dispose of the property, liberty, and lives of all the rest of the people, at their pleasure or discretion;..."**

**This is not a "my political party is better than yours" statement we have all heard ad nauseum. This presentation outlines issues and solutions.**

We are reminded again by Tim Eyman's news below why there is little differences between political parties, i.e. politics is a manipulated religion. If you cannot move past this point, please go here next <http://www.businessinsider.com/republican-budget-hypocrisy-2011-7>.

There are 5 graphics embedded in this email which are also included in the Word 2007 presentation above and linked up in other formats here with dozens of other pictographs of taking <http://www.freedomforallseasons.org/FreedomFromDefactoLaws.asp>.

**Discerning higher truths over lower political manipulated facts**

The best of us keep bashing the other party because we have yet to see the obvious big picture. Politics is a religion and those who espouse one religion over the other by definition do not see the higher truths, i.e. ones inclination to focus on man made "facts" written into charters while avoiding the core issues. The hand is quicker than the eye and most minds. The nature of the municipal beast is revealed in "belief system blowing" pictographs in the Brotherhood of Darkness and words below. The municipal beast reflects anger, hate and violence and fractionalizes the higher nature of man into political subdivisions and parties exemplifying and baiting the differences in the Citizenry. Political subdivisions, political parties and the current form of so called "democratic republic" is no republic at all. Municipal corporations and political subdivisions are prison camps of a highly centralized and manipulated evil empire intentionally designed to create a war mongering way of life among people who have normal differences. It is critical to understand this diabolic game board to free ourselves.

**Political party mentality creates a fight or flight action reaction**

When we live in a constant state of hate of others, whether it is inflamed by religion or political religion, we are consumed into a spiral of primal linear thinking paradigms, e.g. fight or flight, action reaction, love or hate, kill or be killed, good party bad party.

**Political parties and THEIR invention of the municipal monarchy are the problem, the symptoms are tyranny and hate and the solution is free choice**

What I am suggesting is the core problems we are currently facing and fighting in King County and America are not political or religious ideologies at all. These are the symptoms of a much broader and deeper disease (dis...ease). This disease creates the beast we are all forced to live under called tyranny, a.k.a. the municipal corporation and its police state, a.k.a. fear. When Americans are given complete control over their individual lives and regain free choice completely and absolutely, political differences will be no different than the color of your skin. You will accept these differences as you do now with any friend or family member who is different than you. You would never think of condemning a friend because he thinks different than you or drop a friend because he or she jerks you up because of your behavior. A free and open society encourages individual differences and discourages centralized power and control at all levels of the society. This is not unlike in your own circle of friends and family, i.e. you want to encourage open communication and serious action to correct any problems in your own family and social circles.

**Political parties mutate normal human social behavior using inhuman eusocial planning strategy for ants and bee colonies by rat packing humans into municipal communities**

Local citizenry is intentionally kept in the dark and are only given staged choices and press by the Brotherhood who run these municipal monarchies. Hate is fostered at every turn and/or a Pollyanna marketing trick used by the political parties and political subdivisions. People are treated like cattle and gross acts of herding humans into highly negative charged political prison camps and high density housing which are only fit for ants and bees. Furthermore, this municipal and eusocial mindset further locks up peoples traditions and way of life by shifting from the rightful expansion of the highways and byways for individual transportation to mass transit few people freely choose to use and all are forced to pay because these systems would never be used in a free market because there is no return on investment, i.e. there is no true and honest value added for the massive cost involved. Humans are social, ants and bees are eusocial. There is a huge difference.

**Political parties and their chains of municipal and BAR associations create false choices using dialectic theory to distract Citizenry from core takings of their property**

Municipal corporations and the global to local elite (Brotherhood of Darkness) further use negative stimulation of the cities, counties, states and D.C. Inc. in many ways. One of the methods is by creating and influencing false flag dialectics of extremely charged emotion to stampede citizenry to decide between two evils. This dialectic is not unlike the Hegelian Dialectic thinking <http://www.crossroad.to/articles2/05/dialectic.htm>. A political dialectic of limited agenda choices is offered up to the voters to decide but neither measure addresses the core takings. The BAR associations help the Muni's craft these ballots. The mainstream political parties are such creations, i.e. they are the appearance or color of a solution to a another apparent problem we all buy into on one side or the other. Those who have long ago woke up to this dialectic sham have stopped voting so the herd becomes more charged with manipulated agendas by the global to local elite's and the political parties, BAR associations, city and county municipal associations, bankers and the NGO scavengers.

