To: The Government and NG Cleansers & The Sovereign & "Cleansed"

The following is my First Amendment Opinion of government crimes against private property owners -

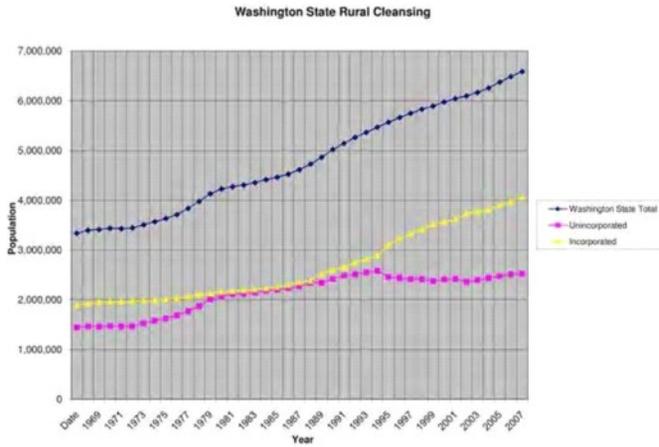

- The facts are in and the sick irony is, all of these takings of private property are not necessary plus they are highly destructive.
  - e.g. taxes, usurious interest, diluted titles, sustaining development and smart growth do not work.
- This is the same nonsense junk political "science" coming from the same government/NGO sources
  - who created other myths for their profit
  - e.g. "man caused" global warming, "alternative" energy, "critical areas", "wetlands", "endangered", "wildlife corridors", wars
- Representatives and Senators do not fall for the poison bait of these green environmental and monetary taking schemes
- People are not cattle, ants or bees to be herded and prodded into colonies, taxed thru their death and
  - have their property systematically stolen

*During WW II, Kenneth Arrow, who later won the Nobel prize in economics, worked as a weather forecaster for the Air Force. Part of his team's job was to forecast the weather a month in advance. But their long range forecasts were no better than random, so they asked to be relieved of the task. They were told that, "the Commanding General is well aware that the forecasts are no good. However, he needs them for planning purposes. "This seems to be the attitude of many city officials: Urban planning doesn't work, but they need it for planning purposes." Forcing people into higher density urban areas while shutting down rural areas against the consent of the affected property owners by force, extortion and green legal fiction laws is legal extortion and criminal.

- This is government racketeering, no less a syndicated organized crime ring than the mafia.

Here you can see how dramatic and traumatic this criminal social engineering is on the rural county people.

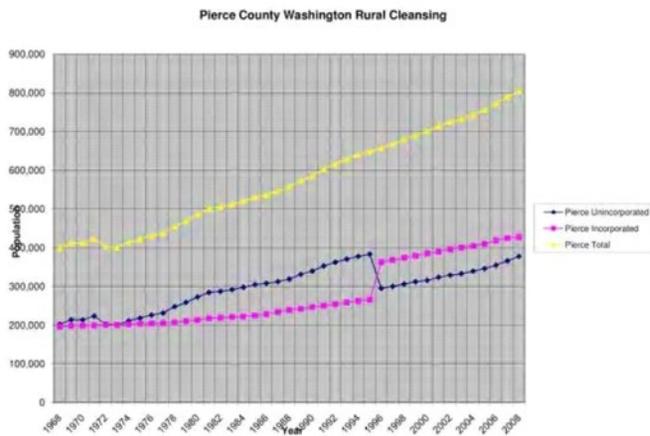

- King County (appropriately named) is the 9th +/- largest country in the nation(see chart below) and should be completely eliminated.
- If you don't think rural cleansing is traumatic, you don't live in the rural area or you don't live on land
- Rural cleansing is an urban created problem to accomplish an illegitimate and unnecessary agenda.
- The real solution is to bust up the fat counties doing this
- As you can see in the chart "Sorting US Counties by size, it is the fat counties that ARE THE PROBLEM
- THEY HAVE CREATED ANOTHER PROBLEM CALLED SD/ SG TO SOLVE THE PROBLEM THEY HAVE BECOME.
- BUST THEM UP IS THE ANSWER

11/3/2010

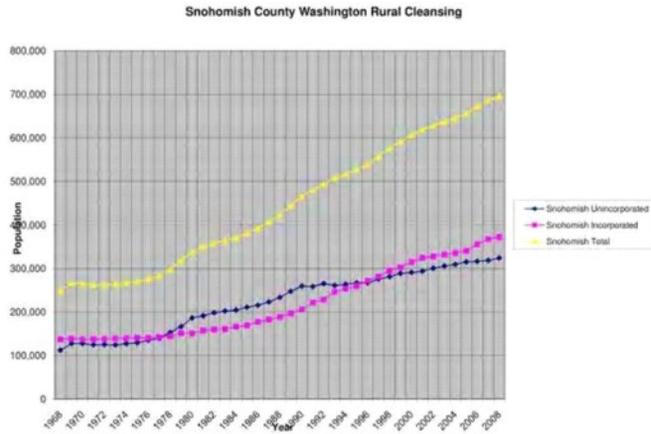

This will give you a visual on how the green agenda destroys our land use and imposes overwhelming costs & uncountable takings on the rural community

- 1991 you can see the beginning of the effects of preceding rural tyranny in King County Washington.
- I have outlined 36 crimes in an Excel table below
  - the short list of organized crime against rural and urban private property owners.
- They are racking, stacking & packing families into Asian like city densities
  - while turning the rural areas into parks and bike trails attracting more people
- Immediately this creates a blow back of property rights crime and stress against rural and urban traditional way of life.