**Free societies embrace and encourage individual differences and free choice vs. centralizing power and eliminating individual choices**

Free societies do not force anyone to do anything they do not wish too because free will and free choice are absolutes all protected by the highest fundamental and founding laws of the land above the municipal charters including the state constitutional corporate bylaws. Free societies engender individual and community differences. Free societies are not municipal Stepford town franchises assimilating individual independence. America is a culture of rebels and gun slingers, no one tells a true and honest free American what to do if they want to live long or at least live in peace. If you wish to be a socialist, Marxist, collectivist or communist in America you merely gather up you own kind and establish a virtual or physical community of like minds. Or you may wish to be free from any society or belief system and live without government incursion of any kind, then you simply gather up you own kind and establish such a community of free spirits. This is the beauty of free choice. Differences are embraced in love and acceptance and open debate and not persecution by highly manipulated artificial political, legal and "scientific" fiction dialectics created to broker hate to better turn the herd into a chute and corral leading to slaughter. Once you remove force and offer up true and honest free choice the legislative, judicial and executive nightmare melts into a limited free government. Is this so hard to understand?

**King County and especially large municipal corporations engender hate mongering through political, legal and financial false deviousness to distract Citizenry from core solutions**

There is no beauty in the beast we live under called the municipal corporation and their political subdivisions. It is a hate mongering political, legal and financial machine designed to divide and conquer through primal fear engendering actions by forcing humans to live like cattle and sheep afraid to death of what the next taking is going to be. King County Council and your 15,000 employees geographically position yourself and secure yourself to minimize input and change. You are all cowards and cheap political thugs. All this nonsense so a few elite politicians, lawyers, bankers and self benefiting scavenging groups can live off the disharmony they have foisted upon millions of unsuspecting and apathetic people while pretending they and their nightmare are normal. It is a pathetic sight once you awaken to this system of predatory taking.

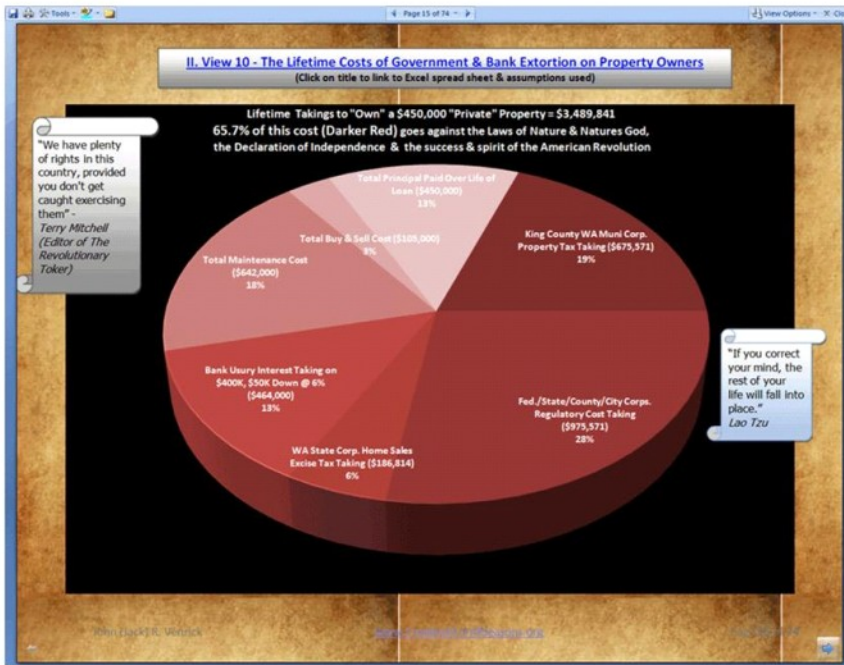

**Political party systems are a self feeding paradigm where positive change is designed out and negative change are designed in**

Once free choice is removed from the equation freedom cannot be defined. *Individual* Free choice is the cornerstone to a free society.

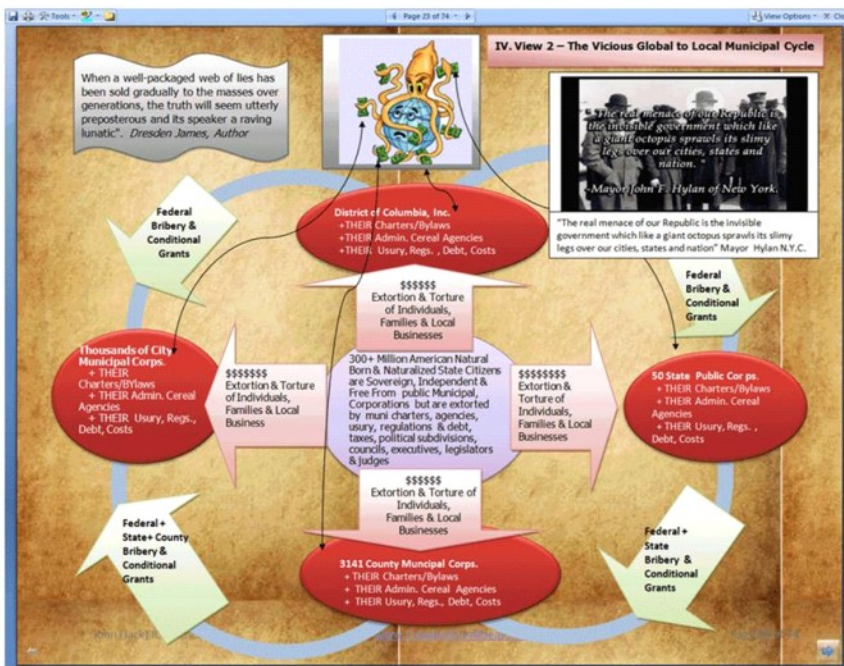

All the material is provided herein to wake yourself up. This is not rocket science. This is a false belief system easily changed once we put your minds to it. Please find examples of key pictographs in above Word 2007 presentation attached. If you do not have Word 2007 link here and go to the top box for other formats of this presentation <http://www.freedomforallseasons.org/FreedomFromDefactoLaws.asp>.

It is time to cast off not only "car tabs" at any price but all medieval belief systems imposed on us by political, legal and banking liars who create myths bestowing power and profit on to themselves by herding us into their political prison camps while pretending there is no other choices.

This is one pictograph in the pitch above showing what happens when your home is assimilated into a criminal network of global to local municipal corporations who write their own bylaws to steal private and public property and torture private property owners life long for power and profit.

Very few Americans understand what has happened to them and less want to know and even less have a clue of what to do about this syndicated

criminal racket called public municipal corporations. [You will find the problems and answers addressed in the above presentation, Brotherhood of Darkness.](#)

**An American Natural Born INDIVIDUAL IS:**

- ❖ Sovereign, Independent, FREE & FEARED
- ❖ A True & Honest Republic Is Established To:
- ❖ Protect & Preserve These Divine Rights at ALL cost, e.g.
  - > ALL Individual Unalienable Rights,
  - > ALL Allodial Rights,
  - > ALL NATURAL LAW & NATURAL RIGHTS,
  - > Individual SOVEREIGNTY, Free Will & Free Choice,
  - > Liberty and Freedom

This is clearly set forth in the highest fundamental & founding Charters & action of this Land, i.e. (1) LORIANG, (2) Declaration of Independence, (3) success & intent of the American Revolution.

**III. View 5 - Individual Sovereignty - A Firewall in a True & Honest Republic**

**A TRUE AND HONEST REPUBLIC IS A FIREWALL OF FUNDAMENTAL AND FOUNDING UNCHANGING TRUTHS SEPARATING THE NATURAL BORN STATE CITIZEN COMPLETELY & ABSOLUTELY FROM ALL MAN MADE PUBLIC & PRIVATE CHARTERS & CORPORATIONS**

Manmade private or public organizations including bodies of unelected or "elected" citizens serving the public are given no power, authority or rights to lord over natural born Citizens. "Lord over" includes zoning, regulating, representing, eminent domain, taxing, usury, takings of any kind for any reason. Free Citizens freely contract with each other but are never forced to "contract" with predatory agencies. Private and public corporations may properly discipline THEIR employees but NOT the natural born Citizens. Jury of our peers disciplines the natural born NOT self serving public cereal operational agencies who have no power in a free republic. The old ways of "governing" must all be discarded.