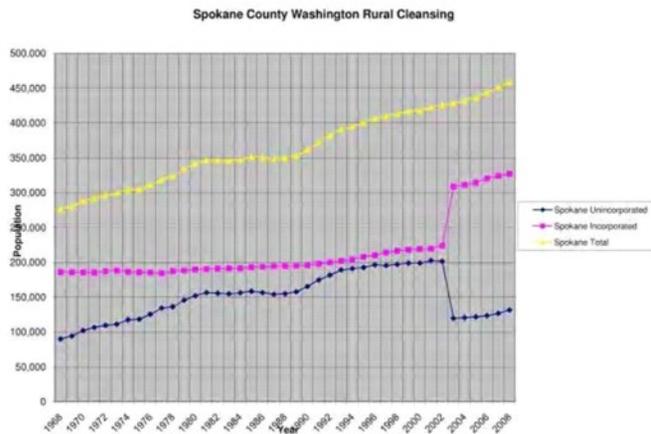

We used to call this "dry labbing" in engineering, i.e. forcing the numbers to fit a predetermined theory. Some would call this fraud, exploitation, extortion, predatory, sabotage, conscription, warring on the rights of the natural born, sovereign and free.

11/3/2010

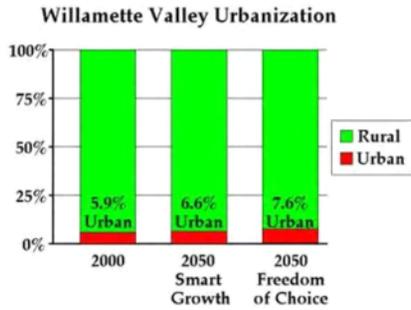

Ruthless tactics are used to accomplish these trends. They are by no means done by free choice. This is green government and green NGO's tyranny in action locking their horns and destroying uncountable lives of innocent rural and urban property owners using every legal fiction they can create.

More "dry labbing". Note the sudden population changes to conform to the unconstitutional Agenda 21, a.k.a. "Sustaining Development", "Smart Growth". This nonsense is coming from the same global goons who created other mythology to control US, e.g. "man caused global warming, "alternative" energy, "critical areas", "wetlands", "endangered", etc.

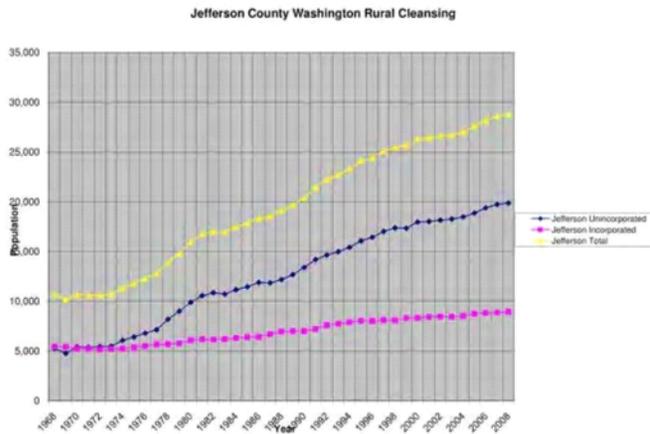

11/3/2010

[www.ti.org](http://www.ti.org) Randle O'Toole

You can see the difference between "Smart Growth" tyranny and free choice above. The big cities, larger population states, fed and UN have locked horns to try to force this upon us. Randal O'Toole says Houston and other towns have no zoning and successfully manage their growth!

- Sustaining development and smart growth do not work
- ONLY FREE CHOICE WORKS AND THAT MEANS FREE CHOICE WITHOUT COERSION AND LIES.
- This junk political "science" is coming from the same national & global sources who create these myths, e.g.
  - o "man caused" global warming,
  - o "alternative" energy,
  - o "critical areas",
  - o "wetlands",
  - o "endangered",
  - o taxes by force not by free choice
  - o interest rates
  - o diluted property titles
  - o don't forget wars to broker more usurious blood loans
  - o And this is the short list to name just a few.

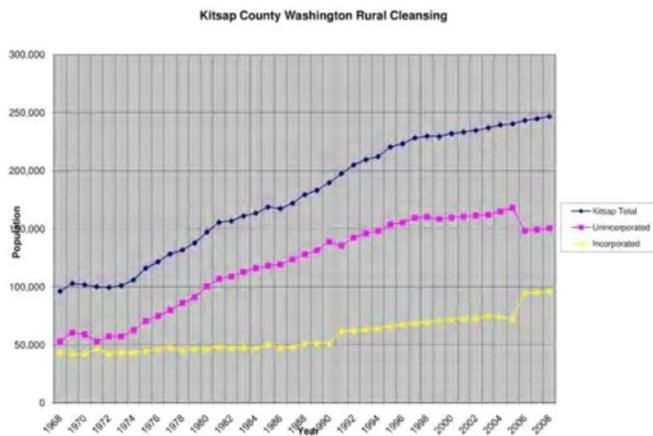

Jefferson County is mostly rural and the rural property owners are enraged and becoming organized to fight the hidden takings of the green extreme which this graph does not show. This is a letter worth reading to better understand the green agenda to eviscerate the rural communities traditional way of life.

Dear Planning Commission Members

Jefferson County As a tax paying riverfront property owner, I should have a much greater say in this deliberation than people from outside the county - what you do here directly effects myself and the residents of Quilcene and Brinnon - and our posterity. Having gone through the existing process for building permits recently, both on our Dosewallips property and another Coyle property which has a wetland - I have experienced the controls, regulations and processes first hand. I can tell you that the processes are already overprotective, time consuming and expensive. Speaking as a taxpaying user of the existing system, a scientist and an environmentally conscious organic gardener - I can tell you that the overprotection and the manner of it's administration are killing rural Jefferson County's economic future. Regulators chosen by the DCD are often seen by taxpaying landowners as overly restrictive, and are rarely seen giving benefit of any doubt, in grey areas - to the taxpayer. I would remind you folks, that economic hardship is the standard of rural Jefferson County residents already. There is no excuse at all, for Jefferson County residents to have to travel to Kitsap and Clallam for shopping and employment. It is unacceptable, and a human rights violation, that elements within Port Townsend feather their own economic nest by quashing development elsewhere in the County. This element have used overly protective regulation to enhance the PT UGA by not allowing economic competition to flourish. The only "industry" allowed outside PT is home construction. For this home construction we are forced to use Canadian timber products. (just check Carls and Hadlock - all lumber comes from Northern BC on big diesel trucks). Additionally, home construction is constantly under attack by regulators - making it increasingly unaffordable. Furthermore Jefferson County no longer allows affordable sized rural properties to be subdivided. So the only remaining "industry", which is homebuilding, is going away. That is the last bastion of possible employment for rural families, who are being forced out now - or onto welfare. What is left for rural areas is 20 acre parcels where wealthy retirees are the only possible persons, who can afford to be there. What I am laying at you feet is a story of hardship and oppression that is the product of special interest groups controlling the political processes of Jefferson County. These interest groups are frequently from outside this county and their claims are usually not based on best available science - or for that matter, on science at all !! More rigid regulation is not acceptable to those who are it's victims, the people whom this planning commission was created to serve !! Respectfully Ken Shock Brinnon WA 98320

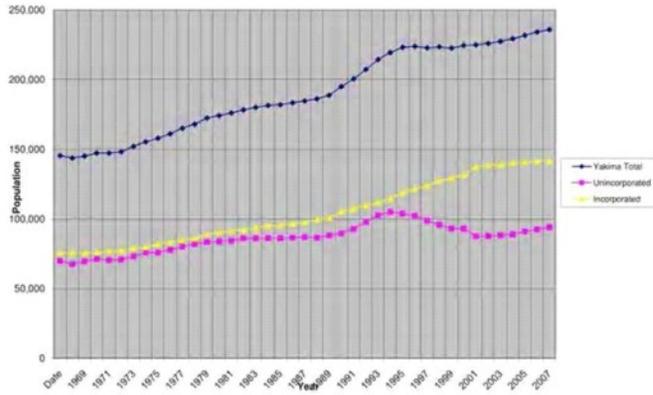

<http://brinnonprosperity.org>

More "dry labbing". Note the sudden changes to conform to the Agenda without the approval or knowledge of most of the rural or urban property owners. Even the concept of zoning goes against the fundamental laws of the land including the Laws of Nature and Natures God.

Chart from [www.ti.org](http://www.ti.org)

77% of Americans live on 2.6% of the land - Michael Chapman

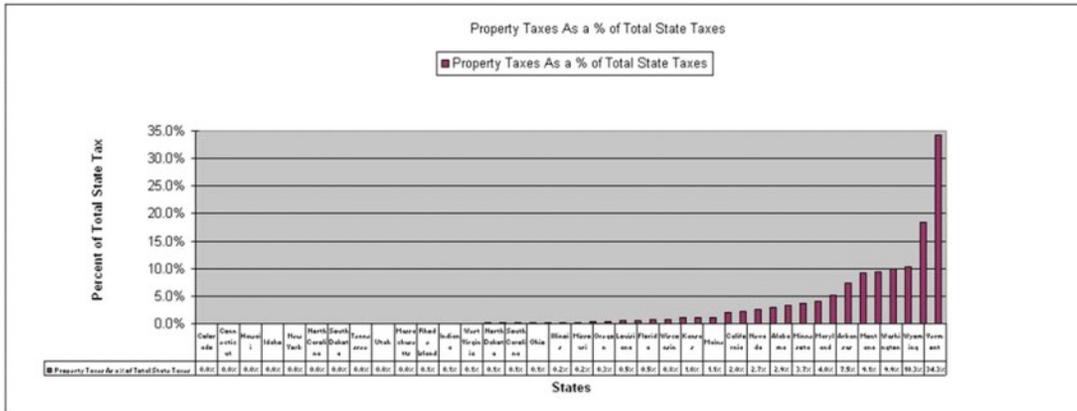

- Herding humans into ant colonies is NOT necessary
- This is done for profit only using legal fiction and urban myths at the expense &
  - misery of millions property owners

The problem are these massive city-counties.