<p><b>Cities</b> Independent Private Enterprises. No Taxes on Citizens. Competitive &amp; Voluntary</p>	<p><b>Townships</b> Independent Private Enterprises. No Taxes on Citizens. ---	--	--	---

American Citizens may be billed for services they directly and personally contract for. They can never be taxed directly or indirectly as they already pay all taxes for the private and public corporations when they purchase their goods and services by free choice.

No one can tax, take or regulated these birth rights above and that includes any state or their city or their county municipal corporation. These takings cannot be sanctified by state, county and city bylaws, charters or so called "constitutions" which intentionally write out and ignore the highest fundamental and founding laws of the land.

I have spent 30 years with The Boeing Company doing system analysis work. Many like myself roamed the company looking for ways to make Boeing more efficient. If I didn't find a more efficient way of making an old process work that demonstrated a convincable return on investment I was out the door and/or the organization refusing to change at the next downturn was also out the door. This is called free market. Municipal corporation "business" models are not just out of date, they are primitive and tyrannical. Such rigid political ideologies are not only bipolar and medieval, they are dysfunctional behavior which is then repeated over and over using brutality and thuggery which is the very definition of criminal insanity.

Over the last 6 years I have documented the growing criminal nature of municipal corporation systems. Please find attached the big picture on the puzzle box which is filled with a "million" puzzle pieces of takings. This is a multi-headed snake of treachery equivalent to the despotic structure used by the church and monarchies in the dark ages to extract revenue for their brutal priests and lords/rulers.

The municipal corporation of King County has a net worth of \$4.1 billion as of 2008, (Net Worth = Assets - Liabilities) yet they never have enough.....

- plus an annual revenue of \$2.8 billion in 2008 yet they extort thousands of dollars from individual property owners into bankruptcy.
- Municipal business models never have enough because of the business model (racket) is intentionally designed to legitimize stealing and oppressing healthy individual differences
- Further evidence of the nature of this Muni legal and financial fraud is [The Port of Seattle](#) which has annual revenue of \$489 million in

9/29/2011

- 2008 yet they operate at a loss and further extort property taxes from every property owner to support this criminal Port Mafia.
- Property owners have no rightful responsibility for Port operations or municipal corporation operation...
  - just as they have no rightful responsibility for the profit or losses of a private corporation they have or do not have shares in.
- The states are involved in gambling and the sale of alcohol which makes my point further.
- These Municipal Mafia organizations are dressed up in street clothes while they back themselves up with a growing beyond arrogant police state to enforce their thuggery.
- This is a criminally insane operation.
- **The solution is individual free choice.**
- **No surprise here, we live in a voluntary free republic.**

I have one neighbor who is paying one third of his pension for his property taxes. I have two other neighbors who were forced to pay over \$20,000 in extorted larceny to King County DDES for nonsense land use fees. This is what I paid for the original cost of my 10 acres back in 1976. There are hundreds of examples of persecuted property owners on my web site which is a representative sample of millions of property owners in America who are waking up to this barbaric form of legal and financial fiction. Yet nothing changes.

**King County government and its vast network of 3,141 other counties and thousands of city Muni corporations and their associations in America are clearly a criminal enterprise.**

- They are, i.e. YOU King County Council and all your 15,000 employees are using legal fiction thuggery
- Once you shift your perspective to the real nature of the municipal hierarchy rooting to the British soil and eastward, "divine right of kings" and "democracy" is obvious to open minds.
- Political party and religious affiliation should be as insignificant on these municipal corporation boards as on private corporations in a true and honest free society.
- Municipal corporations rightfully have no more power if not less than a private corporation in a true and honest free society, i.e. you cannot legislate theft or personal injury.
- A true and honest public corporation is very limited in its charters.
- A honest public corp. provides a utility infrastructure for basic services at the free will and free choice of its natural born.
- Citizens who are not taxed and are only billed for direct services provided.
- Furthermore, if they do not like the service, they can find another provider.
- This is how it used to be until the Municipal Mafia took over our minds and the media.
- Nobody should be concerned about ones faith, race, political party in a true and honest public corporation, just as in a private corporation.
- The Municipal corporation "business" model can easily be eliminated completely and replaced by private service management groups who bill the Citizens for direct services used only
- All other non value added services are discarded
- If the local churches, charities or wealthy like the Gates family, they can fund the social services by free choice.
- In a true and honest free community they may have a rotating board of the Local Chamber of Commerce and interested Citizens to oversee.
- The only taxing would be a small single digit uniform tax on the local corporations not family businesses.
- Municipal corporations are increasingly going into financial ruin and debt because the model is debased on brokering hate, amplifying individual life crisis by using tyranny.

**Please read the Declaration of Independence again to fully absorb what the colonists hated the most about the British Monarchy, i.e. King county is a British Municipal Monarchy.**

- The city, county, state and federal municipal network replaced the power structure of King George III.
- While General Washington and the first American Revolution pushed off the British and General Howe's 30,000 regulars and Hessians, the municipal monarchy remained in the infrastructure and belief systems of the colonies through those who profited by them, e.g. the bankers, lawyers and budding politicians.
- This group continues to this day to live off the blood, sweat and tears of generation after generation of Americans.

**Any taxing upon the natural born and rightfully naturalized Americans is strictly forbidden by the Laws of Nature and Nature's God, the Declaration of Independence and the spirit and success of the first American Revolution.**

- Municipal corporation and state bylaws do not trump the higher laws of the land.
- Americans only pay tax by free choice in the price of the goods when they purchase services and products from a corporation.
- Individuals and family business do not pay tax or can they be regulated, they are natural, i.e. not man made legal fiction.
- Only artificial legal fiction corporations pay tax.
- When your direct and indirect taxes go away all the nonsense collapses and there is only true and honest government funding for limited infrastructure.
- The Muni Monarchy is using legitimate taxes & revenue to create illegitimate cereal agencies while forcing property owners and consumers to pay for legitimate infrastructure.

9/29/2011

- The rightfully divine natural born are sovereign and free they created private and public corporations to serve them NOT to pay them.
- King County is an artificial legal fiction corporation with no power bestowed upon it by the natural born to touch, take or tax those who are the rightful kings and queens.
- King County municipal corporation and its employees are servants not dictators.
- King County employees have no standing in the lives and property of those natural born and rightfully naturalized in King County.
- King County is a political subdivision not a prison camp run by 15,000 thugs roaming around writing legal fiction codes upon individuals who never contracted for these takings.
- Read all about it here - <http://www.freedomforallseasons.org/FreedomFromKingCountyTheGreatImposter.asp>

**British forms of tyranny were done away with after the Battle of Yorktown in October 19, 1781 when Cornwallis and his 7000 men surrendered to General Washington.**

- This was followed by another battle where 1000 Kentucky riflemen who devastated British backed Shawnee Indians.
- We are now in the third American Revolution because British municipal monarchies were already in place in the colonies and were not dismantled.
- **The days of holographic legal, political, monetary and financial manipulated fiction thrown over the private lives and property of its Citizens by a few elite's are over.**

**Government subdivisions, municipal corporations and their agencies and charters were never given any rightful power over the individual natural born.**

- Any fictional power you believe you have is all self bestowed by a few political and legal thugs and cowards as the territories rolled blindly into the union of centralized power and control. Read all about that taking here - <http://www.freedomforallseasons.org/FreedomFromTheStateofWashingtonCONstitutionThatNeverWas.asp>
- Government employees are servants at work with no power over the natural born for any reason.
- All government branches and agencies are advisory not adversarial otherwise we would all be your slaves, right?
- **Individual natural born and rightfully naturalized hold all power and sovereignty.**
- **Sovereignty was never bestowed on any government branch or agency or employee.**
- Conversely, if you were rightfully bestowed with such powers as you think you have, you would have the divine rights of kings.
- As we all know, government types do not have, nor were you ever given, divine rights or sovereign immunity yet they claim it as if it were so.
- Government types are completely liable in the people courts, i.e. true and honest Grand Jury and Trial Jury courts of de jure law.
- State constitutions, county and city charters are corporation bylaws which have been so perverted from the higher laws of the land they are mere bylaws for Mafias.