- They act like corporate sharks, eating up private and public property keeping themselves FAT
- What they cannot devour silently, they enact legal fiction to take publicly.
- County governments, especially those over 93,000 are not needed, they destroy private & public property & lives.
- If you don't believe it, check it out here <http://www.freedomforallseasons.org/EmbattledPropertyOwnerStories.dwt.asp>
- They invent legal, financial and environmental political fiction to crucify urban & rural property owners.

11/3/2010

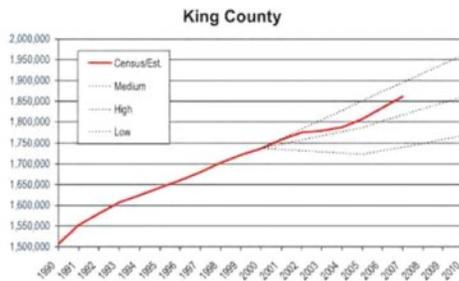

Washington State has the 3rd highest property taxes as a % of Sales Taxes.

- All the state taxes on private property, wages and even sales taxes are unconstitutional.
- You cannot apply direct taxes upon the people unless they are apportioned
  - and only in emergencies & only a 1/4% and only by free choice.
- Indirect taxes must be costed into the price of the goods and services
  - as the merchant chooses and then passed on by free choice.
- They cannot be added at the till, thus making it an indirect tax upon the natural born which is unconstitutional.
- Where is bench, the bar and the banks insisting this fraud be shut down immediately
  - Answer - they have no guts to do the right thing, they want their early retirement extorted upon the natural born

The government hides their profit, pretends to run a deficit to justify raises more taxes - [www.cafr1.com](http://www.cafr1.com)

**Chart of the Day**

For some perspective into the all-important US real estate market, today's chart illustrates the US median price of a single-family home over the past 38 years. Thanks, in part, to low long-term interest rates, the trend from 1991 to 2005 was impressive. Not only did housing prices increase at a rapid rate, the rate at which housing prices increased – increased. That brings us to today's chart which illustrates how housing prices have dropped well below their accelerated upward trend and 29% from the 2005 peak. It is worth noting that housing prices are currently decreasing at a rapid rate. In fact, the rate at which housing prices have been decreasing has been increasing.

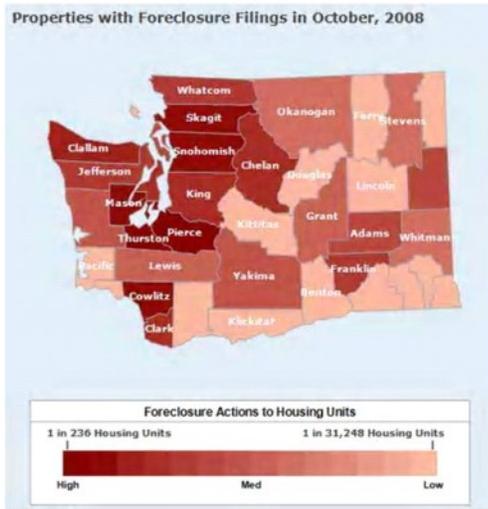

Keep in mind most of these foreclosures are caused by the following basic takings which go against the fundamental laws of the land AND Laws of Nature

1. The title of the land has been watered down from allodial and patent title to fee simple,
  - o i.e. it is much more easy to take property in fee simple title
2. Property taxes are unconstitutional and have been declared so in at least 4 state high courts,
  - o i.e. they are not apportioned
3. Usurious interest rates as well as the entire concept of interest is an illegitimate burden
  - o against all property owners,
  - o interest in NOT necessary, believe this or not
4. The existing system in America is criminal
  - o It is designed the ruling greedy elite bench, bar & bank profit
5. It is not necessary to throw families out of their homes
  - o while taxing them to death and

11/3/2010

- o charging them ungodly interest rates and
  - o while give a long string of special rates, depreciation, write offs and bailouts to the legal fiction businesses
6. This concept of taxing and taking goes against all the principles, morals and laws of Nature and Nature's God

This does not need to happen!