**No power over the individual natural born was ever given to private or public corporations.**

- Corporations are chartered to serve and protect the American natural born and rightfully naturalized.
- In exchange for their existence and limited taxation, they are allowed to operate under very limited and strict higher fundamental and founding laws of the land.
- Neither public or private corporations can ever become predatory and turn on those who created them.
- The corporations are to serve the free and provide employment and basic services at the cost of a small single digit tax upon the private corporations.
- This combined with the sale and lease of natural resources and the cost avoidance of never paying interest upon limited short term loans is enough to fund basic infrastructure.
- This small tax on all corporations including oil and natural gas companies pays for the transportation infrastructure as well.

**Both private and public corporations may legitimately regulate their employees as conditions to employment.**

- Private corporations may not regulate their shareholders, it is quite the opposite, the shareholders regulate the corporations.
- Public corporations may not regulate the natural born or rightfully naturalized living in so called political subdivisions.

**We all know what has happen, i.e. private and public corporations have merged and sharked out the private and public sector of free choice and treat them worse than their own employees.**

**Ending Municipal Monarchies is not Rocket Science, it is simple financial management**

1. **King County Municipal Corporation should be sold off to the highest private American bidder** using the above mentioned direct bill

9/29/2011

for services model which will end all tyrannical taxing. The Port of Seattle should be sold off to a private corporation who has the balls to cut it down to the bone or shut it down entirely. The current Municipal corporation business model never has worked because it is debased on a tyrannical taxing system versus a free choice private corporation based on profit and financial independence in a free market.

**2. The first city, county or state to free itself from this municipal tyranny will make the California and Alaska gold rush era pale in comparison.** This will be the stake in the heart of the municipal vampire. Once free will and free choice and a free market replace municipal governments a golden age will return and a true and honest free society will rebuild itself out of the ashes. What centralized power fears the most is individual free choice. History is a resplendent example of this lesson. Yet the cycle of taking is so attractive, glamorous, illusive and subversive, that it takes generations and hundreds of years before some critical mass of the society wakes up and/or the society collapses.

**3. The reason why we have no free choice in this "free republic" is simple.** With free choice there is much less need for the political pyramid, BAR associations, global to local municipal associations as well as all their nonsense cereal agencies who were created and maintained by the police state. In other word an oppressive dialectic like a political municipal hierarchy engenders dependence. This is why no state has left the union and no county or city has chosen to fight. The "Global to Localist", a.k.a. Locust, live on hate by creating it day in and day out. Once the awareness of free choice rises in the consciousness of the people their will be a rolling shift to free choice. Most people do not realize they are not truly free. When they understand that there is more than enough resources in a very limited and simple free republic without direct or indirect taxes upon the natural born your jobs go away, DDES melts, King County municipal corporation and all their bonds melt and they are a mere limited shell. The problem is not that you don't have enough resources, the problem is you have too much.

**4. Once free choice is protected, municipal empires collapse down to very limited basic services.** Public corporations must exist like any other corporation. They cannot steal property and they must be competitive. The consciousness and morally of a few small municipals now are rising to this level of awareness and doing away with their entire police departments and outsourcing everything else. Who needs taxes when you do not need 90% of the "take it or leave it" "services". The political dialectic creates a false fears and subversive agendas.

**5. All public services funded by tax tyranny can easily be converted and/or outsourced** into private companies who would in turn offer their services in a free market and compete with others offering the same service for the consumers (ex tax slave) to purchase by free choice. Private insurance policies can spread this risk much more efficiently than municipal monarchy slave camps called political subdivisions. The false ideology that a free republic needs a system of forced tax tyranny to run a municipal empire for someone else's shortcomings is instantly solved by insurance NOT a municipal bureaucracy. Roads are paid by a small single digit percent tax on oil and gas companies, they may pass this through in their pricing.

**6. King County council needs to be replaced by a rotating private corporate board of local industry.** You people have no experience in serious management of large corporations, i.e. you are politicians and are part of the problem not the solution. You and your kind are the ones who drove out Boeing. The answer is to bring in a rotating board of highly credible and successful private corporation directors with a credible history of cutting fat and empire building from their own corporate corporations. They would have a stake in cutting government costs because they are paying for it via a small single digit tax on their revenue. These private corporate directors would do this pro bono or for free as a service to the community and their own employees.

**7. Government has no lawful role in any business or service including so called "emergency services" or "police services".** Militia of the Citizenry protect freedom not municipal trained thugs. Any service one wishes can be easily retained for a small fee if you want it bad enough. Sucking away the private free enterprises into wasteful government bureaucracies is exactly what not to do. The concept of taxing is an extremely out of date and medieval negative revenue which only collapses a society because there is no individual accountability of the use of the resource, i.e. it is taken at the end of the barrel of the gun of the local municipal police and legal force. This is another political dialectic of fraudulent choices being offered up to the people so the gullible will vote you more revenue thereby further dragging down the private market and the goose who lays the golden egg. This is criminal insanity.

**8. Lastly, I ask you to read the following script in its entirety or better yet purchase or rent Gandhi DVD,** the 25th Anniversary Winner of 8 Academy Awards including 1892 Best Picture, it is a 2 Disc Collector's Edition. Watch it with your family, buy a dozen copies and give them to your staff and friends and ask them to tell you how it compares to what I am saying and the pictographic truth presented in the Brotherhood of Darkness. Place yourself, in your minds eye, regardless of your political affiliation, as the British Empire which ALL Municipal Corporate Monarchies are. Play the movie over and over until you get it. Chances are your children and your family will get it before you do. You may order it here <http://www.amazon.com/Gandhi-Widescreen-Two-Disc-Collectors-Kingsley/dp/B000KX0IOA>.

**9. King County Council and its executive ultimately have no choices once a critical mass of us wake up.** What are you going to do, put 1.6 million of us in prison and confiscate our property. You have held this monarchy for centuries now and it never worked without spilling blood and tears from innocent victims. Once Citizens start exercising their rightful free choice that they do not have to pay any taxes, the municipal empire and all its predators will melt and/or turn into legitimate free market enterprises competing for business and employment like the rest of us have to do. Go stand in the unemployment lines and get an honest job like the rest of us.

**IX. Legitimate vs. Illegitimate Taxes - View 1** - Chart Update: Lysander Spooner makes a good case against import duties, i.e. what goes around, comes around; also, private market mints which existed without problems in California gold mining days.

**Legitimate vs. Illegitimate Sources of Revenue in a Honest Constitutional Republic or Consolidated Republic**  
Research, validated and compiled by Jack Venrick, www.freedomforallseasons.org. Permission to use with credit

**1. LEGITIMATE sources of revenue - more than sufficient to fund infrastructure:**

1. Uniform indirect taxes on state created corporations
2. Customs, duties and imposts on foreign corporations importing goods and services to America
3. The sale and lease of state natural resources
4. The printing/minting of value based currency and coin - the union AND the states may mint and compete
5. Cost Avoidance - the Government & the natural born do NOT pay interest on what is minted and circulated for their own use

**ILLEGITIMATE Sources of Revenue:**

1. Federal OR state "income tax" is an indirect tax which CANNOT be applied directly to natural born state Citizens
  - A. The 16th Amendment authorizing an "income tax" was never fully ratified & is fraudulent
  - B. The 16th Amendment "income" tax only applied to corporate profits & gains NOT to property or wages of the natural born state Citizen
  - C. Multiple high court rulings established the 16th Amendment DID NOT change the tax system, i.e. see next line
  - CI. NO taxes on property or wages which are NOT apportioned to the population of the (state divided by the Union of the State)
  - D. Multiple high court rulings established individuals CANNOT be taxed for the mere privilege of existing, **unlike a corporation**
2. Property taxes are legitimate and fraudulent and CANNOT be applied to any property owners
  - A. The delegates to the original constitutional conventions voted for NO direct taxes
  - B. The direct apportioned tax was written into the original constitution against their instructions, i.e. forced/snuck in
  - C. The original constitution was never unanimously approved as required by the Articles of Confederation still legitimate
  - D. In addition to the above historical facts, union direct taxes could only be apportioned to the several states by population
  - E. Multiple high court rulings established individuals CANNOT be taxed for the mere privilege of existing, **unlike a corporation**
3. Sales/TTL taxes are an indirect tax and CANNOT be applied directly upon natural born state Citizens
  - A. Sales taxes must be absorbed by the corporation and passed through in their pricing IF they so chose
  - B. A sales bill tax is a forced direct tax if applied upon the natural born state Citizen
  - C. Additionally, the natural born state Citizen must freely chose to purchase the product or service or not
4. Flat taxes, VAT taxes, "Fair" taxes, Sales taxes & Excise taxes CANNOT be applied upon natural born state Citizens