We have been brainwashed into a perverted sense of right and wrong by the three stooges Banks, Bar & Bench

- We must eliminate the taxes AND usurious interest rates AND upgrade their land titles to allodial
  - o upon the natural born property owners
- The government has more than enough wealth to fund basic infrastructure
  - o without fraudulently and directly taxing the natural born
- So called apportioned direct taxes were never unanimously approved by the several states
- The government is richer than it is reporting
  - o 3rd world countries & banks are bailed out continually
  - o While the "delinquent" property owner is crushed to death with legal fiction

No Property Taxes + No Interest Rates + Allodial Land Title = Your Rights As Individual Kings

I. Property taxes are the first illegitimate and unnecessary taking

- The county & city governments are forcing these people into foreclosure
- The usurious bankers are breaking the backs of the sovereign unnecessarily.
- It is not the property owners who are the problem
  - o It is the Treble Takers of Banks, Bench and Bar who have perverted our birth rights

11/3/2010

## II. Legal fiction usurious interest rates on private property by the banks is the second illegitimate taking

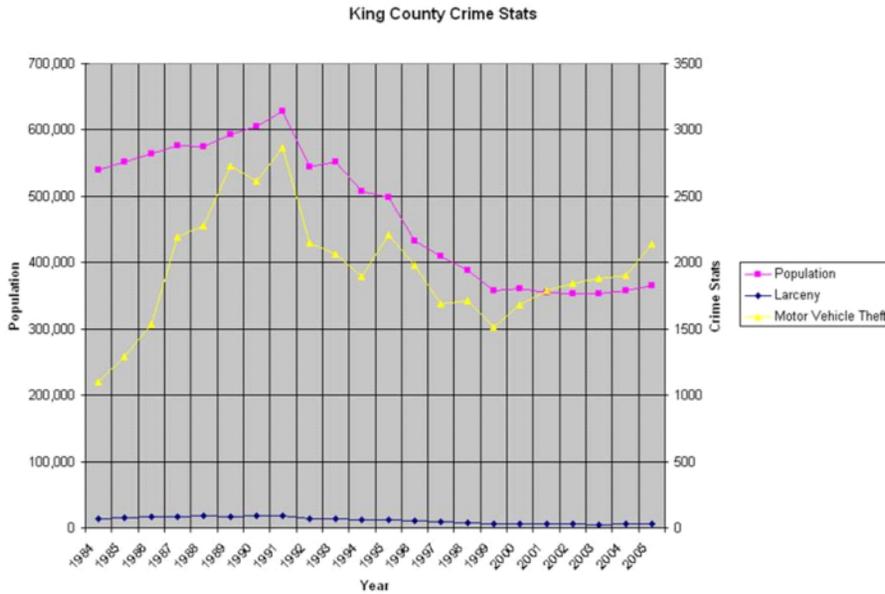

A	B	C	D	E	E	F
BANK	BANK	BANK	BANK	BANK	BANK/TITLE	BANK
Loan Term	Loan Interest	Principal	Interest Paid	Interest Paid	Closing Costs	Total
(months)	Rate	Paid	Over Life (P+I Payments)	Over Life (Interest Only)	2-4% say 3%	C + D + F
360	6%	\$400,000	\$464,400	\$720,000	12,000	\$876,400
360	5%	\$400,000	\$371,000	\$600,000	12,000	\$783,000
360	4%	\$400,000	\$243,800	\$480,000	12,000	\$655,800
360	3%	\$400,000	\$207,400	\$360,000	12,000	\$567,400
360	2%	\$400,000	\$132,300	\$240,000	12,000	\$444,300
360	1%	\$400,000	\$63,161	\$120,000	12,000	\$475,161
360	0.50%	\$400,000	\$30,800	\$60,000	12,000	\$442,800
360	0	\$400,000	\$0	\$0	12,000	\$412,000

- Compound interest loan cost over the life of the loan are over the cost of the principal alone as you can see above at 6%
- Interest only payments are criminal and can result in the property owner paying near twice the principal
- Interest rates over 1% are usurious and deadly and unnecessary
- Interest rates of .5% or maximum 1% are burdensome enough for property owners
- Closing costs alone are enough to cover loan expense plus their profit on fictional fiat worthless electronic debt!
- Very low interest rates could be offered to marginal borrowers but never with foreclosure privileges
- Does this concept blow your mind? It did mind too, until I thought about it long and hard.
- Einstein is rumored to have said compound interest is the eighth wonder of the world.
  - What he didn't tell you was, interest a financial fiction invention of bankers equivalent to money changing.
- We are a nation of idiots who have been brain washed into swallowing these takings of our rights by the banks, bench & bar
- While they invent doomsday legislation, judication and financial extremism for the natural born, sovereign and free state CITIZENS
- Again it is the same old shell game of pre-selected few choices staged as free choices
- This is why the usury rate in Washington state is 12% for the natural born Citizens but unlimited for legal fiction corporations

## III. The absence of allodial land rights on your property is the third taking

- Allodial land rights were the original titles equivalent to land patents
- See Allodial Title email attached
- Allodial title is an unalienable right given to you by birth in America
- No one can take your land, home or property if you have allodial title even if it has debt upon it
  - This is the subversion and perversion of the Bench, Bar and Bank and government \
  - You do not own your land with Fee Simple
- Fee Simple allows the state and courts to treat you like a business
- Also search on "allodial title" to discover more truth on this important subject
- The existing legal fiction laws against private property are crimes against your rights as natural born sovereign state CITIZENS

11/3/2010

The data comes from Washington Assoc. of Sheriffs and Police Chiefs. <http://www.waspc.org/index.php?c=Crime%20Statistics>.

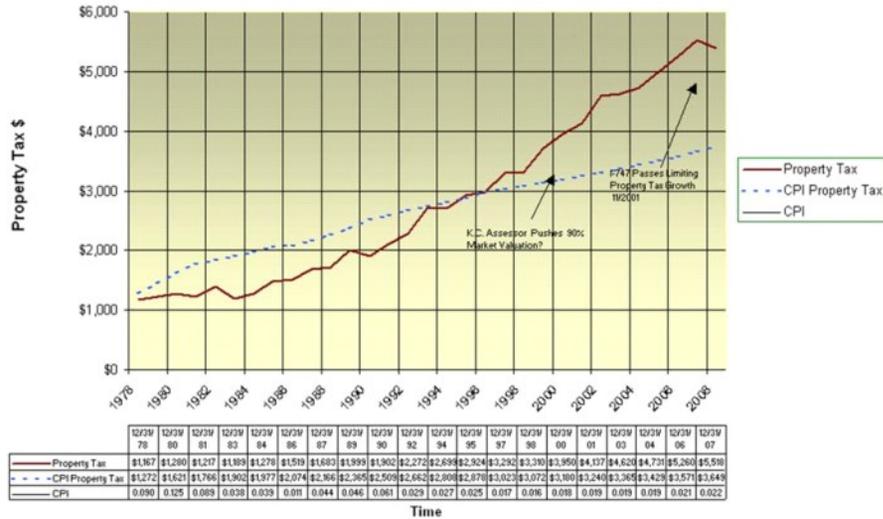

- What they are not showing you in this chart is the rising crimes the government is committing against the people,
  - e.g. tax crimes, property taking crimes, usurious interests, foreclosures, title dilution, legal fiction driving codes, etc.
- Reference again the Excel spread sheet above "Government Crimes Against Property Owners."
- The Government creates crimes by writing thousands of illegitimate paper laws
  - While creating thousands of artificial geographic fictional boundaries, jurisdictions, districts, counties, cities, etc.

Just as a federal judge recently ruled against King County, the CAO is a tax taking, so it is on any restricted use of private property.

- Any taking against your will and your birth rights is a crime.
- The Bill of Rights and the Constitution are conflicting?

King County Washington Property Taxes vs. CPI  
Enumclaw Washington 10 Acres + House

Here is a personal example of how my local county ignores the fundamental laws of the land while they have extorted over \$50,000 from my family over 32 years.

- The PA's and state AG ignore the high court rulings that property taxes are unconstitutional.
- Even the County Assessor Office is unconstitutional because:
  - Property records tracking our home and land violates our privacy and our rights
  - Property taxes are clearly unconstitutional
  - They have been repeatedly declared so in at least 4 state high courts
- The lower courts ignore the higher courts
- The councils, mayors, states, counties, cities ignore all the laws that do not serve their takings
- The higher courts ignore the basic laws of the land and the Laws of Nature and Nature's God
- And government makes up their own laws on the fly to further extort property owners
- The people ignore their history and thus become enslaved in ignorance and apathy
- You cannot tax & apply usurious interest plus further dilute land ownership from allodial title
  - all while using these funds to grow corrupt government bigger & richer
  - you especially cannot do this for any special interest state group like the NEA and the WEA
- PROPERTY TAXES ARE NOT NECESSARY AND THEY ARE UNCONSTITUTIONAL
  - **Washington State Has At Least \$20.28 Billion Surplus of Taxpayers Money**
    - Check this out <http://www.cafman.com/Articles/Art-WA-S1.htm>
    - TOTAL NET ASSETS OF THEIR 2008 Consolidate Annual Financial Reports (CAFR) **ARE 67 BILLION \$**
      - <http://www.ofm.wa.gov/cafr/2008/default.asp>
      - WRAP YOUR MIND AROUND THE FACT STATE PENSION MONEY DOES NOT BELONG TO THE STATE
      - NOR DOES IT BELONG TO THE STATE EMPLOYEES
      - IT IS STOLEN PRIVATE & PUBLIC PROPERTY
      - This is far in excess of what they need
      - This funding should be seized to replace & PAY BACK all the illegitimate taxes
        - against the natural born, sovereign state Citizens.
      - This is a criminal double standard
      - The state is robbing our private AND public property FOR THEIR OWN EARLY RETIREMENT
        - WHILE ENSLAVING US THROUGH DEATH
      - Walter Burien of [www.cafr1.com](http://www.cafr1.com) is right on about all this hidden wealth

This is one of the best articles I have read on the illegitimacy of direct taxes - <http://mwhodges.home.att.net/tax-history.htm>

11/3/2010

Taxes against private property are highly destructive to the families and the community and economy

- FORCED taxes only benefit the corrupt
- You can see the impact indirectly via the foreclosure map above for Washington State.
- This is the same shell game with the monetary system, central banking system, usurious interest & crooked tax system
- All of which leads to the boom bust greedy endless cycle of recessions, depressions and wars.
- Government from the little towns like Enumclaw to cities have become predatory
  - Through an explosion of ignorance of our most fundamental laws.
  - Through intentional blindness of the treble double dealing bench, bar and banks

American welfare is a forced concept that has created a cesspool of more taking.