RE: PVR flip-flops for lollipops -- King County Republican cuts backroom deal with Democrats, screws us out of our \$30 car tabs in exchange for earmarked pork -- worse, he's lied about it for months

In April, Pete von Reichbauer (<http://www.kingcounty.gov/vonreichbauer.aspx>) cut a backroom deal with the Democrats (specifically Larry Phillips, the senior Democrat on the Council) and sold his vote in exchange for a lollipop in 2012 King County budget (in King County parlance, a lollipop is a pet project or pork barrel earmark). All 5 Democrats on the Council (Larry Phillips, Larry Gossett, Bob Ferguson, Julia Patterson, and Joe McDermott) were always going to vote to unilaterally jack up car tab taxes, but they needed one sell-out Republican to get it passed. (After reading this: "*King County Council member Larry Phillips, meanwhile, tells PubliCola he's optimistic that the Democrats on the council will manage to sway at least one Republican vote*", we did some investigating and learned about Phillips' backroom deal).

On April 25th, we sent everyone an email alerting you that one of the four Republicans on the King County Council (Jane Hague, Kathy Lambert, Pete von Reichbauer, or Reagan Dunn) had sold their vote -- we did not name von Reichbauer. In response to your emails and phone calls, each of them, including von Reichbauer, denied cutting the deal

and emphatically opposed unilaterally imposing ANY increase in car tab taxes without a vote of the people. Here was what Pete von Reichbauer sent to the media and to constituents:

*"In his second Inaugural Address, President Ronald Reagan asked: If not us, who...if not now, when? If the Washington State Legislature will not listen to the taxpayers the King County Council should, and I for one have listened to my neighbors and I will NOT vote for the proposed car tab. Thanks for taking the time to ask me if I was going to vote for the fee increase. Pete von Reichbauer"*

On Monday, the day of the Council's vote, after returning from recess and in a very Perry Mason-like moment, PVR announced that "new information has been brought to my attention" and then asked for a 20 minute recess. It was all fabricated theatre. By hyping it in this way and postponing the vote until August 15th, he was able to get even more lollipops.

So he's been lying for months. He lied to the media, lied to constituents, lied to all of you. It's totally sleazy under any circumstances -- ignoring the voters' ballot box mandate -- but it's beyond the pale to sell a council vote in exchange for pork barrel earmarks.

We need your help to put a bright spotlight on his betrayal. Let him know your thoughts right away. Email him right away:

Democrats in Olympia have repeatedly ignored our repeated votes for \$30 car tabs. They even passed a bill empowering the King County Council to unilaterally jack up car tab taxes BUT THEY NEEDED TO GIVE POLITICAL COVER TO THEIR DEMOCRAT COLLEAGUES BY REQUIRING AT LEAST ONE SELL-OUT REPUBLICAN TO GO ALONG. THEY FOUND ONE: PETE VON REICHBAUER. AND HE SOLD HIS VOTE CHEAP.

**Too often, Republicans in the minority believe they've gotta cut sleazy back-room deals with majority Democrats to get re-elected (as if selling out the taxpayers for pork barrel projects is going to be well-received by voters).**

Don't let this sell-out politician get away with taking away the people's right to vote and our \$30 tabs.

P.S. There are thousands of politicians, bureaucrats, lobbyists, and special interest groups working each and every day to raise your taxes. Shouldn't there be at least one person, one team, one organization that fights to lower your taxes? Please help us so we can continue our successful efforts on behalf of taxpayers.