- Welfare comes from free choice, not by force.
- Only 11% of government "welfare" takings go to "welfare" types while 50% goes to fraud.
- Force begets more force which begets fraud which is the downfall of all civilizations
- Don't think the Red Cross is going to save you either.
  - they kept most of their hundreds of millions of donations during the New Orleans disaster
- To the City of Seattle's credit they told its urbanites to take care of themselves during an emergency
  - The City said they may not be able to get to them for a few days
  - BRAVO SEATTLE

Legal fiction artificial municipal corporations and corporations have usurped our traditional way of life,

- Sending generations of our families to unnecessary wars to die
- Turning a nation of wealth into a nation of debt AND,
- Then driving its own people into needless debt thereby losing their individual freedom
- While turning a sovereign nation, the several states and the sovereign Citizens into debt ridden slaves

We have systemically enslaved the entire population

- Through the criminal misuse of legal extortion taxes, usurious interest and diluted titles
- All invented by legal fiction wizards from the bench, bar and the banks
- All of the natural born are threaten with endless legal fictional inventions
  - like "contempt"
  - And by De Facto colored corporate law overlaid upon the natural born, sovereign & free
- Judas judges have taken away the power of the people to decide and judge the law in jury or grand jury trial
  - The courts were only meant to be hearing courts
  - ONLY YOUR PEERS MAY JUDGE YOU AND THE LAW
  - NO JUDGE AND NO LEGAL FICTION LAWS MAY JUDGE YOU
  - ONLY GOD AND YOUR PEERS MAY JUDGE YOU
  - AND YOU CHOSE WHO YOUR PEERS WILL BE TO TRY YOU
  - THE MEDIA & BOTH POLITICAL PARTIES REFUSE TO ADDRESS FUNDEMENTAL ISSUES
    - BECAUSE THEY PROFIT FROM BUSINESS AS USUAL
    - I.E. STEALING PRIVATE AND PUBLIC PROPERTY

The dark side has broken up a free nation by creating one gigantic corporate shell of debt

- 60% of the world governments are in the exact same structure as the US
  - Thereby creating fictional and fractional bite size takings
  - e.g. regions, districts, zones, ordinances, codes, fees, permits, licenses,
- They have zoned us down, strangling and regulating US to death needlessly
- They have turned our own militia against us
- They have dropped our borders,
- They have taken over our money supply
- Ignored all our fundamental laws of the land
- Arrogant city, county, state and federal types have raided our traditional way of life
- The dark side reprocesses the rural areas into sterile Stepford towns using
  - criminal trespassing rails to trails
  - crime ridden parks

11/3/2010

- o unnecessary and unconstitutional zoning
- o forced green semantic swindling
- o forced black boot police squads telling you how to live and manage your property
- o They impose elite urban planning upon once pleasant little communities
- Then they act surprised when people start acting like insects
  - o Then they ignorantly write more legal fiction using political slight of hand to control us

THEY CREATED THE BIGGEST CRIMINAL UNCONSTITUTIONAL & IMMORAL TAXING SYSTEM IN THE WORLD

2004 US Income Brackets	Taxes Paid	Returns with Positive AGI	AGI (Millions \$)	Taxes Paid (Millions \$)	Income Split Point

Summary of Federal Individual Income Tax Redistribution Data, 2006 Source IRS & www.taxfoundation.org

- 97% of the federal taxes are paid by the top 50% wage earners
- The dirty secret is
  - o Taxes upon the natural born sovereign state CITIZENS ARE NOT JUST UNCONSTITUTIONAL ..
  - o THEY ARE UNECESSARY
  - o Government has more than enough to provide a limited government without any forced taxes on its citizens

Data compiled & extrapolated by J. R. Vennick from www.taxfoundation.org & other sources

- 97% of federal taxes come from only 30% of the population
  - o 30% of those filing & this is declining.
  - o The high courts have ruled that you cannot tax wages or private property
  - o The fed, states, counties and cities plus the treble double dealers are ignoring this
  - o The government has all the money it needs, it does not need to tax people by force!
  - o The Biggest Game in Town - <http://cafr1.com/IAM.html>
    - Pension funds pay a salary and benefits at retirement.
      - Any local government can be restructured to meet their annual budget needs "Without" taxes.
      - TRF (Tax Retirement Funds) paying for every City, County, State's annual budgetary needs!
      - This now makes the people the true owners with government being the true service provider.
        - Government has already shown that a TRF works
        - by example through the management of their own combined multi-trillion dollar pension funds!
        - CAFR1 says: Make it law and make it so!

  1. "There are now in this country over 136,000 separate government corporations in place.
  2. In doing so, government has expanded take-over ownership of it all by investment.
  3. They, composite government now own by the predominance of their investments
    - the banks, stock market, and the insurance industry.
  4. Let me qualify this: In 1963, all local and federal government investments
    - (not public like SSI or Medicare but government's own stash)

11/3/2010

- **held with the Bank, Brokerage, and Insurance industries was about four-trillion dollars.**
  - **Today? About one-hundred-ten trillion dollars internationally, and**
  - **Oh yes, silence has truly been golden here for them"**
- 5. Consolidating of the wealth amassed by government for administrative restructuring to phase out all taxation.
  - **Yes, all! Only 1/3rd of government's gross income is derived from tax income.**
  - **The other 2/3rds is investment and enterprise income.**
  - **They do not need the tax income if trimmed appropriately"**
- 6. This Rollye James interview with Walter Burien (a former commodity trading advisor) contains eye-opening information as to the actual financial situation of government (at all levels) in the U.S. -- you will be shocked:
  - "The government is sitting on billions of dollars they don't tell you about. Hear about the real budget -- the Comprehensive Annual Financial Report -- the feds, states, cities, towns, school boards and more are awash in cash they keep from you."
- The Cato Institute's Chris Edwards estimates that in 2005,
  - the average federal employee made \$106,579 per year including benefits,
    - about twice as much as the average person makes in the private sector.
  - Federal wages are also rising at about twice the rate that wages are rising in the private sector.
  - And that's only counting the 300,000 or so people living in and around D.C. drawing checks directly from Uncle Sam.
  - According to Balko, 7.6 million people nationally now earn their daily bread from contractors dependent on the federal government.
  - Tens, if not hundreds of thousands of these workers make their homes by the Potomac.
  - Then there's that other subspecies attached by the mouth to the body politic: lobbyists.
  - The Washington Post reports the number of registered lobbyists in Washington doubled between 2000 and 2005, to nearly 35,000.
  - Not coincidentally, federal outlays increased over that period from \$1.79 to \$2.29 trillion.
  - Remember, all this growth occurred before
    - the Treasury Department and Federal Reserve took over our banking system and
    - politicians started promising trillion dollar stimulus packages
    - not to mention trillion dollar budget deficits.

  - Current government employees must take annual training and exams, if they fail they are fired.
  - Training will include at least the following -
    - basic American history, Revolution, rights, founding laws, Laws of Nature
    - precedence high court rulings that all taxes upon wages & private property and till takings are illegitimate
    - Constitutional findings by experts that the following Amendments are illegitimate and misapplied
      1. 14th Amendment
      2. 16th Amendment
      3. 17th Amendment
    - Constitutional findings by experts find the following additional corruptions have occurred

        - to the fullest extent of the founding laws and the Laws of Nature
        - by a Grand Jury
        - vs. by the corrupted bench, bar and banks

Here are more takings beyond comprehension of the original intentions

1. The Constitution does not authorize the U.S. Attorney's office or the U.S. AG's office
2. The federal lands now in the boundaries of the sovereign states were meant to be state lands NOT federal lands
3. Corruption has not stopped since the constitutional conventions began
4. The Bill of Rights were to be the Supreme Law of the Land NOT the Federalist Constitution
5. The original intentions were to ONLY amend the Articles of Confederation NOT CREATE A CENTRAL GOVERNMENT
6. 34 of the 55 state delegates to the Constitutional Convention were lawyers
7. The founding lawyers regarded inferior courts as a vital link to the Supreme Court for maintaining federal supremacy.
8. The lawyers drafted Article V placing Congress, not the people, in control of the amending process
  - so the people could never propose or pass any amendment to reform the judicial system,
  - or abolish slavery or make or pertinent changes
  - The fix worked
  - It took a Civil War and 500,000 deaths and that did not even free us
9. On August 31, 1787, Mason declared "he would sooner chop off his right hand than put it to the Constitution as it now stands"
10. The Constitution was the product of the states, not the people
11. The Constitution wrongfully embodies the principle of direct action by a national government upon the people
12. The vast majority of the people (99%) had no input in making the Constitution
13. The people were without jurisdiction to ratify the Constitution because it was not made by delegates duly elected by the people.
14. Most of above quoted from "The Constitution That Never Was" by Ralph Boryszewski

The entire structure including legal & tax overlays, cereal departments, branches, benches, bars and banks are ALL artificial corporate fiction which have no jurisdiction or authority over the natural born sovereign state Citizens or even the sovereign states though they would like you to believe otherwise.

Each state must stand up and vote themselves back into a legitimate sovereign union.

- The states must awaken and reconstitute themselves into a Confederacy of The Several States
- Swearing allegiance to ONLY their own sovereign state natural born Citizens AND

11/3/2010

- Swearing themselves to cut all entanglements foreign, national, and local.

We must free ourselves immediately & completely from..

- this era of silent takings, artificial scarcity, strings of political, legal & financial witchcraft
- whereby they bail out the two political party mobs and their buddies, the bench, bar and banks.
- i.e. they are bailing themselves out by bankrupting US.

We must either stand up & fight together or we will surely continue to hang together is as true when Ben Franklin said it as now.

"The budget should be balanced, the Treasury should be refilled, public debt should be reduced, the arrogance of officialdom should be tempered and controlled, and the assistance to foreign lands should be curtailed lest Rome become bankrupt. People must again learn to work, instead of living on public assistance." Cicero - 55 B.C.
